

SOCIETY

Several Greek Letter Organizations Schedule Parties for This Week End

Acacias Plan Annual May Morning Breakfast; Chi Omegas to Entertain at Spring Roundup Saturday Night at Cornhusker.

The Acacia May morning breakfast and several house parties have been scheduled for this week end. Chi Omegas will entertain at their annual roundup, and Lambda Chi Alpha will be hosts to their mothers on Sunday.

Acacia's Entertain.

Twenty couples will be present at the annual May morning breakfast to be given by Acacia on their lawn. The affair which will take place at 10 o'clock will be chaperoned by Mr. and Mrs. John Hollingworth and Herbert Yenne.

Wilkerson to Play.

About fifty couples will attend the Pi Kappa Phi party Saturday evening at the chapter house. Roger Wilkerson's orchestra will furnish music for the party which is to be a "Barn dance."

Hold Annual Banquet.

Sixty-five active and alumnae members of Chi Omega are expected to attend the annual spring roundup dinner Saturday evening at the Cornhusker. A jig-saw puzzle theme will be used in the appointments which will be in the sorority's colors, cardinal and straw. Henrietta Tarks will be toastmistress. Several out of town alumnae will be present.

Uni Student to Marry.

Dr. and Mrs. E. R. Ryerson have announced the engagement and approaching marriage of their daughter, Adath, to Edmund Hespy, son of Mr. and Mrs. William Hespy of Leigh. Miss Ryerson is a graduate of the university where she is a member of Kappa Beta.

PICNICS ARE ON PROGRAM TODAY

(Continued from Page 1.) There will be a game between the two business administration fraternities, Alpha Kappa Psi and Delta Sigma Pi. The college of pharmacy picnic will be held at Pioneer park today, with a complete program of athletics and other fraternal activities to follow the lunch which will be served at noon. In addition to the picnic, the pharmacists have scheduled their annual banquet which will be held at the Cornhusker hotel this evening. Prominent Lincoln pharmacists and faculty members of the college will be heard at the affair.

The college of pharmacy, in addition to the program for today, exhibited items of interest covering every phase of the various departments in the college, at their night. Departing from the usual custom, many of the spectators conducted experiments themselves at many of the booths, particularly at the ones covering physiology and pharmacology departments.

Pharmacy Experiments.

Of keen interest among those who visited the Pharmacy exhibits were the experiments on the lung capacity and blood count of the individual. Identification tests were also carried on during the evening, in which individuals were tested as to their ability to recognize simple drugs. Many other displays covering every phase of pharmaceutical work were worked out in the displays.

University geologists started on their expedition in the college days activities with their annual open house held last night at Morrill hall. The exhibits covered every phase of the work of the department, a special feature being how oil is extracted from oil shale, a thing which is found in abundance in Nebraska.

Another group demonstrated the minerals and rocks and how they

The new Innocents were initiated in the Armory shortly after the tapping and were guests at a thirty-second anniversary banquet of the Society at the Cornhusker hotel in the evening. Verne Hedge and Guy Chambers, Lincoln alumni of the Innocents, were principal speakers at the banquet attended by about eighty former Innocents.

SENIORS WILL VOTE ON TAX PLAN MAY 9

(Continued from Page 1.) be submitted to the board of regents for their action with the recommendation of the Student Council that it be adopted beginning next fall.

The fee, one-half the lump sum total for the year for the several activities and enterprises included in the final plans, would be paid at the same time regular university fees are paid each semester.

The fee would be compulsory for all full time undergraduate students, excepting those at the Medical college and School of Nursing at Omaha. Exemptions would be granted only on the grounds of financial inability to pay and only after a hearing and approval by a committee of faculty members.

The proposed list of items, that are not final and subject to revision downward, as well as the proposed plan of the ballot is as follows:

PRESIDENT CONTINUES 'BRAIN TRUST' PROGRAM

Roosevelt Surrounded With Professors to Give Advice.

By College News Service. WASHINGTON, D. C.—Despite prejudice in some quarters against his so-called intercollegiate "brain trust," President Franklin D. Roosevelt this week continued to surround himself with advisers whose professional "theories" are now being turned into practical government.

On the latest appointees from the ranks of the college professors is Dr. William I. Myers of Cornell University, who has been granted a leave of absence in order to act as assistant to the chairman of the federal farm board. His principal job for the present will be to bring out details of the plan to work federal land banks, intermediate credit banks, joint stock land banks and cooperative loans of the farm board within the scope of a single bureau, to be known as the Farm Credit administration.

Other professor-advisers whom the president has appointed include Dr. Herman Oliphant, professor of law at Johns Hopkins university, who is to serve the administration as general counsel for the farm board; Dr. H. Parker Wills, professor of banking at Columbia university, who cooperated in drafting the Federal Reserve act in 1913 and who is now aiding in the work of revising banking laws; Professor Adolf A. Barle, jr., of Columbia, who is advising the administration on proposed railroad legislation, and Professor Remford Tugwell of the Columbia university economics department, who is assistant secretary of agriculture.

Best known of the professors in President Roosevelt's "little cabinet" is Professor Raymond C. Moley of Columbia, who is assistant secretary of state and one of the oldest members in point of service—of the Roosevelt "brain trust."

Professor Moley commutes between Washington and New York once a week to conduct his class in public law at Columbia.

DAVID HALL POSTS NOTICE

Health Officers Say That Kissing Spreads Disease.

(CNS). Not that he had any idea he might be able to stop the practice, but Dr. David C. Hall, University of Washington health officer, this week posted a laconic bulletin, stating that kissing will spread trenchmouth.

He added that trenchmouth "is quite prevalent among our students," but suggested that fraternity and sorority groups might consider the advisability of "group treatment" of the disease.

"Ike" Nelson, Iowa State sprinter, started hitch-hiking to an indoor track meet at Columbia, Mo., and bummed an airplane ride.

"Eight Hour Day" Those navy sheers which go through all the day's activities right smartly, if a little matter-of-fact. Linerette accented.

"Holiday" The wash silks in the very new-looking modes—some with umbrellas; some with jackets; all with the tang of a contrasting trim.

"Trotteur" The linen suits in dark and light colors—so fresh-looking and trim. Three piece effects—many with "weekits."

Sizes 14 to 20

How to have a sunny personality

Isn't it a fact that your college friends who are happy and cheerful are those who enjoy good health?

Poor health is mirrored in your manner to other people. Too often, lack of personality can be traced to common constipation. It may sap your vitality and enthusiasm.

Just eat two table-spoons daily of Kellogg's ALL-BRAN. This delicious cereal promotes regular elimination. ALL-BRAN supplies "bulk," vitamin B and iron. Ask that it be served at your fraternity house or campus restaurant.

Kellogg's ALL-BRAN
The most popular ready-to-eat cereals served in the dining-rooms of American colleges, eating clubs and fraternities are made by Kellogg in Battle Creek. They include Kellogg's Corn Flakes, PEP Bran Flakes, Rice Krispies, Wheat Krambles, and Kellogg's WHOLE WHEAT Biscuit. Also Koffee Hag Coffee—reel coffee that lets you sleep.
