Twelve Faculty Members Quizzed Hold Veriety of Opinions About Cause, Effect of Lindbergh Case

Expressions of sympathy, varieties of opinion as to the perpetrators of the crime and as many ideas as to the probable result were gained through personal interview Saturday of twelve faculty members concerning the kidnaping and brutal murder of little Charles Lindbergh, the nation's adopted

All in all, they agree that the offset will no doubt produce a keener-thiniting public regarding crime, national legislation affecting kidnaping and a possible re-organization of the organs for crime detection.

Harold Stoke, of the political science department, calls the incident "indescribable," but adds "it is bound to stir the sentiment of the people. However I don't think that crime will be aided or abetted that it was the work of gangsters

"Subject Morbid.

"What I'd say might not look well in print." declares John Sen-ning of the political science de-partment. "I do think, however, that must be relative to

partment. "I do think, however, that such national laws relative to kidnaping will be speeded up as a result of this tragedy."

But to Colleita Aitken, instructor in the school of fine arts, and interpreter of Henrik Ibsen and Gerhardt Hauptmann goes the mention for the most unusual opinion. Miss Aitken does not believe that it was actually the Lindbergh that it was actually the Lindbergh baby. "I don't pay much attention

Pauline Geliatly, instructor in the dramatics department, says "this crime, so tragic, should be a benefit to the world in the form of legislation for thinking minds. It seems to take something like this to awaken the world."

"I'm happy the child was found even the dead," Zolley Lerner, dra-matics instructor avers. "It will relieve a lot of suffering on the part of the Lindberghs. The kidnaping shows the power of the underworld and the inability of orficials to cope with similar tions. Outrages of this kind will take place as long as our govern-ment permits."

Moves to Thought.

James N. Reinhardt, associate professor in the sociology depart-ment, is emphatic in his suggestions as to the probable result. Having lived in Detroit, the scene of many crimes during the past decade. Mr. Reinhardt calls the Lindbergh case "a sad commen-
