

Engineering College Lists Woman Student

By College News Service. NEW YORK. (CNS). Miss Isabel C. Ebel has enrolled as a graduate student in the New York University College of Engineering. The only woman student, she is studying aeronautical engineering.

PEEPING THROUGH THE KEYHOLE WITH

Perky Polly

Am I excited this week! Fairly dithering over these new accessories... they're the kind that give a costume (even if it is last year's) that swanky know-it-all air. And if you're feeling a trifle fed up... just trot down to Gold's and come home with one of these in your pocket. It'll put new zip into your life!

This Fall-life is all "glittery"

Even your Jewelry! I simply went wild over the quaintness and sophistication of this jewelry artfully combined with simulated pearls. Gold's designed it, so it's exclusive, and a prettier piece of designing I never saw! You couldn't find anything more distinctive to "glamorize" (I coined that one) your Fall clothes.

\$1

Jewelry—Street Floor

One of your favorite Powders

And it certainly makes a pretty spot on your dressing table or wherever you keep your gadgets. It's Coty's, in natural, cream, and two shades of rachel. You've had this elegant powder before. Here it is in a new convenient box.

Toiletries—Street Floor

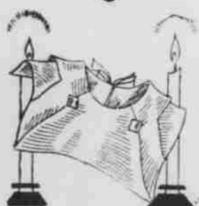

A Puff of a Bag...

It's velvet with a mirror ornament and it's delectable. It's one of those indispensable bags that you carry all afternoon, and such a grand size you can even carry it in the evening. Now who wouldn't be crazy for a bag like that. Taffeta lined.

4.95

Handbags—Street Floor.

A Demure Bib and Tucker

It used to be that you wore a bib only in the front, but this collar features a bib effect both front and back. And it's a honey! Of silk faille in dazzling white, it will make you look as fresh as the flowers in May, no matter what you wear it with.

Ak-Sar-Ben Horse Show Attracts Many; Opens With Military Parade

IF YOU WOULD BE RIGHT IN THE MIDST of the social seramble, you will be dashing up to Omaha some time this week to see the Ak-Sar-Ben Horse Show, which started last Saturday evening at the Coliseum. There is a performance every evening at 8 o'clock and matinees on Wednesday and Friday at 2. Incidentally the show will close this coming Friday.

A brilliant parade of military groups, bands, and beautifully decorated floats opened the stock show week Saturday morning, Armistice day. In the show are bucking broncos, cowboys, Brahma and long-horned fighting steers and scores of show horses and jumpers. Scores of the social elite of Omaha have attended the affair and a number of university students have found time to go to the second event presented by Ak-Sar-Ben this year.

AND SPEAKING OF high lights in the social calendar, Wilhelmy's tea for her daughter, Jean, this afternoon will be the last of a long series of events in honor of her marriage to Jeff Weston Thursday night. Twenty-seven of Jean's friends are expected to attend this pre-nuptial tea, which will follow the rehearsal of the wedding ceremony. The party will be held at home. Chrysanthemums will be used as decorations.

TWENTY ALPHA PHI mothers attended a one o'clock luncheon at the chapter house yesterday afternoon, when Mrs. A. J. Stenten, Mrs. Anna Bilson, and Mrs. Nettie Mason were hostesses. A business meeting followed the informal lunch.

SECRETLY MARRIED IN Papillon on Oct. 10 were Miss Helen Ruth Clark of Waterloo, and Lawton Butcher of Valley, both former students at the university. Mr. and Mrs. Butcher will make their home in Valley.

A KITCHEN SHOWER for Miss Frances Barton, who will be married on Nov. 25 to Orville E. Lewis, former university student, will be held Thursday evening in Raymond at the home of Mrs. John Brey.

A TEA HONORING Mrs. John Kos, new housemother at the Newman club, was held last Sunday afternoon at the house. House-

What's Doing Wednesday.

Pre-nuptial tea for Miss Jean Wilhelmy and Jefferson Weston at the home of Mr. and Mrs. E. F. Wilhelmy.

Thursday. Marriage of Miss Jean Wilhelmy and Jefferson Weston at the First Presbyterian church at 8 o'clock.

Meeting of the Newman Mothers club for a 1 o'clock luncheon at the chapter house.

Luncheon for the Phi Mu Mothers club at 1 o'clock at the chapter house.

Meeting of the Alpha Tau Omega alliance at the chapter house at 1 o'clock for luncheon. One o'clock luncheon for the Theta Phi Alpha Mothers club at the chapter house.

Saturday. Zeta Tau Alpha alumnae luncheon at the home of Miss Maude Rousseau at 1 o'clock.

Kappa Alpha Theta alumnae luncheon at 1 o'clock at the home of Mrs. M. Olive Watson.

Alpha Delta Theta dinner at the Cornhusker hotel at 6:30. Faculty club supper and dance in the student activities building on the Ag campus at 7 o'clock.

mothers from most of the fraternities and sororities attended the affair which was planned by the active members of the club.

ARRANGEMENTS FOR THE Job's Daughter's annual fall party, which will be given Friday night, November 17, at the Lincoln Country club, are in charge of Lois Rathburn, Delta Gamma. Carnival decorations will be featured at the affair, and the chaperons will be Mr. and Mrs. John M. Bennett, Mr. and Mrs. C. C. Goodwin, Mr. and Mrs. H. M. Rathburn, and Dr. and Mrs. Redfern.

MOVE TO PROVIDE EDUCATION FUNDS FOR UNEMPLOYED

Recommend Use of Federal Money to Finance New University Project.

MINNEAPOLIS, Minn. (CNS). Months of discussion in many parts of the country as to the possibility of using federal relief funds to finance the education of students who otherwise could not attend college this week resulted in a definite move in this direction by the University of Minnesota.

Upon the recommendation of President Lotus D. Coffman, the university board of regents voted to submit a formal application to the federal government for sufficient funds to provide 1,000 unemployed youths in the state with an allowance of \$15 per month each to provide housing and food while attending the university or some other college in the state.

Waive College Fees. According to Dr. Coffman, the usual university and college fees would be waived in the case of these students and expenses above the federal allowance would be provided by the university.

Selection of the students would be in charge of the Minnesota Relief for Unemployed Youth, of which Prof. Harold S. Benjamin, assistant dean of the College of Education, is director. Three groups would be eligible: Students now at the university who may be forced to leave because of lack of finances; former students not now in school because of lack of funds, and others who have never before attended the university and are unemployed.

Some plan such as this has been urged during recent months by prominent educators throughout the country, including President Robert M. Hutchins of the University of Chicago. They contend that the federal government, concerned as it is with recovery and relief problems, could well afford to finance the education of otherwise unemployed young people, thereby eliminating them from competition with heads of families who need jobs.

All Tassels will report to Temple Theater Friday evening at 6:45 to take part in the rally. Roll will be taken.

80 PERCENT of the Lincoln people have their hats renovated by us. There must be a reason.

ADVISORY BOARD OF BIG SISTERS SPONSORS DINNER

Formulate Final Plans and Distribute Tickets at Thursday Meeting.

Plans for the Big Sister advisory board dinner will be the topic of discussion at the Big Sister meeting called for Thursday, Nov. 16 at 5 o'clock in Ellen Smith hall. Tickets for the dinner will be distributed to the Big Sisters to sell. Arlene Bora, as vice president of the board, will conduct the meeting.

The dinner, an annual affair given by the advisory board for all big and little Sisters, is to be held Thursday Nov. 23 at 6 p. m. in Grant Memorial hall and is open to anyone. Sorority mothers are urged to bring their sorority daughters. After the dinner a program planned by members of the Big Sister board hobby groups will be presented. Dancing will follow the program.

Name Committees. The committees in charge of the dinner are: Tickets, Anne Pickett; menu, Lorraine Brake; program, Marjorie Filley; publicity, Breta Peterson, general arrangements, Alice Geddes, Miss Letta Clark and Miss Elsie Ford Piper, advisors to the Big Sister advisory board, and Miss Amanda Heppner, dean of women, will be guests of the board at dinner.

RECOGNITION SERVICES HELD AT YW TUESDAY

Miss Miller Talks on Subject of Abundant Life at Vesper Meeting.

GATHERING ANNUAL ONE

Recognition services for new and old members of the Y. W. C. A. were held Tuesday at 5 o'clock in Ellen Smith hall. Jane Boos presided at the services which are held annually for the purpose of recognizing the new members of the Y. W. C. A.

Miss Bernice Miller, secretary of the Y. W. C. A., gave a short talk on the theme of the service—living one's life abundantly. Emphasizing the need of living a full life, Miss Miller stated that every girl must say to herself as she is taking her pledge of membership, that she is coming into the world in order that the world may have more abundance of life.

Must Strike Out Fear. "We all want a life of abundance," she said, "yet there are certain obstacles that keep us from it. Our life is really like a radio in that we must tune out all those things which we do not want to hear. And one of the first things which most of us must tune out are fears. Strike out fears of all kinds if you wish to live a full life and give of yourself in service."

Pointing out that each individual must have a time of quiet at some time in the week in order to fulfill this need of living abundantly, Miss Miller said that the weekly vesper services gave girls a chance for this hour of quiet. She also mentioned two tests of whether or not one is living a life of abundance. The first of these was whether or not one was extremely irritable, and the second was whether one must over-indulge in certain things. If either of these things is true then the individual must effect an adjustment.

Candle Lighting Service. The candle lighting service followed Miss Miller's talk. At this time all members of the Y. W. C. A. read its purpose in unison. A prayer followed and the traditional recessional "Hymn of the Lights" closed the service. Winifred Wilson played special music during the candle lighting.

PRESENT BOOK COLLECTION

Works of Alfred Tennyson Given to Princeton Library.

PRINCETON, N. J. (CNS). A collection of the works of Alfred Lord Tennyson, including several first editions, owned by the late Dr. Henry Van Dyke, this week were presented to the Princeton university library by the Rev. Tertius Van Dyke, son of Dr. Van Dyke. A set of the works of Robert Louis Stevenson, formerly owned by Mr. Van Dyke, also was given to the library.

Wisconsin Astronomers Watch for Meteoric Display; Conduct Third Search in 33 Years for Lost Comet

Watchers on earth may see a meteoric display on some night this week which will rival that of a century ago when the northeastern sky shortly after midnight suddenly flared up with heavenly fireworks as millions of meteors collided with the earth's atmosphere.

For according to C. M. Huffer, professor of astronomy at the Washington observatory of the University of Wisconsin, it is on one of the nights around the middle of November, probably the 14th or 15th, that old Mother Earth in her orbit around the sun crosses the orbit of the Leonids, a swarm of meteors which swing around the sun in an elliptical path.

At the same time that the state university astronomers are watching the expected meteoric display, they will be making their third search in thirty-three years for a lost comet—Tempel's comet, it is called. The Leonid meteors were first discovered in 1833, just 100 years ago, when there was a brilliant display. In 1866, when this swarm of meteors again flashed past the earth, they were accompanied by the Tempel comet.

Since it takes the Leonid meteors just thirty-three years to swing around the sun on their elliptical orbit, astronomers watched for them again in 1899, but the Leonids failed to give a very brilliant display, and neither was the now famous Tempel comet seen, nor has it ever been rediscovered.

Search for the meteoric swarm and the comet was made by astronomers last November, but the display was not very spectacular. Washington observatory astronomy students counted 236 meteors which flashed across the sky on one night, but no comet was seen.

As to the origin of the Leonid meteors and the Tempel comet, and the reason for their disappearance in 1899, astronomers are not in complete agreement, according to Mr. Huffer. Some of them think that meteors and comets come from outer space into the planetary system, while many others believe that they are thrown off from the sun and fall to form into planets.

The interference of two other planets is given as the cause of the disappearance of the meteors and the lost comet in 1899. These two planets are Jupiter and Uranus, both much farther away from the sun than the earth.

Planets Attract Them. The interference by these planets on the orbit of the meteors and the lost comet in their journey around the sun is designated by astronomers as "perturbation." By this, it is meant that the gravitational attraction of both Jupiter and Uranus pulled the Leonids and

the comet out of their paths some time between 1866 and 1899, thus making their reappearance around earth in 1899 impossible.

It was thought by many astronomers that this same perturbation might have pulled the comet and meteors back into their original path during the last generation, and that they would now be visible from the earth.

The meteors, which are composed of rocks and gaseous matter, vary in size from grains of sand to masses weighing many tons. Several of these giant meteors are known to have struck the earth in times past, the most recent one in 1908 in northern Siberia. It is said to have devastated an area fifteen miles square in a forest. And in Arizona there is a hole in the earth three-quarters of a mile square supposedly made by a meteor or buried there.

Inhabitants of earth have nothing to be alarmed about, however, since most of the meteors end their sky trips in ashes long before they come to earth. They are destroyed by the friction generated in the protecting cloak of the earth's atmosphere.

SUGGESTS SOLUTION FOR UNEMPLOYMENT

Longer Years of Schooling Named as Means of Securing Relief.

NEW YORK. (CNS). Longer years of schooling this week was suggested by Dr. Harry Woodburn Chase, chancellor of New York university, as a possible means of relieving unemployment.

Pointing out that unemployment is not a temporary matter, he asked: "What are we going to do with our boys and girls who cannot find a place in our industrial organization? We are not going to be content, I think, to let them roam the streets.

"In the long run I believe we are going to find a solution to the unemployment problem in an even more general prolongation of the period of education. We must use the first years of college to develop the student's understanding of the civilization in which they live and the ability to comprehend the problems it thrusts upon them."

Dr. Herbert A. Miller, noted sociologist, who was quoted two years ago from Ohio State university for his advanced social theories, has been appointed professor of political and social economy at Bryn Mawr college.

SIX MEN FAINT DURING BLOOD PRESSURE TEST

Minnesota University Health Officials Tstare There Is No Reason for Action.

MINNEAPOLIS. (CNS). It is no longer considered lady-like to faint at the students' health service offices at the University of Minnesota. And the bigger they come, the harder they fall!

During the last freshman physical examination, the service reported this week, six men fainted during the blood pressure test, but not a single coed even turned pale.

The test is really nothing to cause one to lose his presence of mind, it was explained, but nevertheless, whenever a particularly husky young man comes to the students' health service for a blood pressure test, attendants always have a substantial chair and a bottle of smelling salts handy. It just seems to affect the big ones that way.

Police Investigate Extortion Threats

TOWA CITY, Ia. (CNS). Police this week were investigating extortion threats made against Margaret Hise, publisher's daughter, who has received several mysterious letters and telephone calls. One demanded that she have her father "dig up \$10,000 and have it ready."

One student was killed and 20 were hurt in a fight with knives and pistols at the University of Poland over political differences. The University of Kansas publishes a list regularly of professors who keep their classes overtime.

From the "Brown and White" we learn that the new president of Princeton, Harold W. Dodds, is an accomplished tango dancer.
