## TUESDAY, JANUARY 7, 1936.

ing attitudes and problems of other institutions and the comparison of our council with other stu-

dent government agencies." It was found that most councils have a wider range of powers than the organization at the university. Hill said that almost every stu-dent governing body is given charge of minor disciplinary problems in addition to the regular administrative and political duties. Most student governing bodies are far more wealthy than Nebraska's by virtue of having the power to administer student activities fees. After conferring with delegates from schools in the Big Six region, Hill announced that there is a possibility that Nebraska may entertain a regional convention of student council officers in the spring. More than 100 schools are in the west central region, of which Nebraska is a part, and will be in-vited to the conference.

Principal addresses at the Kansas City convention were given by Miss Agnes McPhail of the Canadian parliament, Mr. Gustav Kullman, secretariat of the League Nations; Mr. Arthur Greenwood, president of the Union of British students, and former Senator Allen of Kansas.

"Our attendance at the convention was certainly worth while, stated Hill. "Student leaders were found to be tolerant, intelligent and pleasant."

FIELD ARTILLERY, **ENGINEERS UNITS** ASSURED R.O.T.C.

## Chancellor Notified: Actual Operation to Start in September.

Definite assurance of the establishment of engineering and field artillery R. O. T. C. units at the university has been received by Chancellor Burnett. Actual operation of the units will begin with the opening of the school year next

September. Present plans call for the establishment of the field artillery unit at the college of agriculture where it will replace the infantry. The engineering unit will be located on the city campus. As far as is known, present infantry work will be unchanged.

For the initial operation of these new units, Chancellor Burnett has for the Seventh ployer never has to be told to organized reactionary minority corps area, that the war departployer never has to be told to watch his step. It's an inbred in-stinct that he's had ever since, as a fledgling clerk, he was told by his immediate supervisor.
