It's Only The Beginning.

The summer Nebraskan adds its welcome to students of the University's summer session. Just as you are beginning your brief term of study and school, so it is beginning a new period of its life. It exists only that you will read it.

Through the winter months the Nebraskan rides stormy seas of student politics and activities, and it now goes on into the comparatively quiet waters of summer school. Certain changes are necessary, but it remains the hot season cousin of what is known affectionately or derisively during the winter term as the "rag." Newspaper men scorn it as being too little like a newspaper, and professors condemn it for being too much like one.

It will serve you as an official organ, carrying information and bulletin news from the administration. It will keep you in touch with the social and recreational activities on the campus, and attempt to give you word of what is happening to the other students and professors here who number nearly 2,000 during the summer.

Issued free to all students of the session, the Nebraskan is proud to become another facility offered by the University to you. If you care to get the most out of the few weeks then you must take advantage of the swimming pool, the li-

braries, the parties, and the classes, as well as the newspaper.

You will find Nebraskan advertisers to be fair merchants, who believe in you enough to invest their money first. They hope you will recognize this good business method as indicative of their business policies in general.

For you the Nebraskan hopes a pleasant summer with enough of value to make you remember it as outstanding, the University as worth while, and the newspaper as worth reading.

NATIONAL AAU MEET TO DRAW TRACK STARS

Owens, Cunningham, Venzke Perform in Stadium July 3 and 4.

Perhaps the greatest array of track and field stars ever to perform in a national meet will compete in Lincoln July 3 and 4 at the A. A. U. championships in the Nebraska memorial stadium. Magic men of sport such as Owens, Cunningham, Venzke, Torrence, and Metcalfe will seek new world records.

Competition in the 100 meter dash will probably make it the best race of the meet, Gregg McBride, Lincoln sports writer, believes. He bases his early prediction on the men who plan to enter. There is Jesse Owens, big-10 champion and brilliant Ohio State performer; Herman Nugess of Tulane, southern champion; George Anderson, west coast champion from California; and Ulace Peacock of Temple, eastern champion. Besides these college men Ralph Metcalfe, national champion, will compete.

In the Mile.

Racing to records in the 1,500 meter run will be Glenn Cunningham who holds the world's record in the mile; and Gene Venzke, his famous competitor. It is probable that Bill Bonthron, world's record 1,500 meter man, will complete the trio.

Versatile Jesse Owens will compete in the broad jump for which he claims the world's record. Harold Osborn will come to Lincoln to enter the high jump competition. Defending his world record mark in the 400 meter hurdles will be Slat Hardin. Percy Beard who holds the mark in the 120 high hurdles will be here.

The holder of the world indoor pole vault record, Keith Brown of Yale, will meet some lively foes among visiting athletes. Pushing the shot to great distances again, Jack Torrence will try to crack his present world mark.

The national junior championships will be run off on Wednesday, July 3. These are events between men who have not been members of an olympic team or have not won intercollegiate or I. C. A. A. A. A. titles. On the Fourth of July the senior meet and relays will be held. Tickets are on sale at \$2.20 for a season book, officials have announced.

Moritz Has List of Rooms for Summer

Summer session students who wish to find rooms near the university campus, or those wishing to rent houses for the summer should communicate with the director of the session, Room 305 Teachers College building. That office will keep a list of available rooming places.

ROOMS FURNISHED

close in. Showers, ice water. Membership privileges included. 2.00 per week double, 2.50 per week single and up.

Y. M. C. A.
13th & P Streets.

MORITZ FORECASTS BIGGER ENROLLMENT IN SUMMER SESSION

(Continued from Page 1.) teaching staff, including thirteen well known visiting instructors.

Courses are equivalent in method, character, and credit values to those offered during the regular school year and in some departments will be superior. Most departments have designed their programs so that students working for advanced degrees may complete their requirements in four consecutive sessions.

Higher Degrees Needed.

"The new ruling of the North Central association requiring a master's degree which becomes effective in February, 1937 necessitates that those planning to keep in accredited schools be able to complete their requirements not later than the summer of 1937," Mr. Moritz pointed out.

"Many of the larger high schools are looking to people specialized in academic fields who have graduate hours," he said. "Professional promotion can be expected only by those with the necessary education to meet the demands of the future."

Last summer's registration was 1,777, with 600 students in the graduate college.

Will Show Sound Movies Friday of Auto Testing

Motion pictures of the high speed tests to which automobiles are subjected before they are released for production will be shown for one hour in Morrill hall, room 20 Friday, June 21. Two shows will be given, at 9 and 10 o'clock in the morning.

These talking pictures, according to the sponsors, will be of interest to students because of their relationship with the basic laws of chemistry, physics and engineering. They will be shown by the Jam Handy Picture Service.
