the fact that you have probably only seen the sparrow, there are exactly 400 kinds of birds to be Doctor Winner in 1923 of Nobel Prize for Work - In Physics.

> Dr. Robert A. Millikan, one of the world's greatest seientists, will speak before a public convocation at the university Tuesday evening, April 9, In a telegram this morning to the University committee, Dr. Millikan accepted its invitation.

> Known the world over as a man who has led advanced thought in the study of the universe, Dr. Millikan will make a public address in Lincoln for the first time when he appears in the University coli-seum the evening of April 9. Dr. Millikan was winner in 1923

of the Nobel prize for his outstanding research in the field of physics, and is an authority on cosmic rays because of his work in that branch of science. He holds twenty university doctors degrees. In his public appearances he has been able to explain science in a way that has won great popular approval, and has the unusual Victor to Be Announced at combination of being both a scientist and a lucid speaker. He was heard last year from London on an international broadcast.

Dr. J. O. Hertzler, chairman of the department of sociology at the university and head of the convocation committee, has been instrumental in securing Dr. Millikan for this address.

## ON WATER SOURCES BEFORE SOIL GROUP

Dean of Survey Department Discusses Irrigation. Drainage.

Dr. George E. Condra dean of the conservation and survey department, conducted a discussion of groundwater problems at the regular meeting of the soil seminar held in the seminar room of Nebraska hall recently. Setting forth clearly the sources

and nature of our groundwater supply, the speaker discussed the relation of sub-irrigation, drainage, development of springs, and improving wells to the ground-water. An outline of a set-up for the groundwater survey, investigation, and extension service of a state, as submitted to the National Resource Board was briefly

commented on by Dr. Condra. At next Tuesday's meeting of the soil seminar, Mr. Mullis of the
