Coliseum Decorations Contract Let

CONSTRUCTION NOW UNDER WAY

Funds for Project Raised by Innocents Society; Work Under Direction of Jack Thompson, Jack Erickson and Howard Allaway.

The contract has been let and interior decorations for the coliseum are now under construction in Omaha, Jack Thompson, president of the Innocents society which has conducted a campaign for funds for the purpose this year, announced Monday. They will be ready for use when school opens next fall.

Decorations consist of turquoise blue velvet side walls and a sky blue canopy over the ceiling. The canopy, constructed in one piece, will be the largest of its kind in the world. Entrances will draw back and be draped with gold cord. A complete new lighting system with spot lights along the wall, floor lamps and an enlarged lighted orchestra shell will complete the decorations and make unnecessary use of the present large ceiling lamps.

The decorations will be removable and can be installed in three or four hours, converting the coliseum into one of the largest dancing floors in the country. It will be used for student social events and such other occasions as honors convocation and commencement.

To Form Background. The new decorations will form a background over which the individual motif of the party for which they are being used at any time can be carried out. The canopy will be so constructed that it can cover the balcony or leave it open for spectators.

The decorations and material were chosen by John K. Selleck, business manager of student activities, L. F. Seaton, operating superintendent of the university, F. Dwight Kirsch of the school of fine arts.
