## THURSDAY FINAL DAY TO FILE FOR 6 SCHOLARSHIPS

Students' Applications Must Be In Dean's Office By Noon.

### OFFER FRESHMAN PRIZE

Candidates Must Show Need, Upperclassmen Receive Preference.

All applications for scholarships in the university must be in the dean of student affairs' office by noon Thursday, May 10. Through the generosity of alumni and friends of the university, six scholarships and prizes are to be awarded this spring to outstanding students.

Candidates should have demonstrated high scholarship, industry and perseverance, as well as a reasonable promise for the future, and donors of the scholarship have requested that they be donated to students that are not financially able to pay their own expenses thru the university. Winners are expected to have shown a strong desire for an education by making genuine sacrifices for it. Preference will be given to upper classmen.

One-half of the money, in most cases, is to be paid when the student enters school next fall. The remainder is to be given at the beginning of the second semester.

### Award Six Scholarships.

In memory of the late Judge Jefferson H. Broadly, former member of the University of Nebraska faculty and prominent Nebraska lawyer, a \$100 scholarship is to be presented. This is endowed annually, by Mr. and Mrs. John D. Clark, graduate of the university. Another perpetual scholarship of \$100 is given by Dr. George Borrowman of Chicago. He is holder of two degrees from the university and is a former member of the faculty. The recipient is to be a worthy student in the department of chemistry or geology.

Two scholarships of \$100 each were established by Mrs. C. R. Massey of Washington, D. C. They are in honor of the late Henry

## MUNGER SPEAKS AT THETA NU BANQUET

Honorary Pre-Medic Group Initiates Seven Men Wednesday.

Dr. I. C. Munger, Jr., 3055 Wendover st., was the principal speaker at an initiation banquet held last night in the Lincoln hotel by Theta Nu, honorary pre-medic fraternity. The banquet was held following the initiation at 6:30 when seven men were inducted.

Dr. Munger gave a brief review of the history of surgery which included a survey of surgery revealed in ancient Egyptian tombs as to the methods used in that period. He also discussed the history of the development of barber surgeons and the work of Pasteur and Lister.

The following men were initiated: Lew Halderon, Newman Grove; Robert Warneke, Milford; Ernest Cerv, Gregory, S. D.; Clarence Luckey, Columbus; Deloss Loudon, Clarinda, Ia.; Harry Beckwith, Beatrice; and Clarence Brott, Garsen.

## TODAY'S NEWS Briefly Reviewed

The Costigan-Jones sugar control bill was signed Wednesday by President Roosevelt and at the same time he issued a statement concerning the effect on the bill on insular possessions of the United States. In addition tariff on Cuban sugar was reduced from 2 to 1-2 cents a pound to make up for the processing tax provided for in the new bill.

What was believed to be an authentic note was received by Arizona officials from the kidnapers of 6 year old June Robles. The note was believed to contain more instructions concerning the ransom of the child. It was also believed by officials that a contact with the abductors had been made by Ferdinand Robles.

A new plan for purchase of army airplanes was launched by Secretary of War Woodring, embodying five points. According to the secretary's plan military aviation will receive more impetus than at any time during the past decade. It was also stated that in the future more experimental type planes would be built.

Adding insult to injury, dust storms again descended upon the state to accompany the four day, record breaking heat wave. As fields began to burn up and some farmers started turning stock in on

## Rehabilitation Classes Conducted In Basement of Teachers College Are New Depression Developments

Unemployment and the depression have brought about a great many changes and a number of new ways of doing things, and one of the more remote or indirect effects of the depression are the "rehabilitation" classes which have been meeting for the last twenty-seven weeks every Monday, Tuesday, and Thursday evening in the basement of Teachers' college.

Ropes, upholstery, canning, weaving, and many other types of repair work have been done by those in the classes which are composed of unemployed men and women who can't afford to have it done, and others who want to repair their furniture themselves. Ranging from deaf and dumb people to comparatively well-to-do citizens of Lincoln, the enrollment, since last September, has been approximately 250. There have been three nine-week periods. Tonight is the last time that the class will meet this year. It is undecided whether it will be continued at the university next year.

Mrs. Daisy Kilgore, assistant professor of vocational guidance of the university and of

the Lincoln public school, is in charge of this work, and the instructor is Arthur Easton, supervisor of practical arts. These classes are regular Smith-Hughes classes which are in operation all over the country, but because of the better equipment, these few Lincoln classes have been moved to the basement of Teachers' college. In a Smith-Hughes class, the government pays between 60 and 70 percent of the cost of salary and the local schools pay the upkeep.

Mr. Easton stated that this work does not take the place of the work that downtown merchants might do, as most of the students couldn't afford to have it done elsewhere. One man made a practically new sewing machine cabinet which took a great deal of time and labor, while others constructed game boards, wove baskets, and did concrete work. Many women brought down chairs to be reupholstered. One time, a class redecorated the walls of a kitchen with a Tiffany finish, which is several different colors of paint blended together on the wall with a chamois skin.

## SPEAKER FOR THETA SIG DINNER IS WELL KNOWN IN NEBRASKA

Peterson Lecture Sponsored Friday by Journalism Sorority.

Elmer T. Peterson, who is to speak at a dinner sponsored by Theta Sigma Phi, honorary journalistic sorority, on Friday at 6:30 at the city Y. W. C. A., is well-known to Nebraskans as an editor, author, and publisher, according to members in charge of the affair.

Mr. Peterson is probably best known as the editor of Better Homes and Gardens, but he is, in addition, author of one of the new novels of this spring, "Trumpets West," and is a former Kansas publisher. He has been successively editor of the Lindsborg Record, Cimarron, Jacksonian, Wichita Eagle, Kansas City Star, and the Wichita Beacon. While he was engaged as an editor and publisher, many of his articles dealing with the early boom towns of Kansas appeared in the Saturday Evening Post.

His novel, "Trumpets West," is characterized by two unusual and ambitious features. One is the inclusion of musical motives throughout the book. The other is telling the story of the rise of Iowa and Kansas by relating not only the story of the rise and triumph of a Swedish family in America, but also paralleling this phase of the story with the bigger subject of the rise of civilization and its westward trek since prehistorical days. Ex-governor Henry J. Allen of Kansas calls the book a "vivid picture of a whole era."

Mr. Peterson, who has for several years been a champion of the writers of the middle-west, will also speak before the Nebraska Writers' guild on Saturday.

## PLEDGE FEE ADOPTED BY MEN'S PEP GROUP

Rule Allows Substitution for Those Dropped in Bad Standing.

Adoption of a new pledge fee to insure active interest in the organization throughout the entire year was one of the important features of the Corn Cob meeting held Wednesday evening at 7 o'clock in Room 8 of University Hall. The pledge fee was set at \$3 and is to be paid by new members at the time of the announcement of new pledges in the fall.

Another change made in the Corn Cob constitution was the amendment stating that Corn Cobs dropped from the organization as a result of bad standing may be replaced by that fraternity or barb organization represented. Prior to the change no substitution was allowed.

Committees were appointed by President Hill and a definite date of May 16 was set for the initiation of pledges unable to take part in the last ritual. The initiation will be held at the Delta Sigma Lambda house.

## Nebraskan May Add Woman's Editor to Staff for 1934-35

Although the proposal has not yet been sanctioned by the publication board, it is probable that the position of woman's editor of the Daily Nebraskan will again be established for the coming year. The office has regularly been filled until last year, when it was discontinued because of lack of funds. The addition of this staff member would give the equivalent of another news editor, making a total of four. The woman's editor has charge of reporting all news of women's activities on the campus, and will insure a more complete coverage of these events.

## STUDIO THEATER PRESENTS FIRST ENGLISH COMEDY

'Gammer Gurton's Needle' Shown Wednesday in Temple.

### GIVE MODERN VERSION

Yenne Directs Production; Hunter, McBride in Lead Roles.

The first farce ever to be written in the English language, "Gammer Gurton's Needle," was presented Wednesday evening at 7:30 by the Studio theater in the Temple building, room 201. This play was a modern adaptation of the famous old comedy written by Colin Campbell Clements in the fifteenth century.

Herbert Yenne, assistant professor of elocution and dramatic art, directed the production, which was given in two acts in place of the original three. "I am very pleased with the way the play was presented," stated Mr. Yenne, "and I think it was especially interesting because it was written so long ago."

Miss Alice Howell, head of the dramatics department, saw the (Continued on Page 3.)

## New Alpha Zetas Hear Suggestions For Future Work

Alpha Zeta, honorary agricultural fraternity, Wednesday evening initiated six new members accepted by the organization this semester. Initiation ceremonies were followed by the organization's annual banquet in the Home Economics parlor on the ag campus.

Carl Beadles, junior; Roscoe Hill, senior; Richard Jackson, junior; Walter Moller, junior; Roland Nelson, sophomore; and Owen Rist, junior are the new members of the organization. Howard White, junior, had previously been elected as Alpha Zeta's chancellor for 1934-5.

Banqueting after the initiation ceremonies, the Alpha Zeta men heard Prof. C. W. Smith, alumnus; and Arthur Peterson and Vernon Filley, both outgoing members, discuss the organization, its problems and its future. Elver Hodges, senior, presided at the dinner. Howard White, incoming chancellor, welcomed the new members and outlined a program of work for the coming year. He read a paper written by a member of the Nebraska chapter establishing a point of view toward the organization which, he said, would be maintained next year.

"Should be 'Brain Trust'." Peterson, former chancellor of Alpha Zeta, said he believed the agricultural fraternity represented the most serious students on the campus and he believed it should set as sort of a "brain trust," keeping (Continued on Page 3.)

## Nearly 500 Alumni to Converge On Campus June 4 for Annual Round-Up And Commencement Day Exercises

In order that they may meet classmates of undergraduate days and greet the class of 1934 as it emerges into the world, almost 500 alumni of the university will converge on Lincoln Commencement Day, June 4, for their annual round-up. Honored as the class of twenty years ago the class of 1914 will be especially featured in the day's program. Walter Wilson, Lincoln architect, is president of the 1914 alumni group, and is working with the alumni office of the university in making plans for the traditional honoring of the class of twenty years ago.

As these several hundred grads and former students come to Lincoln from their present locations throughout the United States and other nations, the main attraction at commencement will be Owen D. Young, internationally famous lawyer and financial expert. Mr. Young has been secured to speak at the annual commencement day exercises in the coliseum, and his speech will probably be broadcast over a nation-wide radio hookup. For the alumni another feature event of the day is to be a noon luncheon at the Cornhusker hotel. At that time members of all classes will have the opportunity of recall-

ing the university experiences and the class rivalry which was once a well-established tradition on the campus.

### Came From Egypt.

Three years ago a prize was offered by the Nebraska Alumni Association to the person traveling from the most distant point to attend the round-up. A man from Alberta, Canada, was named recipient of the award, but shortly before the presentation a woman proved her right to the prize. She had come back to the campus from Egypt. It is not very often, Ray Ramsey, alumni secretary, stated Wednesday, that alumni come from such distant points, but he also said that when they do appear from foreign countries it is not surprising. Already this year graduates in New York and New Jersey have written signifying (Continued on Page 4.)

## SEVEN MEN PLEDGED TO DELTA SIGMA PI

Bizad Fraternity Sets Its Initiation for Night of May 22.

Alpha Delta chapter of Delta Sigma Pi, business administration fraternity announced the pledging of eleven men at a ceremony which took place in the Commercial Club rooms at 4 o'clock Tuesday afternoon.

The men will be initiated May 22 at the Lincoln hotel. The list of new pledges includes Howard Houston, Lead, S. D.; George Bauer, Arthur Palmer, Kenneth Fritzier, Max Nusbbaum, Lincoln; Duward Jackson, Greeley, Colo.; Clarence Banghart, Keith Vogt, Bancroft; Gene Stenborg, Oakland; Robert Allen, Dawson; and John Becker, Plattsmouth.

## ALTER ACTIVITY POINTS BIG SISTER BOARD HEAD

Honorary Group Presidents Weighted as Four By A.W.S.

Two revisions in A. W. S. point system were made at the regular noon meeting Wednesday. Officers of Big Sister board, with the exception of the president, will carry five activity points rather than six as formerly. The second change made concerned honorary and professional societies on Ag and the city campus. Presidents of these groups had been given six activity points. Under the new plan they will be weighted as four.

Changes in these rules governing women students were made in order to give activities a more nearly fair relative value. Each year the A. W. S. board revises regulations to fit the apparent current needs of both students and organizations.

## SCHEDULE OF EXAMINATIONS

### SECOND SEMESTER, 1933-34.

Laboratory classes meeting for several continuous hours on one or two days may avoid conflicts with other classes of the same nature by arranging that their examinations occur as follows: Classes meeting on Monday or Tuesday may be examined on the date scheduled for the first hour of their laboratory meeting; Wednesday or Thursday classes on the second hour of their meeting; Friday or Saturday classes on the third hour.

#### WEDNESDAY, MAY 23.

9 a. m. to 12 m.—Classes meeting at 10 a. m., Tues., Thurs., Sat., or any one or two of these days.  
2 p. m. to 5 p. m.—Classes meeting at 3 p. m., Tues., Thurs., Sat., or any one or two of these days.  
1:30 p. m. to 5 p. m.—Final Examination in Military Science (Annual Compet.)

#### THURSDAY, MAY 24.

9 a. m. to 12 m.—Classes meeting at 8 a. m., five or four days, or Mon., Wed., Fri., or any one or two of these days.  
2 p. m. to 5 p. m.—Classes meeting at 11 a. m., Tues., Thurs., Sat., or any one or two of these days.

#### FRIDAY, MAY 25.

9 a. m. to 12 m.—Classes meeting at 11 a. m., five or four days, or Mon., Wed., Fri., or any one or two of these days.  
2 p. m. to 5 p. m.—Classes meeting at 2 p. m., Tues., Thurs., Sat., or any one or two of these days.

#### SATURDAY, MAY 26.

8 a. m. to 10 a. m.—Classes meeting at 7 p. m., Mon., Wed., or Fri.  
9 a. m. to 12 m.—All Freshman English classes (English 6, 1, 2, 3, and 4).  
10 a. m. to 12 m.—Classes meeting at 7 p. m., Tues., or Thurs.  
1 p. m. to 3 p. m.—Classes meeting at 5 p. m., five or four days, or Mon., Wed., Fri., or any one or two of these days.  
3 p. m. to 5 p. m.—Classes meeting at 5 p. m., Tues., Thurs., Sat., or any one or two of these days.

#### MONDAY, MAY 28.

9 a. m. to 12 m.—Classes meeting at 9 a. m., five or four days, or Mon., Wed., Fri., or any one or two of these days.  
2 p. m. to 5 p. m.—Classes meeting at 4 p. m., five or four days, or Mon., Wed., Fri., or any one or two of these days.

#### TUESDAY, MAY 29.

9 a. m. to 12 m.—Classes meeting at 10 a. m., five or four days, or Mon., Wed., Fri., or any one or two of these days.  
2 p. m. to 5 p. m.—Classes meeting at 1 p. m., Tues., Thurs., Sat., or any one or two of these days.

#### WEDNESDAY, MAY 30.

Memorial Day—No examinations.

#### THURSDAY, MAY 31.

9 a. m. to 12 m.—Classes meeting at 9 a. m., Tues., Thurs., Sat., or any one or two of these days.  
2 p. m. to 5 p. m.—Classes meeting at 2 p. m., five or four days, or Mon., Wed., Fri., or any one or two of these days.

#### FRIDAY, JUNE 1.

9 a. m. to 12 m.—Classes meeting at 8 a. m., Tues., Thurs., Sat., or any one or two of these days.  
2 p. m. to 5 p. m.—Classes meeting at 1 p. m., five or four days, or Mon., Wed., Fri., or any one or two of these days.

#### SATURDAY, JUNE 2.

9 a. m. to 12 m.—Classes meeting at 3 p. m., five or four days, or Mon., Wed., Fri., or any one or two of these days.  
2 p. m. to 5 p. m.—Classes meeting at 4 p. m., Tues., Thurs., Sat., or any one or two of these days.

## COLS. M'MASTER, DAILEY INSPECT LOCAL REGIMENT

Visiting Officers Conduct Investigation Classes Wednesday.

### VIEW PARADE THURSDAY

Rating of 'Excellent' for Department Is Sought Again by Oury.

Theoretical and practical methods of classroom military science instruction here were observed Wednesday by Col. Richard H. McMaster and Lieut. Col. G. F. N. Dailey of the corps area headquarters.

Inspection of classroom activities was the first part of the federal inspection scheduled May 9 and 10. This morning basic and first year advanced classes will be examined. At 1:25 p. m. the regimental parade will begin with all R. O. T. C. students being excused from their afternoon classes.

Colonel Oury hopes that the Nebraska unit will again receive the "excellent" rating it was awarded last year. Various degrees of perfection with which inspecting officers grade the units are, excellent, satisfactory, and unsatisfactory.

### Training Complete.

"Since we have expected a thorough examination in all phases of instruction," Colonel Oury observed, "training has been very complete during the past month. Federal inspections are held to check up on expenditures of government money."

Juniors will parade this afternoon with their assigned companies and will later form for a special drill. Commanders assigned to platoons, however, will remain with their units throughout the inspection.

It will be necessary for all students expecting credit in military (Continued on Page 4.)

## MARS THEME OF FINE ARTS BOHEMIAN HOP

Decorations and Costumes Depict Supposed Life Of Planet.

"Life on Mars" will be the theme of the Bohemian Hop which will be staged under the auspices of the art department. The second floor gallery will be decorated with fantastic posters portraying life as it is imagined on that planet, and each one who attends will be dressed in his own interpretation of what an inhabitant of Mars might wear. A costume is required for admission to the event.

Carl Christensen is in charge of general arrangements, with Dorothy Passmore and Denise Green in charge of entertainment for the evening. On the decorations committee will be Frederick Rickard and Dorothy Fisher. Nellie Ferris is in charge of the committee on refreshments. Helen Klein and Willard Humpal are in charge of tickets, and Grace Fosler is in charge of publicity.

## 'Jim' Wilson Ends 26,000 Mile Tour Of United States

Returning from his recent 26,000 mile lecture tour of the entire United States, James C. "Jim" Wilson, University of Nebraska graduate, spoke before the National Geographic Society in Washington, D. C. concerning his journey thru Africa with Francis Flood, also of Nebraska. While lecturing Mr. Wilson traveled with a car and an 18 foot "Pullman trailer," complete with running water, electric lights, refrigerator, heat, inner-spring beds, and a cook.

Mr. Wilson is the author of an article entitled, "Three-Wheeling Thru Africa," printed in the National Geographic Magazine.

He has received favorable comment from cities and clubs at which he has spoken, including the Field Museum, Executives' Club of Chicago, and Colgate university.

### Biggest Thrill.

Mr. Wilson declared in his lecture in Washington that probably the most thrilling event of the trip was the sight of an American flag flying above the French tricolor over the fort at N'Guigmi. The French garrison had learned of the expedition's approach, and a tailor spent three days making an American flag as a friendly gesture to the strangers.

In his experiences, Mr. Wilson has been professional musician, college professor, rancher, journalist, and traveler extraordinary in Alaska, Europe, Asia, and Africa. He is an example of Samuel Johnson's quotation, "So it is in traveling; a man must carry knowledge with him if he would bring home knowledge."

Mrs. Wilson is the former Miss Alice Olmsted of the University. They are living in Chesterton, Ind., where the explorer, writer, and lecturer is now making plans for a future expedition.

## Dry Winds Threaten Continued Drouth as Dust Storm Appears

Wednesday noon brought to this part of the state another of the unwelcome dust storms. In clouds that threatened to obscure the sun, the dust was borne on a typical March wind.

Front page stories in state newspapers predicted that the continued drouth and warm wind would soon exhaust the subsoil of its moisture and that Nebraska grain crops would likely be reduced by half, resulting in upturns in grain prices.

Even in view of the fact that the Nebraska R. O. T. C. unit has scheduled a parade this afternoon, rain would be strictly in order, at a time when it is sorely needed.
