

### CAMPUS SOCIETY

#### WITH THE END OF THE SCHOOL

Year so near at hand, and people leaving for this and that part of the country, campus organizations are winding up their meetings and university students are announcing engagements that have been running along for almost four years. Fraternity and sorority mother's clubs and alumnae groups have paused with the business meeting to shake hands and stop work for the summer. But the things that interest the campus more than anything else are the announcements of engagements. Maynard Miller and Jane Carr will take the fatal step soon, and Louise Perry and Richard Mulliner have the same idea in mind. In late summer, Suzanne Burford and John Wilson will be united in the bonds of matrimony, and so on and on. These announcements are what we'd call a fitting close to four years of school, and for those concerned, good luck.

Engagements for Miss Agnew.

**JUNE 19** in Grand Island, Albert Applegate will be married to Elin Shepherd of Fort Morgan, Col. The ceremony will take place in the First Presbyterian church at 8 o'clock in the evening. Elsa Swift will be maid of honor, and Jeanette Chase, Marian Smith, Mary Riemers and Ruth Wells will serve as bridesmaids. Assisting with the reception afterward are Elizabeth Hendricks, and Betty Whaley.

**HONORING** Catherine Agnew whose marriage to Roy E. Blaser will be an event of early summer, Virginia Keim will entertain at a linen shower at her home Saturday evening. The decorations used will be spring flowers, and the fourteen guests will spend the evening sewing.

**MRS. ART PERRY** and Mrs. Frank A. Peterson will entertain at a miscellaneous shower at Mrs. Perry's home tomorrow evening honoring Louise Perry, who announced her engagement Sunday.

**LAST NIGHT** at her home, Janet Peppie entertained with Julia Brannick for Marie Soukup who announced her engagement recently. About twenty-five guests were present at the affair, and the evening was spent informally. Decorations followed a color scheme of pink and green.

**MARRIED** August 30 in Belleville, Kan., were Elizabeth Thornton of Lincoln, and Max Smith of

### WHAT'S DOING

**Monday.**  
Julia Brannick and Janet Peppie, shower for Marie Soukup.

**Tuesday.**  
Gamma Phi Beta mothers club, 12:45 o'clock luncheon at the chapter house.  
Chi Omega alumnae at the home of Mrs. O. B. Clark, 8 o'clock.  
Sigma Alpha Iota mother's club, picnic at Van Dorn park for the active chapter, 12:00.  
Mrs. J. H. Gist, tea honoring Miss Barbara Spoerry, 3 to 5 o'clock.

**Wednesday.**  
Mrs. Art Perry, shower honoring Louise Perry, evening.  
Pi Kappa Phi mother's club, 1 o'clock luncheon at the home of Mrs. Amanda Kiffin.  
Alpha Gamma Delta alumnae tea at the chapter house, 2 o'clock.  
Phi Chi Theta banquet at the Shrine club.

**Friday.**  
Delta Delta Delta alliance at the home of Mrs. J. C. Higgins.  
**Saturday.**  
Virginia Keim, linen shower honoring Miss Virginia Agnew, evening.  
Alpha Tau Omega, 6:30 o'clock dinner at the Lincoln.

**Morrill.** Mrs. Smith is a Nebraska graduate and a member of Alpha Omicron Pi and Pi Lambda Theta. The couple will live in Morrill.

**SATURDAY** evening, in Georgetown, Col. Oms Jorgensen of Lincoln and Henry K. Anderson of Georgetown, were married. Mrs. Anderson has attended the university, while Mr. Anderson went to the University of Colorado and was a member of Phi Kappa Psi. The couple will live in Lincoln.

**JUNE 23** has been announced as the wedding date for the marriage of Louise Perry, Delta Gamma, and Richard Mulliner, Phi Kappa Psi. Both have attended the university and live in Lincoln.

**IN THE** late summer Suzanne Burford of Omaha and John Wilson of Lincoln will be married. Miss Burford attended the university and is a member of Chi Omega. Mr. Wilson is a graduate of the university law school and is affiliated with Phi Delta Phi, law fraternity and Sigma Nu.

**ANOTHER** wedding on June 23 will be that of Edith Koepke of Blue Hill and Elmer E. Lind of Holdrege. Miss Koepke will be graduated from the university in June and Mr. Lind has been graduated from the university and is a member of Delta Sigma Phi, honorary business administration fraternity.

**JUNE 2** has been announced as the wedding date of Inez Wilma English and Russell Bartels. Mr. Bartels is a graduate of the university law college.

**AND ON** June 1 Ella Roberta Hedge will be married to Arthur Herminghaus of Yakima, Wash. Miss Hedge is a graduate of the university and is a member of Alpha Delta Theta.

**AN EARLY** summer wedding will be that of Catherine Agnew of Fullerton and Roy Blaser of Duncan. Miss Agnew is a senior in the Ag college and Mr. Blaser is a graduate of the university and

is affiliated with the Farm House fraternity.

**JUNE 11** Theresa Grose of Council Bluffs, Iowa, will be married to Everett Schuck of Beatrice. Miss Grose has attended the university.

**DELTA** Sigma Lambda held its annual Senior banquet at the chapter house last night. Rufus Strough, Claire Wiley, Kenneth Young, Roy May and Raymond Case were members on the toast-list and those graduating are Clark Hamilton, Allen Contryman, Roy May, Kenneth Fuelscher, J. Rufus Strough and Conner White.

**CHI OMEGA** had candy last night when Margaret Chase, Lincoln, announced her engagement to Ray Tatroe, Lincoln. A late spring or early fall wedding is planned.

### INSURANCE AGENCIES STRIVE TO INCREASE EDUCATION OF YOUTH

**Executive Explains That Men With College Training Get Best Salaries.**

Only two boys of every 100 receive four years of college education. To increase this number is one of the goals of American life insurance companies, says a prominent insurance executive.

The value of an education was pointed out by the executive, who cited statistics compiled by the Massachusetts department of labor and the college of business administration, Boston university.

The cash value of a college education as compared to a high school education was set by the statistics at \$72,000. The total earnings of a college graduate from 22 to 60 average \$150,000.

"When a boy goes to work at 14 he reaches his maximum income at 30. He averages less than \$1200 a year. His income depends largely upon manual dexterity and physical strength and thus falls off gradually after he is 30. More than 20 of every untrained worker are dependent for support at 60. He earns approximately \$45,000 between 14 and 60 and not more than \$2,000 of this in the years he should have been in high school," he says.

"The high school graduate goes to work at 18 and passes the maximum of the untrained man within seven years, rising steadily to his maximum of \$2,200 at 40. He continues at that level the remainder of his active life. His total earnings from 18 to 60 approximate \$75,000, making the education \$33,000 more than the untrained man.

### FACULTY ASSISTS IN STRATOSPHERE BALLOON FLIGHT

**Department of Engineering Builds Observation Station.**

Stratosphere explorers will start on another trip into the ether from the naturally protected bowl near Rapid City, S. Dak., some time after June 1, under the auspices of the National Geographic society and the Army Air corps. One of the observation stations along the chartered course will be located on the campus and conducted by university scientists.

Besides a separate radio transmitter for communication purposes, the balloon will carry two ultra high-frequency transmitters, which will send out signals continuously for the sole purpose of observation and measurement at various distances. The signals will be sent out from the time the balloon leaves the ground until it reaches its maximum height somewhere in the neighborhood of North Platte or Grand Island, Neb.

**Building Transmitters.**  
Professors F. W. Norris and L. A. Bingham of the Electrical Engineering department are now designing and building equipment to use for receiving and measuring the strengths of the two signals as received in Lincoln. The signals will be sent out at two ultra-high frequencies of 55 million and 108 million cycles. It is desirable that there be no reception on these or neighboring frequencies within ten miles of any official observation

station according to the information from the U. S. bureau of standards.

In order that the location of the balloon will be known exactly at all times observers with transits will be located at suitable points in the territory over which the balloon may travel.

The message receiving equipment on the campus will be located on top of the stadium about 85 feet above the ground. The date of the balloon flight depends entirely on the weather, but the entire set-up for the flight must be completed by June 1.

### Government Posts Desirable Field for College Graduates

(By Associated Collegiate Press)  
**NEW BRUNSWICK, N. J.**—The increasing number of government positions available to young men with appropriate training makes that service a good one for college men to point toward, Donald R. Richberg, executive secretary of the National Recovery Administration, declared recently in an interview with the Targum, Rutgers university paper.

In discussing the preparation necessary for such work, Lawyer Richberg emphasized the need for a balanced education. "During the work of organizing the various bureaus of the past two years, we have been hampered by men who had too much theory and too little practice, or on the other hand, men who had plenty of practical experience but no knowledge of the theory behind this practice."

Winston-Salem, N. C.

**ATHLETES SAY:**

**"THEY DON'T GET YOUR WIND!"**

**Tommy Armour, a Camel smoker of many years' standing, who says: "I've smoked Camels for years, without jittery nerves or cutting down my wind."**

**Read below what these famous athletes say about their experiences in smoking Camels**

A suggestion: Follow the athletes in your search for cigarette mildness. They can't trifle with healthy nerves—their "condition"—their wind. The cigarette they smoke must be mild.

Tommy Armour, the golf champion, says: "Camels never bother my nerves or shorten my wind—convincing evidence that Camels are mild."

Mel Ott, heavy-hitting outfielder of the New York Giants, reports: "My experience is that Camels are so mild they never get my wind."

And Stubby Kruger, water polo and swimming star; Amy Lou Oliver, diver; and Lester Stoenen, tennis star, agree with Pete Knight, the rodeo champion, who says: "Camels—there's a smoke so mild it never cuts down your wind, never gets you out of condition."

**A mildness that will please you too!**  
Camels are made from costlier tobaccos. They are mild, cool, gentle on the throat. Smoke them all you wish. Camels don't upset your nerves... or tire your taste. And athletes find that Camels do not get their wind.

**YOU'LL LIKE THEIR MILDNESS TOO!**

**CONSIDER THAT IT IS MORE WORTH WHEN YOU FEEL GOOD—physically fit, in condition." Turn to Camels. Athletes say "They don't get your wind."**
