

MEN STUDENTS MUST SIGN UP FOR THE TOURNAMENTS NOW

Entry Cards Close on Next Wednesday; Baseball Tourney on Tap.

July 5 will be the closing date for entries in the men's horseshoe and golf tournaments. Pairings will be made and play will commence soon after the Fourth of July recess, according to Warren Marsh, director of the recreational program for the summer session. Men wishing to enter either tournament should sign at Teacher's college, Social Science, or at the library.

An organized baseball tournament will be held after the resumption of school providing enough teams indicate a desire to play. Rooming houses or other groups interested in entering a team should communicate with Mr. Marsh. After this week, baseball on the diamond south of Teacher's college will be limited to university men. The turnout for this sport has been under that of previous years due to the lower enrollment and to the extreme heat.

The feminine contingent held the spotlight with the closing of the third week of the summer session athletic program as the university girl's baseball team romped over the Rokeby girl's team 23 to 2 on the diamond west of Teacher's college, Wednesday evening. The university girl's held their opponents scoreless until the last inning when a series of walks combined with a wallop over second base scored two runs. The Steasney sisters were outstanding for the university team, Irma's fast pitching strongly resembling the masculine style. "We have the makings of a good team if the girls will stick together," commented Mr. Marsh. It was the girl's second scheduled game.

Those registered to date for the golf tournament are:

Sport Shorts

by IRVIN RYAN

Coch Brown is conducting a basketball class in the University Coliseum from 8 to 11 during this summer's session and is putting the men through drills and plays in addition to theory work.

This is a coaching course and also helps to put into shape men going out for basketball here at the university this next fiscal school year.

The men taking this course who were on last year's basketball team are: Boswell, Parsons and Bauer. Other men are Williams and Harvey Sorenson. Hale, ace Lincoln high performer on the maples, is also taking summer school and is getting along nicely. Hale will be a freshman next semester.

Nebraska hopes to accomplish much next year in the way of both football and basketball, and especially against Wyoming, which was just recently added to the schedule of next year's basketball games. Wyoming has as their coach "Dutch" Witte, former Nebraska gridiron and maple star, and he has had excellent success for the past two years, Wyoming being rated as the second best team in the United States.

Two former Lincoln high graduates are now playing there, Les "Beanie" Witte, "Dutch" Witte's brother, and Kimball, who went there immediately after graduating from Lincoln high.

FORDYCE REVIEWS SURVEY

Tells Lancaster Teachers of Results of Testing 450 Children.

Dr. Charles Fordyce addressed the rural teachers of Lancaster county Thursday, June 29, on the results of an educational survey made in the county during the year.

This survey is conducted under Dr. Fordyce's supervision. It had for its aim to determine to what degree rural pupils progressed as a result of a year's schooling. The first series of educational tests were given in October and the second series in April. These included standardized tests in handwriting, reading and spelling. Remedial measures instituted after the first tests were given brought about an improvement of about 50 percent in the achievements of the pupils. Over 450 school children took the tests.

TO N. E. A. MEETING.

Charles A. Bowers, secretary of the Nebraska State Teachers association, and Dr. D. A. Worcester, professor of educational psychology, are leaving for Chicago where they will attend the annual meeting of the National Educational association.

PLAN CHICAGO TRIP.

Miss Minnie Schlichting, assistant principal and supervisor of the teachers college high school, is planning to attend the world's fair at the close of the summer session. She will be accompanied by Miss Lois Kestfer, teacher at Longmont, Colo., who is attending summer school.

PRIMITIVE MAMMALS ENACT MUTE DRAMA IN MORRILL MUSEUM

The recent mounting of a sabre-toothed cat near the front feet of a large fossil elephant brings near completion another mammal group in elephant hall of the university museum.

The sabre-toothed cat explains why the elephant has lifted its fore feet in the air. It is about to trammel the cat with its huge feet. The group will be finished within several weeks when a cement base will be cast around it.

This fossil elephant was discovered in Nebraska. It was mounted by Henry Reider assisted by Frank Bell. Mr. Bell modeled the sabre-
