

CAMPUSOCIETY

IF SOME BRILLIANT ECONOMIST should chart the week's social events, he'd find, just as we do, that there is a sharp decline along about Wednesday and Thursday, and a distinct upward slant toward the end of the week.

Besides these three functions, and they'd fill a week end in themselves, the Junior Ak-Sar-Ben ball at the Student Activities building, a Y. W. C. A. social staff party at Grant Memorial, and house dances for Pi Phi, D. S. L. and Farm House, are slated.

TWO MORE Kappa Sigs going to Kansas for the fraternity convalesce in Kansas are Don Munsell and Dick Mueller.

CHI PHI announces the pledging of John Costelloe of Lincoln.

SIGMA NU has pledged Edwin Miller of Corning, Ia., and S. A. E., Bob Chalmers of Kansas City, Mo.

SIXTY COUPLES are planning to attend the Pi Phi house party, given by the pledges for the actives Friday night. The chapter house will be decorated with valentines, and Mary Belle Bates, president of the pledge class is in charge.

CONFETTI and balloons will decorate the D. S. L. houses tonight, when the actives and pledges entertain at a house dance, honoring Washington's birthday.

ONE OF the major events in the calendar of a Big Sister comes this Saturday, when the annual "Penny Carnival" of the Y. W. C. A. is held at Grant Memorial hall.

Petersen and Arlene Bors. HONORING Margaret Beardsley, and Helen Cozad of Omaha, who recently announced their engagements, Mrs. John Bruce entertained at luncheon Thursday, at the Cornhusker.

TODAY at the chapter house, Theta Chi auxiliary will meet for a 1:15 o'clock dessert luncheon, to be followed by a business meeting.

AND LAST Wednesday night at the Y. W. C. A., Alpha Rho Tau alumnae held a meeting. Two playlets by members of the University Players featured the entertainment of the evening.

Simile: "To the coeds who are like watches—pretty enough to look at quite often, sweet faces, and delicate hands, but somewhat difficult to regulate when once set going."—University of Michigan toast.

HELL WEEK CONTINUES DESPITE RUTGERS BAN

Fraternities Discover Ways To Evade Restrictions, Survey Shows.

Rutgers university authorities may legislate against "Hell Week," the bane of fraternity pledges, but the fraternities members who have themselves had to go thru the testing period can be counted on to find ways to thoroughly try out their prospective brothers, a survey of "Hell Week" activities here proves.

Naive observers might carry away the impression that the old "Rah-Rah" spirit has been done away with for more sensible "constructive work," and "useful activities around the house," but two fraternities are compelling their pledges to issue hourly cuckoo calls from the turreted tower of one of the chapter houses.

Two sophomores, also they could get out of "hell week," are going thru it "just for the fun of it." As one said, "It's just once in a lifetime." One of these boys is carrying around 112 eggs. He gave up long ago trying to use his pockets and now employs a waste paper basket.

MARCH BLUE PRINT WILL APPEAR TODAY

Engineers Magazine Contains Two Articles by Students.

The Nebraska Blue Print presented its March issue today carrying a technical account of the products of nitro-cellulose and a description of a new type of heating unit. The two articles are written by two engineering students whose names are withheld and are entitled "Products of Nitro-Cellulose" and "New Type of Heating Unit at Mount Holyoke College."

In the first article, the products of nitro-cellulose, which is made from cotton, are described in detail and written in manner understood by engineering students. Marvin Nuernberger, editor of the engineering student publication, stated. The second story deals with a new type of heating unit now in use at Mount Holyoke College. Various technical aspects of this equipment are listed and its effectiveness is also given.

Ferguson Writes Article. Dean O. J. Ferguson in an article on the licensing of the engineering profession by the state, gives the advantages to be gained by such a requirement. Leading engineers of the state are now backing such a requirement for the profession, Nuernberger said, and at present there is a bill before the state legislature to that effect.

A design of Boulder Dam, produced by the engineering department, appears as this month's cover design. Also in this issue is published the regular alumni notes and organization news.

Writers of these feature articles will not be announced until the end of the semester, Nuernberger explained. At that time the best story will be chosen and a cash prize awarded the writer.

NEBRASKA SWIMMERS PREPARE FOR KAGGIES

Kansas State Invades Pool Feb. 28 for Splash With Huskers.

PIXLEY BREAKS RECORD

Coach Jack Minor's Husker swimming squad, showing added zest in the nautical sport as a result of its victory over Iowa State's Big Six championship mermen last Saturday, went to work with a will this week in an attempt to smash the league tank records widely open as the best method of preparation for the engagement with Kansas State Thursday, Feb. 28.

Stroking thru the waters of the coliseum pool in two practice sessions daily, the Scarlet thincials have succeeded in hanging up several very acceptable clockings for competition against time.

Jim Pixley, free style artist who breathed his way to two individual wins over the Iowans a week ago and held down the anchor position on the 440-yard relay quartet, has conceived an ideal, but very strenuous means of training for his 440-yard free style event. The water harrier has been swimming two 680-yard distances daily to obtain the greatest possible endurance for the shorter meet event. In his second marathon grind Wednesday, Pixley succeeded in covering the first 440-yards in 8 minutes 15 seconds and continued over the remainder of the twenty lap distance in almost equally fast time. The clocking for the first 440-yards was more than 7 seconds under the present Big Six record.

Glydon Lynde loafed thru the 100-yard classic Wednesday in 56.9 seconds, one-tenth of a second under the accepted league time. Lynde, who sprinted the 50-yard distance against Iowa State a week ago in 24.9 seconds, knifed thru the water after his 100-yard swim Wednesday to get credit for a 24.5 time, holds the present conference mark of 24.8 seconds.

Harry Kuklin, who copped both the backstroke races against the Cyclones, has been devoting special attention to his favorite event, and Harry Gibbon got his best time of the season in the breast stroke Wednesday, hauling in a 2:53.6 time.

COLLEGE HEAD LAUDS MODERN GIRLS' IDEAS

Wellesley President Feels That Coeds Surpass Predecessors.

BOSTON, Mass.—Today's college girls make more use of the education they receive and are more interested in relating their college work to their future activity than the college girls of previous generations, Miss Ellen Fitz Pendleton, president of Wellesley college, declared here recently.

"The average college girl of today is more frank, more approachable and less willing to accept opinions handed out to her than her predecessors, which is a good thing," Miss Pendleton said. "I think the modern college girl is much more serious minded than twenty-five years ago. As a group, she is very much interested in public affairs and she has, on the whole, more intellectual curiosity than the girl of fifteen years ago and, after all, that is the basis for acquiring knowledge," she added.

The Burrell class, an experimental class in extra-curricular activities at Stephens College for Women (Columbia, Mo.), is the largest class of its kind in the United States.

CAMBRIDGE FINDS TWO OF PEPYS' DOCUMENTS

College Library Discovers Diaries by English Historian.

LONDON, Feb. 19.—Samuel Pepys, immortal gossip and historian, spoke again this week after 232 years beneath the sod. Two more diaries of Pepys were found in the Pepys library of Magdalen College, Cambridge University.

One deals with the naval problems of the day, for Samuel was once a secretary of the navy. Some entries in the other tell of a plot against Pepys' king, Charles II.

Unlike the familiar and famous diary, the new documents are written in longhand, but they are couched in the unmistakable, forceful language of the known diary, curators say.

The naval diary deals with investigations conducted by Charles II and the Privy Council into the affairs of the naval office. It is a valuable and a wonderful picture of Pepys' industry and abilities and his reliance on them.
