## VISITING LECTURERS AND INSTRUCTORS TO SUPPLEMENT STAFF

### Eight Nationally Prominent Educators Are Guest Teachers.

Several nationally prominent men and women in the educational field have been invited by the university to offer courses in specialized fields or to supplement the regular work by special lectures. They will supplement the regular teaching staff for the summer session.

Dr. W. H. Burton, professor of education of the University of Chicago, now visiting professor of the University of Southern California, for many years has been an outstanding leader in the field of supervision. He is the author of several widely used textbooks on supervision and the direction of learning in elementary and secondary education.

Primary Field Authority.

Alice M. Cusack, primary supervisor of Kansas City, Mo., is one of the outstanding authorities in the United States in the primary field. She is a specialist in the field of reading and English and is the author of many widely used books.

Dr. E. E. Dale, Harvard, former rancher and cowboy, is professor of American history and head of the department at the University of Oklahoma. He has had unusual opportunities to study first hand the American Indian and the cattle industry, and is the author of Tales of the Tepee, The Cattle Range Industry, Territorial Acquisitions of the United States, The Prairie Schooner and other poems.

Mr. George R. Howerton, formerly of Chicago, now on music faculty of Hiram college, Hiram, O., is an authority on conducting and is also well prepared to present a methods and musical materials course for choral work in the public schools. Music supervisors will find, it was stated, his course a practical presentation of choral problems.

Dr. Roswell H. Johnson will offer

## Director Moritz Offers Welcome to Summer Students

Greetings to Summer Session Students:

The University of Nebraska extends to you its most cordial welcome. It assures you that every effort will be made to make your stay here both pleasant and profitable and that all facilities for study and research at its command will be placed at your disposal.

In the courses of instruction and special features arranged for the summer term the University has recognized the challenge the new day is making upon education and has constructed its program to meet this challenge. It has been said frequently of late by our leaders of thought that the task of the twentieth century is the development of the social sciences as the task of the nineteenth was the development of the physical sciences. Particularly significant in this connection will be the three day All-State Educational Conference whose theme will be the place of the social sciences in the public school curriculum.

A sincere attempt has been made to fit the entire curriculum to the needs of the students, to offer work in all the various branches of study, both liberal and professional, which they require. It is our earnest wish that you find what you are looking for and that you go away enriched thru the summer's experiences.

The summer Nebrakan will be published twice weekly and will carry all official announcements of importance to the student body.

R. D. MORITZ,  
Director of the Summer  
Session.

## TEACHER-LIBRARIAN COURSE IS OFFERED

### Selection of Books and Reference Work to Be Discussed.

A teacher-librarian's course is offered in the summer session of Teachers College on the organization, administration and techniques of the high school library. School library objectives, book selection, classification, cataloging, housing and equipping the library, reference work, and teaching the use of the library will be discussed with particular interest given to the small high school library.

Since the school library is a twentieth century development in education, the high school teacher, especially the teacher of English, should become "library conscious" of its service.

## SCIENCE TEACHERS TO HEAR 2 LECTURE SERIES

### Beauchamp First Speaker; Will Devote Time to Unit Method.

Two groups of lectures have been planned for science teachers during the summer session, according to an announcement released Thursday by P. G. Johnson, supervisor of physical and biological sciences in Teachers College high school.

The first of the lectures will be given by Dr. Wilbur L. Beauchamp, assistant professor of education at the University of Chicago, from June 11 to 15. According to Mr. Johnson the lecturer is one of the outstanding men in the field of science-teaching and has been active in research relating to the grade placement of science principles and in the development of units for science teaching.

Lectures Scheduled Daily.  
The class lectures are scheduled daily at 2 o'clock in Teachers college 323 and will be included in the course of study for Education 142, 122, 121 and other courses co-operating. The lectures will also be open to auditors.

Monday, June 11, Dr. Beauchamp will speak on "The Psychological Basis of the Unit Method of Teaching;" Tuesday he will lecture on "The Organization of Science Units;" Wednesday the speaker will have as his subject "The Teaching Technique of the Unit Plan;" Thursday he will speak on "Teaching Pupils to Study Science," and Friday Dr. Beauchamp will conclude his series with "Testing the Results of Science Instruction."

Two Special Talks.  
Two special lectures will be given, the first on June 13 at 8 o'clock in Teachers College 21 and repeated at 11 o'clock in the same room. Dr. Beauchamp will lecture on "The Technique of the Class Demonstration." The second special lecture will be offered at a dinner meeting of Phi Delta Kappa, honorary education fraternity, June 14 at the Grand Hotel. "Determining the Grade Placement of Science Principles" will be the subject.

Open group conferences are scheduled to follow each class period and a general conference will be held at 9 o'clock each day, except Monday, in T. C. 126. In addition special group or individual conferences will be available by appointment.

Dr. Beauchamp, who is a member of the National Association for Research in Science Teaching, Phi Delta Kappa, and other professional groups, assisted Dr. Morrison in the development of the unit plan of teaching sciences. He is author of Instruction in Science; and Study Book for Everyday Problems in Biology. He is co-author with Dr. C. J. Pieper, New York University, and Dr. Orlin D. Frank, University of Chicago, of the books Everyday Problems in Science, and Everyday Problems in Biology.

The second group of lectures will be given from June 18 to 23 by Dr. Florence G. Billig, head of the natural science department for the College of Wayne university at Detroit. She has been active in research for the development of science materials which are appropriate at the various elementary, junior and senior levels.

## OFFICIAL BULLETIN

### REGISTRATION CHANGES.

Education 112, Section II, at 8 o'clock, will be discontinued in both the long and short session.

Education 112s will take the place of Education 112, Section I. This course is especially designed for rural and village teachers. Interpretation and application of Nebraska State Course of Study. Daily program, control, rural management. 7 daily. Credit 2 or 3 hours. Mr. Weber.

Secondary Education 121, Typewriting, will have the following write-up instead of the one given in the general bulletin:

Secondary Education 121, Typewriting and Business Principles.—Study of objectives, values, and techniques of teaching high school courses in typewriting and in business principles. Selection and organization of subject matter and materials of instruction. Methods of presentation, drill, and practice. Prereq: CA 27. Credit 2 hours, 11 daily. MISS HILL.

Attention is also called to School Administration 256a, Public Relations. This course carries graduate credit and takes the place of what was formerly known as Secondary Education 149s.

### CHANGE OF INSTRUCTORS.

Economics 21 will be offered by Mr. Swayzee instead of Mr. Spangler.

English 1 and 2 in the short session will be offered by Mrs. Hupp instead of Miss Odell.

## SUMMER MEETINGS ARE SCHEDULED BY PHI DELTA KAPPA

### Group to Meet With Pi Lambda Theta on July 17.

Five summer meetings have been planned by Phi Delta Kappa, honorary education fraternity, according to an announcement released recently. The high spot of the summer will be the twentieth anniversary celebration when the group will meet with Pi Lambda Theta, educational sorority.

The first meeting will be held June 14 when Dr. W. L. Beauchamp will be the main speaker. The second open meeting will be held June 26 at the Grand Hotel. Prof. George R. Howerton and Prof. William W. Norton will be guest speakers.

The annual picnic and initiation will be held on July 5 and the joint meeting with Pi Lambda Theta will be held on July 17. The address of the evening will be made by Dr. W. H. Burton. The last open meeting of the summer will be held July 23.

## OFFICIAL BULLETIN

### SUMMER CALENDAR.

June 8, Friday—Registration.

June 9, Saturday—Registration until noon.

June 11, Monday—Beginning of all classes.

July 4, Wednesday—Intermission.

July 26, Friday—Close of short session.

August 3, Friday—Close of long session.

### REGISTRATION.

Registration for the summer session will be held Friday, June 8, from 8 to 12 and 2 to 5, and Saturday, June 9, from 8 to 12, in the University College at Thirteenth and Vine Streets. An additional fee of \$3 will be charged students registering after the regular registration days and a fee of \$1 for each additional week after classes have begun. Graduate students register until June 16 without additional charge. Students registering after June 14 may do so only with the written permission of instructors and of the Director of the Summer Session. No registrations will be accepted for credits after June 22.

The following gives the number of hours for which a student may register during the summer session: Long session, 9 hours; short session 6 hours.

A student will be permitted to select courses from both the long and the short session provided the total number of recitation hours for which he registers does not exceed eighteen per week, three hours of laboratory being equivalent to one recitation hour.

### CREDIT.

Students may carry a maximum of nine hours of college work during the long session, or six hours during the short session. All courses in the Summer Session carry college credit and may be changed to entrance credit on the basis of one entrance unit for two three hour courses. Courses offered in the Teachers College High School give entrance credits only.

### GRADUATE WORK.

All graduate students must submit their credits to the office of the Dean of the Graduate College for evaluation before registering. Dr. Cliff S. Hamilton, for graduate students in general, and Dr. M. O. Broady, for education graduates, will be advisors.

## MUSIC OFFERED FOR SECONDARY STUDENTS

### High School Boys and Girls To Register in Four Weeks Course.

Boys and girls from Nebraska high schools will be music students at the university during the second annual four weeks summer session of the all state high school orchestra and chorus course from June 11 to July 7.

William H. Norton of Flint, Mich., and George R. Howerton of Chicago will again be in charge of the special course and they will have the assistance of the regular faculty of the school of music.

According to Howard Kirkpatrick, director of the university school of music, the fee for the course this year will be slightly higher than last, 35 dollars in all. This outlay will include all expenses such as board, room, health, recreation, registration, two vocal or instrumental lessons, not piano, per week, daily orchestral and choral rehearsals, and supervision of all social activities.

### Housed in Dormitories.

Non-resident boys and girls will be housed in separate dormitories where they will be under the constant supervision of specially trained supervisors. The supervisors will look after the recreation, health and general well-being of the students as well as supervise their study.

Mr. Norton, who will have charge of the orchestral department, was a student in the university in 1898, where he sang in the chorus directed by the late Carrie Belle Raymond, taught violin lessons at College View, and directed a twenty-eight piece orchestra at Plymouth church. He is now president of the North Central Mu-

(Continued on Page 2.)

## JOHN AGEE TO HEAD UNIVERSITY ALUMNI Nearly 400 Graduates Campus for Annual Round-Up.

Nearly four hundred alumni of the university returned to the campus last Monday to attend the annual roundup program held in the ballroom of the Hotel Cornhusker.

The new officers of the organization, announced by Maude H. Fling and Col. W. H. Oury, were: president, John H. Agee, Lincoln; Mrs. Earl Mallery, Alliance, vice president; John Cutright, Fremont, member at large. Mrs. William A. Obertson, Plattsmouth; Hugh Wallace, Omaha; Louis Lightner, Columbus; Charles Mousel, Hastings; and Robert O. Reddish, Alliance, were elected members of the board of directors. Ray Ramsay was re-elected secretary.

Speakers for the occasion included the guest of honor, Owen D. Young; Guy Chambers, retiring president of the organization; Mrs. Bess Streeter Aldrich; Dr. Walter Pillsbury; E. Parmalee Prentice, Governor Bryan, Chancellor Burnett and the new officers of the group.

## MORITZ EXPECTS NO ENROLLMENT DROP AS REGISTRATION OPENS

### Raise in Secondary School Standards May Increase Graduate Work.

The raise in standards for secondary schools recently voted by North Central Association of Colleges and Secondary Schools will probably have a tendency to start teachers in graduate work so as to be able to fulfill the requirements when the measure becomes effective, according to R. D. Moritz, director of the university summer school.

Dr. Moritz declined Thursday to make an advance estimate of the registration figures, but stated he anticipated no falling off in either the graduate or undergraduate fields.

### Registration Opens Friday.

Registration for the fortieth annual summer session opens Friday morning at 8 o'clock in the university coliseum, which will draw students from all over Nebraska and nearby states for the dual six and nine weeks periods. Registration closes Saturday at noon and classes will begin Monday morning at 7 o'clock.

Following the plan used during the past three summers the term will combine both long and short sessions, the first ending on Aug. 3 and the second on July 20. The courses will be offered in thirty-two departments during the long session while twenty-two departments will offer work during the short term. Students may take work in both sessions, completing the work in certain six weeks courses by extension for an additional hour of credit.

### Visiting Instructors.

The regular teaching staff of the university for the summer session will be supplemented this year by eight visiting instructors who will offer courses in specialized fields or supplemented regular work by special lecture.

Greatest stress during the summer will be placed on courses in education since a large part of the enrollment will be made up of teachers out in the field returning for both graduate and undergraduate work. The training school of Teachers College will be in operation during the session and will provide practice teaching opportunities.

In addition the laboratory school of the Elementary Education Department where newer theories and practices are tried out and evaluated will be open during the summer. Included will be a nursery, grades I, III, IV, and VI; a reading clinic, and a rural school.

A course for the teacher-librarian is also being offered during this summer session.

## Facilities Are at Disposal of Summer Students—Burnett

Planned to meet the constantly changing requirements in the field of education, the University of Nebraska summer session for which registration started today affords an excellent opportunity for educational advancement.

Supplementing our regular faculty, we have added about thirty men and women of equal caliber who will give students the benefit of their experience. All the regular facilities of our libraries, laboratories, and classroom buildings are at the disposal of our summer students.

I hope that the young men and young women who have come to the University of Nebraska for this summer session will take advantage of these facilities and will leave the campus at the end of the session better qualified to meet their several problems.

E. A. Burnett, Chancellor.
