

HUSKER B TEAM, WESLEYAN, PLAY SCORELESS GAME

Coyotes in Only Dangerous Scoring Threats of the Battle.

Flipping unsuccessful passes all over the field, the Nebraska "B" team was held to a scoreless tie and outplayed by the Wesleyan University eleven in their game Friday evening on the Coyote rectangle.

Only one dangerous scoring threat was made, that by Wesleyan in the first quarter, when a series of passes and running plays by Somerhalder and Seyler placed the ball on the ten yard line, with first and goal to go. The Nebraska defense stiffened and forced Somerhalder to pass over the goal line.

Nebraska Threatens. Nebraska made several scoring threats but they were stopped midway of their purpose by a penalty of an intercepted pass. One pass, from Cockburn to Fowler gave Fowler an open field ahead, but Morehouse caught him from behind on the Wesleyan thirty yard line, and here the offense failed to click, Wesleyan taking the ball on downs.

Wesleyan made more first downs than Nebraska, but the aggregate yardage was about the same for both teams. Wesleyan had the edge by intercepting two-thirds of the "B's" passes, many interceptions terminating a drive toward the goal.

Pass Offense Weak. The weakness of the "B" squad's pass offense was demonstrated by this game. Two thirds of the passes thrown were landing in the arms of Wesleyan gridgers, who were running them back for long gains. Somerhalder and Barrett proved especially adept at this type of defense, the Trot, Seyler, and Weyand got their share.

The Methodists' pass offensive fared but little better, but two good passes gave them their only scoring opportunity.

The starting "B" backfield, composed of Chase, Mead, Beaver, and Cockburn, functioned to perfection most of the time, but the line play and blocking was slightly ragged at times. Somerhalder and Trot looked best in the Wesleyan backfield. Somerhalder punting outside within the Nebraska fifteen yard line with consistency. Trot's running back of punts was a feature of the game. In the line Fowler looked good for Nebraska, while Morehouse and

Shuman showed up best for Wesleyan.

The starting lineups: Nebraska—Dean, Morehouse, Funken, Armstrong, Casement, Kerikades, Fowler, Chase, Shuman, Cockburn, Young, Hastings, headlineman, Knight, Neb. Substitutions: For Nebraska, Miller, Mueller, Fisher, Dobrown, Tomen, Nephid, Maier, Reese, Lillibridge, Rist. For Wesleyan: Trot, Poulos, R. Shuman, B. Weyand, Barrett.

WOMEN TRY OUT FOR TANKSTERETTES CLUB

Nineteen Have Applied for Admittance With More Exams on Oct. 13.

Results of the try-outs for Tanksterettes, women's swimming club, will be announced Wednesday, Oct. 11, according to Josephine Orr Danielson, sponsor of the organization. Nineteen girls have already sought admittance. Another try-out is scheduled for Saturday, Oct. 13, from one to three in the coliseum.

"Entrance requirements are not strictly adhered to," states Mrs. Danielson. "Exceptions are made to those with marked ability in one particular line. We have used the standards for only a year and are not sure they are exactly fair."

Requirements for admittance to the club include: Swim the crawl one length of the pool in 20 seconds. Swim the breaststroke one length in 22 seconds. Swim the sidestroke one length in 23 seconds. Swim the crawl eight lengths for endurance. Perform one excellent or two fair dives.

VESPER LECTURE IS BASED ON RELIGION

Dr. Charles Patterson, professor of philosophy, will speak at the Y. W. C. A. vespers on Tuesday, Oct. 10, in Ellen Smith hall. His address will be upon some phase of religion.

Elaine Fontaine, chairman of the vespers staff which is in charge of the service, will preside. There will be special music.

Crissy Named Major in Army Infantry Division

Orders have been received that Capt. John W. Crissy of the infantry division of the United States army has been advanced to the rank of major.

FIVE TEAMS REMAIN LEADERS IN SOCCER

Intramural Office Announces Team Standing for the Various Leagues.

Intramural soccer teams remaining undefeated in the tournament at the end of the second week of competition are Sigma Chi, Delta Sigma Phi, Alpha Gamma Rho, Phi Kappa Psi and Beta Theta Pi, according to an announcement issued by the intramural office Saturday.

The team standings in the first league are as follows:

Table with 4 columns: Team, W, L, T, Pct. Sigma Chi 2 0 1 .333, Alpha Gamma Rho 2 0 1 .333, Phi Kappa Psi 2 0 1 .333, Beta Theta Pi 2 0 1 .333, Delta Sigma Phi 2 0 1 .333.

The standings for the second league are:

Table with 4 columns: Team, W, L, T, Pct. Alpha Gamma Rho 2 0 1 .333, Phi Kappa Psi 2 0 1 .333, Beta Theta Pi 2 0 1 .333, Delta Sigma Phi 2 0 1 .333, Sigma Chi 2 0 1 .333.

The teams in the fourth league are:

Table with 4 columns: Team, W, L, T, Pct. Beta Theta Pi 2 0 1 .333, Phi Kappa Psi 2 0 1 .333, Alpha Gamma Rho 2 0 1 .333, Delta Sigma Phi 2 0 1 .333, Sigma Chi 2 0 1 .333.

MECHANICAL ENGINEER SHOW HIGH SPEED FILM

250 Attend Open Meeting of Engineering Society Wednesday Nite.

Approximately 250 persons attended the open meeting of the student branch of the American Society of Mechanical Engineers, Wednesday night, in room 206 Mechanical Engineering building. Following the meeting all freshmen and sophomore engineers were asked to remain for a short meeting. Professor J. W. Haney, Professor C. A. Sjorgen, and Dean O. J. Ferguson were asked to give short talks to this group.

Four films of one reel each were shown. The Cascade tunnel and the New York subway construction, and two reels of high speed film, taken by Professor Baron C. Shiba's high speed camera, which is capable of taking 20,000 pictures per second, were shown. Mr. Orville Taylor gave an explanation of the construction and operation of this high speed camera. He also gave a brief explanation of the high speed films before they were shown on the screen.

Photography of a bullet shattering a light bulb is one of the features. After firing the projector is slowed down so that the bullet may be followed from the time it leaves the muzzle of the gun until it strikes its object. Such pictures open a new field in scientific research. It will make possible the study of the effect of air currents when they are met by the propeller of an airplane.

The high speed films will be shown again Friday afternoon at 5 o'clock in room 206, Mechanical Engineering building, according to the American Institute of Electrical Engineers, who will hold a meeting at that time. The meeting will be open to the public.

IOWA STATE MEETS DRAKE

Only Fall Race Scheduled For Cyclone Harriers Between Halves.

Ames, Iowa, Oct. 7.—Iowa State will meet Drake in a 2-mile team race between halves of the Iowa State-Kansas State football game on State Field, Armistice Day.

This is the only fall race definitely scheduled for the Cyclone harriers, but Coach Robert Simpson is bargaining for additional runs with Iowa, Missouri, Drake, and Grinnell, and a sprint medley with Nebraska.

The latter, if it can be arranged, will be held between halves of the Cyclone-Cornhusker football game on State Field, Oct. 14, and will be a six-man relay in which the first two runners will carry the baton 110 yards each, the second two, 220, and the last two, 440.

OMAHA LIBRARIAN IS VISITOR ON CAMPUS

Madeline S. Hillis, librarian of the college of medicine of the University of Nebraska in Omaha, was a visitor on the Lincoln campus Thursday.

IT SEEMS TO ME by Irwin Ryan

Among many of the happy revelations of a happy day for Husker football fans Saturday afternoon was the fact that the reserves aren't as weak as they were purported to be previous to the game with Texas.

The second string men displayed plenty of punch in both the offensive and defensive departments of the game. Jerry LaNoue demonstrated that there is a bit of that much-desired skill present in the reserve backfield, and that the line does a presentable job of blocking, when he skirted the Texas left end to run 16 yards to a touchdown, on the first play of his varsity career. Johnny Williams also did a fine job in lugging the ball. He was one of the outstanding backs of the day, and scored one of the four touchdowns by lugging the ball across after a punt was blocked by Thompson. The coaching staff should hope that the reserve punch will last through the season.

Jerry LaNoue, the sophomore quarterback from Wisner, was sent into the tilt in the third quarter, and on the first play of his career in varsity togs sprinted around end for 16 yards and the third tally of the day. Jerry's place-kicking left much to be desired, and it looks like he has a long road to travel before he is able to do that job as effectively as Bernie Masterson does.

A number of sports writers, who were present at the melee, declared that Hub Boswell played the best game of his career at Nebraska. The Ravenna gridler reeled off the best run of the day when he tore off a 30 yard gain, during the third quarter. He was also on the receiving end of a lateral pass which netted a gain of 24 yards, Hub finally being downed on the Texas 9 yard line. This was the most perfectly executed act of the day, Masterson tossing a short forward pass to George Sauer, and Sauer flipping the ball back to Boswell when he was just about to be tackled. If indications apparent yesterday mean anything, it appears that Boswell, who is a senior and two letterman, is in for a great season, what with his blocking and ball-covering ability.

Coach Bible's great triple-threat back, George Sauer, lived up to his reputation much better than did Bohm Hilliard, highly touted southern star. Hilliard, who is said to have compiled an average of 27 yards a play in the first two games of the season for Coach Littlefield's squad, averaged a meek 11 1/2 yards Saturday. Therefore Sauer won the much-talked-of dual. The Texas line looked like it was countering a stampeding locomotive when Sauer hit it, and a stampeding locomotive is much worse than a Longhorn stampeding if we may be permitted to draw that comparison between the Husker and Texas teams as a whole. According to figures compiled on the game and appearances from the stands, there is some basis for analogy.

The much vaunted and dreaded Texas rushing attack failed to formulate and most of the southerners' efforts to gain by this method didn't amount to much. In fact aerial flights undertaken by the visitors were fozzles all the way around. They had nothing consistently effective in the way of offense, that is all efforts were noticeably ineffective against Line Coach Schulte's forward wall.

Next comes Iowa State, which is the last of the five Big Six teams aiming for Nebraska's scalp. All of the conference teams are naturally desirous of the Husker's fall from the throne of league gridiron, and will make life miserable for the champs in attempting to bring about the fall. Let's hope the pace doesn't become too hot, or that if it does Coach Bible has a good enough squad to weather the heat unscathed.

Prof. Dwight Kirsch, of the School of Arts, lectured on "Color and Lighting the World's Fair," to the occupants of the Veterans hospital Monday evening. The lecture was intensified by a series of slides in natural photography taken by Professor Kirsch this summer.

Bengston to Address Teachers Convocation

Prof. Nels A. Bengston, department of geography at the university, will address the general convocation of the state teachers college at River Falls, Wis., Oct. 12, on the subject "Lights and Shadows in Carribean America." On Oct. 14, he will address the Minnesota education association at Moorhead.

MILWAUKEE, Oct. 7. (IP.) Dr. Glenn Frank, president of the University of Wisconsin, last week proved to the world that a college president can think just a little faster than a holdup man, clever as the underworld is given credit for being.

Dr. Frank was alone in a hotel room here when a robber forced his way in, gun pointed at the educator.

"Back up against the wall and hand me the keys to your bag," said the burglar.

Dr. Frank backed up, but he backed up against the bathroom door. Suddenly he swung himself inside the bathroom, slammed the door and locked it, and ran to the window calling for help.

The robber escaped, but Dr. Frank retained the keys to his bag.

ENGINEERING COLLEGE IS HOST TO ALUMNI

Recent alumni visitors in the college of engineering at the University of Nebraska were: Noel L. Smith, Independence, Mo.; Gilbert C. Schweser, David City; Charles E. Brodenick; Rudolph F. Basta, Council Bluffs, Ia.; Gustav F. Freudenberger; E. Darrell Schneider, Schenectady, N. Y.

Lackey Lectures Before Iowa Teacher Institutes

Dr. E. E. Lackey, professor of geography at the University of Nebraska, spent the week end at Shenandoah, and Mount Ayr, Ia., giving lectures before the teachers institutes at those places. He will speak at Newton, Ia. on October 14. Professor Lackey's lectures deal with the practical aspects of teaching geography in the public schools.

Although Associated Collegiate Press has been recently formed, it has the backing of the oldest and largest college press group in the world. It is the name under which the National Scholastic Press association will consolidate all its college activities. Newspapers may be members of A. C. P. and take part in all other activities of the association, without taking Collegiate Digest. There is already a waiting list for the supplement, in fact.

In Attempting to Ferret Out Answers, Numerous Vague Queries Librarians Reach Ends of Earth in Little Room

A little corner room in the main library at the University of Nebraska connects with all parts of the world. To it come people with problems and questions that would puzzle the sages. From it goes out knowledge from far countries, facts known since ancient times, pictures, names, answers.

No one person, no one book can hold all this information. To the two ladies whose finger-tips connect with those far corners daily come queer questions which lead into mazes of books and magazines and references. Miss Clara L. Craig, reference librarian, and Miss Ruby C. Wilder, assistant in this department, have learned to follow trail clues that show them wonders among facts man has noticed.

One day will come a lady who says, "I remember a poem I read as a little girl, about pioneer women who had to live sordid lives. Could you tell me where to find that?"

From such vague ideas in the mind of the patron herself the librarians must try to find the bit of writing, hidden somewhere among the volumes on library shelves over the world. How are such things found?

Miss Craig and Miss Wilder have in their reference room several hundred books from which they may hope to gain hints, or give the patron an idea. They look through the index to poetry, first lines, titles, and authors' names. Was the writer Frost, or Sandberg, or Garland? The lady thinks it might be Garland, so they search through the title of his poetry. There is a title that sounds rather drab and unromantic. And sure enough it is the poem she had sought.

Many of the questions are not so easily answered. Many of them that seem easy are very difficult to run across. Someone asked for definition of "kibitzing." That sounded simple. Yet Webster had

not needed the word when he compiled his dictionary. Finally it was found in a 1933 edition.

A newspaper man called one day for an illustration of a mosquito "on its toes," meaning, he said, that it was all ready to "bite" someone. So Miss Craig found him a picture, by looking through a book of listed illustrations, and through magazines which might carry stories of that nature.

The most difficult problem, Miss Craig believes, that has come to her, was presented by a woman who had a superstition regarding the vibration of numbers, and sought to know something about it.

When a student wanted an article on "how to tell a Ford from other cars" the librarian sent him to the engineering department. Another who wanted to know the difference between a Swiss and Spanish steak was referred to the home economics department at the college of agriculture.

Giving out information is not the chief duty of Miss Craig and Miss Wilder. Finding the material is their big job. They cannot know all the solutions, nor can they assemble all possible books on all subjects, but they can work from clues to gain the knowledge through other people, or through printed matter in other places.

Every few days a patron will come, bringing old coins, or old porcelain to be identified, in the hope it is of value. Miss Wilder has even been out to see pictures in Lincoln homes to tell the owner what value she believes they possess.

Others demand to know new things, so the librarians must keep up to the minute on all subjects. In their book of abbreviations letters have been written in ink markink the "new deal" in American government—NRA, NIRA, and many others.

And so the little room connects through all the ages, through all countries, and find answers for the ever curious mind of man.

SOCCER BASEBALL TO START MONDAY, OCT. 9

Competition in Sport to Be Held on Field East of Social Science.

Women's soccer-baseball, to be played on the field east of Social Science hall, starts Monday, Oct. 9. All girls in individual gymnasium who wish to enter intramural competition should obtain a permit from Miss Clara Rausch. The schedule for the week:

- Monday—1. Kappa Delta vs Alpha Phi. 2. Delta Gamma vs Kappa Kappa Gamma. 3. Howard Hall vs Raymond Hall. 4. Gamma Phi Beta vs Chi Omega. Wednesday—5. Pi Beta Phi vs Alpha Omicron Pi. 6. Alpha Delta Theta vs Alpha Chi Omega. Thursday—7. Phi Mu vs T. N. T. 8. Kappa Alpha Theta vs Huskerettes. Friday—9. K. B. B. vs Kappa Phi. 10. Alpha Xi Delta vs Hobby club.

PRESIDENT ELUDES ROBBER

College Head Proves He Can Think Quicker Than Hold-Up Man.

MILWAUKEE, Oct. 7. (IP.) Dr. Glenn Frank, president of the University of Wisconsin, last week proved to the world that a college president can think just a little faster than a holdup man, clever as the underworld is given credit for being.

Dr. Frank was alone in a hotel room here when a robber forced his way in, gun pointed at the educator.

"Back up against the wall and hand me the keys to your bag," said the burglar.

Dr. Frank backed up, but he backed up against the bathroom door. Suddenly he swung himself inside the bathroom, slammed the door and locked it, and ran to the window calling for help.

HOME EC GIRLS PREFER MARRIAGE AS CAREER

Home Economics Course Changes Attitude on "Life Work."

Senior girls at Iowa State college more often look forward to marriage as a "life work" than do freshmen. But that is only one of the changes in point of view that four years at a home economics college cause in its girls, according to Dr. Elizabeth Hoyt, professor of economics and home management.

Dr. Hoyt bases her conclusions on a study recently completed by Opal Lynn, graduate assistant in the home management department.

"Senior girls not only approve as a career, but also prefer larger families than the freshmen," Dr. Hoyt said yesterday.

Most of the freshman and senior girls at Iowa State college said they gave confidences first to their chums, second to their mothers. But, for the seniors, boy friends ranked third, while for the freshmen fathers ranked third.

Finances Worry Seniors. The foremost worry of the senior girl is her finances; the second, her studies. The freshman reverses the order.

Senior girls go to church less often than do freshmen. But the senior has a more satisfactory philosophy of life than the freshman.

"Parents who worry because their children no longer confide in them may find their fears groundless," Dr. Hoyt said, "since the survey showed that senior girls asked advice much less often from parents than did freshmen, but felt closer to their parents than the younger girls did."

Seniors want to make more changes at home in the rearrangement of furniture and pictures than the freshmen.

"Since the girls are trained in home furnishing and decoration this is very natural," Dr. Hoyt said. "If mothers would realize this and co-operate with their daughters a possible source of dissatisfaction and unhappiness might be removed."

The questionnaire was given to 90 percent of all freshmen and senior girls.

RECORDS SMASHED AFTER FINAL CHECK

(Continued from Page 1.) Brown, Mildred Huff, Arlene Bors, Loreta Murphy, Elaine Woodruff, Scherer, Emily Spangard, Thekla Sterkel, Gretchen Schrag, Ruby Schwemler, Mary Reimers, Leona Pollard and Bash Perkins.

A checkup to determine the winning sales team had not been completed Saturday night, but competition for first place was exceedingly close between teams headed by Mary Edith Hendricks and Roma DeBrown. Other teams were headed by Florence Burnan, Emily Spangard, John Brownlee and Adela Tombrink.

Last Luncheon Friday. The last of a series of daily Tassel pep luncheons was held Friday noon at the Grand Hotel with practically all Tassels present to receive final instructions. George Sauer and Jack Miller, varsity football performers, represented the athletic department and commented briefly on the drive. A short meeting was also held Saturday at the "Moon."

"The Tassels are much pleased with the results of the campaign, and believe they have shown themselves worthy of conducting the drive in the future," Ann Bunting declared Saturday evening. "Every girl has spent a lot of time and energy in selling more tickets in one week this year than were sold in three weeks last fall. Pep meetings did a lot, I believe, to keep up the morale and the organization, and competition between individuals and teams as well as school spirit really spurred everyone on to greater efforts. We appreciate the support given us by the student body in making the drive a success."

Werkmeister Addresses Grand Island Meeting

Dr. W. H. Werkmeister of the department of philosophy at the University of Nebraska addressed the Grand Island League Women voters Saturday in city. His recent tour of Germany and Poland was his subject.

WHY BORROW A CAR?

We have not raised Rent-a-Car prices. They are still at the lowest ever offered in Lincoln. Flat rate for evenings and specials for long trips. Good cars, insurance, always open. N.E.A.
