B. A. Rolfe, rotund conductor, has a new idea. He is going to

broadcast over an NBC-WEAF network, beginning Saturday, Oct.

, at 10 p. m., e. s. t. The triumph of the winning

teams in the current day's ten or

twelve outstanding gridiron bat-tles will be signalized by the play-

ing of the victorious school's best

known football song, according to the Rolfe plan, which will give the

listening alumni of the various in-stitutions a bit of campus atmos-

phere along with the results of the

12 to 0" thus would be the signal for the playing of "Boola, Boola,"

and the glad news to Navy men that "Navy walloped Somebody

Else 24 to 6 this afternoon" would

call for the immediate strains of

"Anchors Aweigh." So and So and Somebody Else wouldn't get any music that night.

The plan also presents a problem in musical timing and arrangement, as Rolfe points out:

'We won't know until just before we go on the air who the win-

ners, especially in the far west, are," the band leader explains, "so we will have to make and rehearse

two sets of orchestrations for each

of the ten or twelve games. Not only will these orchestrations have to be identical as to timing, but

care must be taken that none of

the forty men in my orchestra gets the wrong music on his rack through mistake.

"To guard against this, I have devised a blank folio cut so that cardboard strips containing the

music can be inserted at the last

minute. There will be, of course,

a strip containing each man's mu-sic for each of the colleges, and
