

CAMPUSOCIETY

ALREADY PLANS FOR THE KOSMET club show which will take place the morning of the twenty-fourth of November, are well under way. In many houses skits, plays and song and dance numbers have been worked out and rehearsals have begun. In other houses people are racking their brains for something new and entirely different to present before the judging committee when the time comes to select the final acts. If interest shown has anything to do with the quality of the final production, the Kosmet club show this year will be one of the finest in the history of the university.

NELLIE LEE HOLT, a graduate of the university and a Kappa, will be married Nov. 25 to Curtis Bok of Philadelphia who is the grandson of the late Cyrus H. K. Curtis, founder of the Curtis Publishing company. Mr. Bok is an attorney and partner in the firm of Dechert, Bok, Smith and Clark of Philadelphia. He is president of the Philadelphia Orchestra association and of the Philadelphia Forum, treasurer of the Curtis Institute of Music, treasurer of the American Foundation and a member of the board of curators of Stephens college.

PI BETA PHI alumnae were entertained recently at the home of Mrs. E. C. Ames at a buffet luncheon. Assisting were Mesdames Noyes Rogers, Gordon Luikart, Walton B. Roberts, and Florence Bates.

GLADYS HEILMAN of Waverly will be married to Willard B. Wright of Lincoln on Oct. 27 at 8:30 in the evening. Mr. Wright is a graduate of the university where he was a member of Pi Kappa Alpha fraternity. The couple will reside in Lincoln.

HONORING Frances Morgan, Alpha Phi, who is to be married soon to Bill Holmes, Chi Phi, Jeanette Arnesburg and Penny Cosmos entertained with a luncheon and shower Saturday at the Cornhusker hotel. Guests were members of the Alpha Phi chapter.

DELTA OMICRON, professional musical sorority, entertained rushes at a tea Saturday from three until five o'clock at the Alpha Chi Omega house. Bernice Runding was chairman of the party. Katherine Hershner and Sally Deltier played violin selections and Ruth Dean and Jeanette Arnesburg played the piano. Mrs. F. J. Lehnhoff and Mrs. Arthur L. Smith presided.

ALPHA SIGMA PHI announces the pledging of Westie Craig of Lincoln. The pledge class officers recently elected are: Cecil Franz, president; V. C. Struve, vice president; and Bruce McEntire, secretary-treasurer.

PHI KAPPA PSI pledge officers for the semester are: Bill Gridely, president; Bert Brian, vice-president; and Ralph Jones, secretary-treasurer. The following are new pledges: Ralph Jones, Omaha; Robinson Hobart, Long Beach, Calif.; and Arthur Ball, Fremont.

THE MARRIAGE of Margaret Cook of Chadron to George H. Hoffman took place Saturday. The

Tuesday.
Acacia Mothers' club, 1 o'clock luncheon with Mrs. L. C. Rankin.
Alpha Sigma Phi Mothers' club, chapter house, 2 p. m.
Alpha Phi Mothers' club, 1 o'clock luncheon, chapter house.
Kappa Sigma alliance, 1 o'clock luncheon, Home Style tea room.
Delta Sigma Lambda auxiliary, 1 o'clock luncheon, chapter house.
Sigma Nu Mothers' club, at chapter house.

Wednesday.
Faculty Women's club, Ellen Smith hall, 2:30 p. m.

Thursday.
Kappa Delta Mothers' club, tea, chapter house, 2:30 p. m.

Friday.
Delta Gamma Mothers' club, tea, chapter house, 2 until 5 p. m.
Mu Gamma chapter of Mu Phi Epsilon, buffet supper, home of Mrs. Lewis H. Trester, 5:30 until 7:30 p. m.
Alpha Xi Delta Mothers' club, chapter house, 2 p. m.
Phi Omega Pi Mothers' club, chapter house, 2 p. m.

Saturday.
Mu Gamma of Mu Phi Epsilon, tea at governor's mansion, 3 until 5 p. m.

bride attended the university for two years where she was a member of Tri Delt.

ANOTHER Tri Delt marriage Saturday was Jean Carolyn Hall who is now Mrs. John O. Epeneter. The ceremony was performed at 8 o'clock at the Cavalry Baptist church in Omaha with Reverend Mr. Wyrick officiating. The groom was an Acacia at the university. The couple will live in Omaha where Mr. Epeneter is connected with Armour and Co. The maid of honor was Dorothy Ernst, and the following were bridesmaids: Dorothy Stone, Dorothy Davis, and Virginia Seabrooke, all of Omaha, and Carolyn Wapper, of Fremont. Wendell Groth of Lincoln was the best man. The ushers were Robert Danielson, Fred Larkin, Jr., Donald Bell and Bill McEachion.

AT A RECENT initiation the following girls became active members of Tri Delt: Anna Louise Bodison, Kearney; Mary Eilyn Buckman, Beatrice; Ardyth Dudek, Clarkson; Wilma Jordan, Valentine; Mary Lou Phillips, Chadron; and Martha and Siddy Smith, St. Joseph, Mo.

Season's Styles Go 'Cleopatra'!

"Cleopatra" has gone to the ladies' heads! And to their feet—and into almost every article of apparel, judging by the growing vogue of "Cleopatra" styles, following the release of the Paramount pictures of that name, which comes soon to the Stuart theater. Directed by Cecil B. DeMille, it features Claudette Colbert, Warren William and Henry Wilcoxon.

A few of the highlights of the "Cleopatra" vogue are illustrated here in the two dresses designed by Travis Banton for Miss Colbert, and the "Cleopatra" hat and coiffure, the marked influence of Egyptian style and designs is evident in the sandals, jewelry and buckles selected to illustrate the new season's offerings.

Movie Directory

STUART—(Mat. 25c; Nite 40c)
Now Showing: George Arliss in "THE LAST GENTLEMAN" with Edna May Oliver. Our Gang Comedy and Mickey Mouse Cartoon.

SUN—(Mat. 10c; Nite 15c)
Now Showing: Mae West in "I'M NO ANGEL" and also "LAUGHING BOY" with Ramon Novarro and Lupe Velez.

SPORTSING

By LLOYD HENDRICKS

Lynn Waldorf, who has been making his debut at the K-AGGIE institution this season, has apparently struck a year which promises to bring in good returns. Stepping into the shoes of Bo McMillin, Waldorf opened the current season by tying a strong aggregation from Manhattan College. The game ended in a 13 to 13 tie.

There was a long trip for the Kansas State gridgers and that coupled with the new experience of playing on a foreign gridiron doubtless accounted for their inability to beat the New York college.

Kansas State, undoubtedly, has one of the strongest teams in the Big Six this season. A team that can come out with an even score against any team coached by Chick Meehan, the great gridiron showman, has nothing in particular to worry about.

If you were athletic director of a university and were standing out in the rain with the California game only a short three weeks or so away and you had to decide whether or not to take out rain insurance and the cost of the insurance was approximately \$25 per hundred dollars' worth and if you took out the insurance and it didn't rain between the hours of 10 a. m. and 1 p. m. you wouldn't collect—what would you do? This was the perplexing question, one of many which confronts the athletic director at the University of Washington.

Even though the university seems to be situated in a rainy clime, Charley Frankland, Washington university athletic director, claims that since 1917 there have been only four days during which it rained enough in Seattle to satisfy the insurance company's requirements.

Rain insurance has long been the goal of aspiring athletic directors, but the drawback seems to be in the prohibitive cost of it.

Schoolboy Rowe, Detroit's star pitcher, found that after all baseball is only a game of luck Monday when he was up to bat in the last half of the ninth inning with

the score 4-3 against the Tigers. A home run would have tied the ball game.

Mr. Lynwood Rowe did his best. It was a long fly out into center field. Ernie Orsatti, Cardinal center fielder, hurried back and gathered it in, retiring the Schoolboy and incidentally clinching the game for the St. Louis Cardinals.

The Schoolboy has had a phenomenal career in baseball. Winning sixteen games in a row, he was well on his way to a new record for consecutive games won when he blew up and lost a game by an appalling score. Monday, he had his chance, slim as it was, to tie the Cardinals. He lost it too. All in all, however, I believe the Schoolboy has had the most color of any major league pitcher this season.

Members California Band Threaten Quit Unless Demands Met

WESTWOOD VILLAGE, Calif., Oct. (CNS). Threatened with a boycott on college "alma mater" and fight songs, the student board of control at the University of California at Los Angeles last week averted a strike of seventy-five band members with a compromise on their demands.

The collegiate musicians had demanded a trip to Berkeley Oct. 20 for the Bruin-California football game, a paid faculty instructor, and university credit for their playing. All but the latter were granted.

"We will not have a band at all unless we can build a snappy, well-trained marching unit," averred Bud Bertram, chairman of the musical organization's board.

ematic corrective of contrary judgments would be lacking.

That such a board could be free of political pressure seems highly improbable. Under our political system great voting power is exercised by group interests which bring influence to bear in altering definite objectives. No administration, no matter how sincere and public spirited, could successfully ignore such pressure.

2—Statistical Problems.
The statistical difficulties involved in highly centralized planning are very discouraging. We live in a dynamic society in which change in demand and industrial technique is very rapid. Consequently, statistics relating to every phase of economic endeavor would be, once laboriously compiled, largely historical in nature and wholly insufficient in measuring the future. After careful consideration of the problems the noted Harvard statistician, W. L. Crum, concludes: "There is not now, and will not soon be, any sound statistical basis for economic planning."

3—Unpredictable Variables.
Every unforeseeable event of cataclysmic proportions would completely invalidate the plans of a central economic control board. Natural catastrophes such as earthquakes, floods, droughts, unusual climatic conditions play havoc with production estimates. A major crisis such as war, the possibility of which must ever be admitted, would bring a whole train of developments disruptive of any economic plan. Moreover, major economic events in foreign countries affecting as they do investment, foreign exchange, sources of raw materials, and outlets for domestic manufacturers, will continue to upset economic plans in every country which does not aim to become entirely self-sufficing.

4—Technical Progress.
The central planning board would have to decide whether new industries, methods and processes should be permitted to develop unhampered, or whether they should be curtailed in order to protect investments, equipment values, and employment under existing economic relationships. Economic stability, even if attainable, cannot be

secured without slowing up the rate of progress. It is a price we must be prepared to pay.

5—Psychological Factors.
No government as yet devised could prevent the extremes of optimism and pessimism, the irrationality of mass behavior, which is such an important element in economic fluctuations. No economic council or board could prevent men from discounting the future, from assuming unwise risks or from speculating. Unpredictable mass behavior in some form or other will ever persist. And it is a question whether the same traits that have been responsible for huge losses have not also acted as motivating forces behind much of our discovery, invention, and economic progress in general.

It would seem upon reflection that a superimposed economic regime—arbitrary, necessarily dictatorial to be effective, and revolutionary in character—is impossible under our present political and economic system; nor does economic planning promise sufficient improvement to justify experimentation with an order alien to the temperament and ideals of the American people.
