Fashion Decrees Perfume Must Match Personality

Perfumes along with lipsticks and nail polish must harmonize with your personality this season if you are to be the perfect socialite. "All the perfumes of Arabia" are waiting for you to choose them to go with any type of evening dress imaginable.

Essence Imperiale Russe—doesn't that sound regal—and so it is—for this scent was created 200 years ago for Russian royalty and it became the favorite of Catherine the Great. It has been used by all the great beauties who knew its bewitching charm. It stirs the senses!

If you are a woman with devil in your eye—crisp and yet irresistibly young and exciting—use the newest perfume designed for

If you want to be sparkling as the jewels in your hair—if you are the type of person who is all joy and happiness, use an effervescent, light, and scintillating aroma.

But no matter what you choose, be sure to think before you buy,

as you want to suit your personality and your gown for that special evening.
