CLUB PLANS EMBLEM FOR NATIONAL GROUP

Tassels Propose Union With Manhattan, Lawrence Organizations.

Choice of a suitable emblem and name for a national pep organization for women, begun last year by Tassels, was discussed at the Tassels meeting held Tuesday night at Ellen Smith hall.

Three women's pep groups, those of Kansas State Agricultural college and Kansas State university together with the Nebraska Pep club, will form the nucleus of this national organization. The three groups met in Lincoln last spring at the suggestion of Tassels, and Anne Bunting was elected president of the national organization.

To Submit Emblem.

Tassels voted to submit to the other two schools their emblem, which is a triangle, with the addition of the letters Lambda Alpha Sigma in the corners. With a favorable vote from the Kansas Aggie and Kansas U clubs, this emblem will become the insignia of the national group.

A constitution of seven articles for national control drawn up by Tassels under the chairmanship of Alice Quigle was submitted to the Student council at its meeting Wednesday night by Jane Youngson, Tassels president, and will be reported upon at the next Student council meeting.

LEGISLATIVE GROUP CHOOSES PORTER AS MEMBER ON FORUM

(Continued from Page 1).

The measure provides for the sale of tickets to visiting students of the Big Six schools who have athletic tickets of their own school at special rates.

Plan Co-operative Action.

The plan also suggests co-operative action to secure special rates and special trains to out of town games within the Big Six. Information offices where visiting students may register and secure housing accommodations at fraternities and sororities is also part of the plan. The proposal was referred to Jack Erickson for presentation to the Athletic Board.

The council voted not to affiliate with the National Student School federation and it was suggested that Nebraska concentrate its efforts in the organization of Big Six student councils.

Other things decided by the Student council at the meeting were: The revised constitution of the Engineering Executive board and the Girls' Commercial club were approved; the council will supervise the Kosmet Klub's "Nebraska Sweetheart" election, and the petition of the Sophomore Vigilance committee was rejected.

Home Economics Association.

The Home Economics association will hold its monthly meeting at the Home Economic building Nov. 10 at 7 o'clock. Dr. Gibbons will be the speaker.

SHOWER OF LEONID METEOR TO APPEAR ON MONDAY NIGHT

Prof. Collins Sends Out Maps of Areas for Record of Path.

According to Prof. O. C. Collins of the observatory the Leonid meteor display which occurs only once in thirty-three years, is expected to occur on or about next Monday, Nov. 14. In 1833 this demonstration was seen first in a brilliant scene, in 1866 it was again seen, although in less brilliance, and it occurred again in 1899.

These flying particles, often wrongly called shooting stars, radiate from the sickle of the constellation Leo, thus the name. The Leonid display is especially bright because the meteors enter the atmosphere of the earth at the rate of 40 or 50 miles a second. They become luminous when about 100 miles from the surface of the earth, and burn themselves out after proceeding about sixty miles further to the forty mile line.

To Designate Number.

Mr. Collins sent out maps of the sky as it is seen as one faces east so that anyone interested might record the path of the particles, the time of appearance, place from which they started, and place of disappearance. He also requested that these persons designate on the maps which they send in the number of meteors seen during each fifteen minute interval.

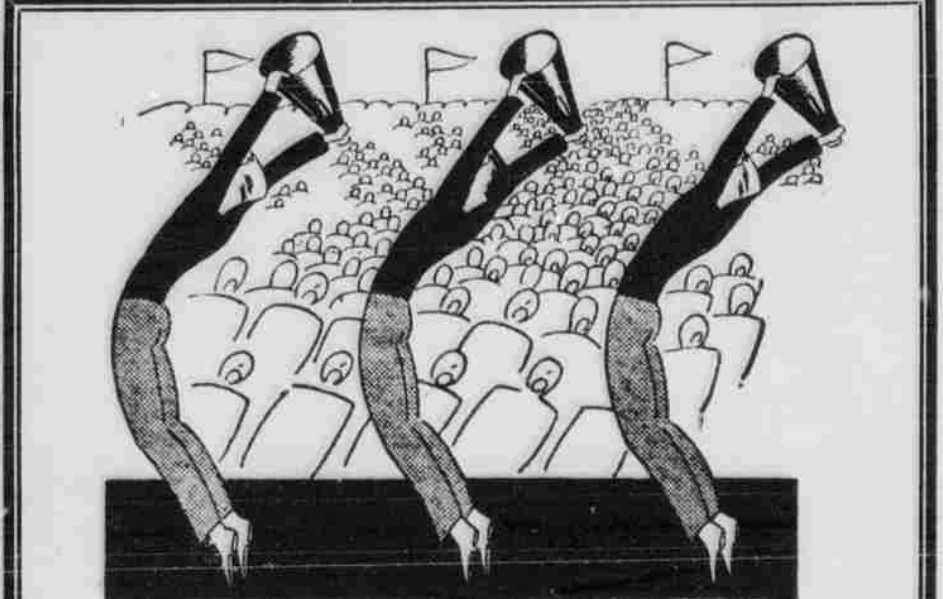

These figures are being compiled in order that the figures as to the distance from earth, the point of radiation, and other such computations might be checked.
