## The Usual Exhortation.

It is customary for the Nebraskan to do a bit of exhorting on election days, telling the students to get out and vote. Without going into the trite details of why students should vote we are merely putting this little reminder on the editorial page for fear someone might overlook the streamer and headline display on the front page.

The Nebraskan believes that there is a need for some judicious selection among the candidates who are contestants in today's election. More than anything else the candidates should be picked on the basis of their originality and aggressiveness. Both the Student council and the publication board need students who have ideas of their own and are not backward about expressing them.

The Student council has made considerable progress in the past two years in becoming actually a body which works for and accomplishes the desires of the students. But there is a vast distance yet to go and a number of obstacles to be removed. An intelligent student vote of large proportions will not only put into office interested and capable members of that council, but will give these members an assurance that the student body is really somewhat interested in what the council does.

Neither the council nor the student publication board members are just other "activities" if they are taken in the right spirit. They are real jobs which can be done well or ill according to the abilities of the people who held them.

## Sincere Congratulations To the Barbs.

ONE of the most significant factors involved in the political setup for the election today is the alignment of the Barb faction with the Yellowjacket fraternity faction. The two factions combined in the fall election, but at that time there was not so much at stake. In this major election there is the distribution of a number of important offices at stake and the two factions have worked together so well that there is an approximately equal division of the nominees between barbs and fraternity men.

The Nebraskan has little interest as to which of the two factions emerges victorious. But it is interested in the fact that the barbs are beginning to assert themselves and that while they are yet a little too weak to stand by themselves,

that a fraternity faction has afforded them almost equal consideration.

This year under the leadership of several unaffiliated men who have received little notoriety credit, the Barb Interclub council has been established as a functioning organization. It is this organization which has achieved recognition for the barbs and which has placed in nomination the greatest number of unaffiliated students for several years.

THERE have been occasional spurts in the past few years when the unaffiliated students made efforts to make a place for themselves in campus extracurricular activities. But most of these spurts have been flashes in the pan. The movement begun last year under the sponsorship of the Student council, which has crystallized this year in the form of the Barb Interclub council has all the earmarks of a permanent movement of lasting benefit.

The Interclub council is not confining its activities to politics. It has entered the field of intramural athletics, it has co-operated with the Barb council in sponsoring social affairs, and it has plans to put any unaffiliated student, who is interested, in the same position as fraternity men enjoy so far as student extracurricular activity is concerned.

The Nebraskan wishes to offer its sincere congratulations to the men who have undertaken this project and started it off successfully. Regardless of the fortunes of today's elections, we are confident that this movement will continue and grow so that in the not far distant future it may never truthfully be said that in order to be a recognized and important part of student life one must belong to a Greek letter organization.

## ASSOCIATION GRANTS RATES TO STUDENTS

### Teachers Attending U. of N. Will Have Lower Fare For First Time.

For the first time in the history of the university the Western Passenger association will grant special low rates to summer school students and teachers attending the summer session at the University of Nebraska.

These reduced fares are on the certificate plan basis of a fare and a third of the first class fares in effect May 15, 1933, for the round trip. These special round trip fares will apply for students attending the summer session of the University of Nebraska, provided 100 certificates are presented showing the purchase of one way tickets from points from which the one way fare is 75 cents or more.

This arrangement will apply in Colorado, Illinois, Iowa, Kansas, Manitoba, Minnesota, Missouri, Nebraska, northern Michigan, North Dakota, South Dakota, Wisconsin, Wyoming, Montana, southern Idaho, Arizona, British Columbia, California, Nevada, New Mexico, Oregon, Utah and Washington. The Western Passenger association includes all of the railroads which operate in this territory.

Students planning to attend the summer session at the University of Nebraska will buy a ticket to Lincoln and with it they will receive a certificate which when validated by R. D. Moritz, director of the summer session, will entitle the bearer to the return fare for one-third the regular price.

## ALUMNI ROUNDUP TO BE HELD ON JUNE 5

### Class Presidents Notified; No Definite Plans Are Formed.

The annual Alumni Roundup is scheduled to be held on June 5th this year, according to Ray Ramsey, alumni secretary. This event is traditional being set aside as a day on which members of graduated classes can get together and once more talk over those things which were of interest to them when they were in school.

According to reports from the alumni office the event will be a little less colorful than it has been in previous years because of the less favorable financial condition prevailing. Much of the activity of the roundup will be closely associated with those activities connected with commencement activities.

Letters have been sent out to the presidents of different classes and as yet no definite plans have been made. Luncheon and breakfast arrangements are expected to be handed in soon, according to Mr. Ramsey's secretary.

June 5th will be the twelfth anniversary for this alumni holiday.

### ASPIRANTS' FATE WILL BE DECIDED

(Continued from Page 1.)

pressed yesterday indicated that the vote cast upon the measure will serve as a general criteria for the rest of the student body, which will vote upon it at a later date.

For lack of a "great commoner" or a "Teddy" Roosevelt, both factions held rallies last night in preparation for the races today, and as has been the custom in the past, catered to the feminine vote in the sorority groups.

### Ballot To Be "Tight."

Political experts on the campus stated yesterday that the ballot will be "tight," which in the terms of the common layman means that the vote will be close on all offices open to contest. Both factions on the campus have maintained solid ranks during the past few days, and in spite of several rumors abroad on the campus, both factions seem to be ready to vote straight party tickets. A clean sweep of the majority of the council offices by the Barb-Yellow Jacket faction appeared to be highly improbable.

In the filings for senior men at large, three innocents have filed for election, including Byron Goulding, Woodrow Magee, and Joe Shramek. The other candidate, Louis Zinnicker, is a member of the Barb-Yellow Jacket faction.

In the women filings from the college of arts and science, twelve independent candidates appear, which is a record filing for that college.

Of the senior candidates, Byron Goulding is a member of Beta Theta Pi. ### No Teachers Candidate.

A most unusual feature of the filings for this year's election is that no man candidate has filed from teachers' college.

forget to send letters to their mothers on Mother's Day and on her birthday and if possible a few flowers," he concluded.

Fraternities and sororities are planning special programs for Mother's Day. At this time the mothers of as many of the members as possible will be present at the house for dinner and usually a short program after dinner. Some groups held their Mother's Day program last Sunday and some will not have theirs until May 21, but nearly every house will honor Mothers sometime.
