

NEBRASKA CAMPUS SOCIAL WHIRL

VALENTINE TREND EVIDENCED TODAY.

Valentines seem to be the main subject under consideration as we view the social calendar this week. Parties will be carried out in the customary hearts and flowers decorations, and we even notice the alumnae and mothers clubs straying from the well-worn paths of business-like procedure. One of the most interesting examples of this tendency is the S. A. E. mothers club party Saturday, at which the fathers will again share the honors for which they have so long waited. Although the customary candy passings are not as much in evidence as we had hoped, nevertheless we notice that more serious romantic developments and weddings seem to be flourishing this week. Sigma Nu's are planning a Sweetheart dinner to honor their Valentines, and the Pi Phi's have selected that very advantageous date, "the fourteen," for their formal.

MORTAR BOARD PARTY SATURDAY.

Mortar board alumnae will be entertained by the active chapter Saturday, Feb. 15 with a luncheon at the Cornhusker hotel. This date has been set for the affair because Feb. 16 marks another anniversary of the founding of Mortar Board, and because of University Charter day which is Feb. 15. A program suitable for the occasion has been planned. Elizabeth Shearer is in charge of the arrangements and the assisting committee is composed of Alaire Barkes, Ann Pickett and Mary Edith Hendricks.

NEW officers of Zeta Tau Alpha are: Ruth Hutchinson, president; Elizabeth Orth, vice president; Ruth Hunt, secretary, and Olive Van Zookirk, treasurer.

GAMMA Phi Beta announces the pledging of Mildred Bruning of Crete, Elmae Kingdon of Lincoln, Maureen Tecker of Matonee, and Marjorie Colburn.

NEWLY elected officers of Phi Mu are: Jeanne Palmer, president; Aileen Marshall, first vice president; Dorothy Chapelow, second vice president, and Leona McBride, secretary.

ACTIVE and local alumni members of Sigma Alpha Mu will be entertained by the pledges at a Parisian party at the chapter house Saturday, Feb. 15. Members from Omaha and Sioux City will be special guests at the affair. Chaperons for the evening will be Dr. and Mrs. Fellman and Mr. and Mrs. David Zolot.

DELTA Gamma mothers club will hold its regular meeting Fri-

WHAT'S DOING

Wednesday.
Sigma Chi mothers club luncheon at the Y. W. C. A., 1 o'clock.
Alpha Omicron Pi alumnae buffet supper at the home of Mrs. John Rosborough.
Rose Bowl game pictures to be shown at the Temple at 7:15.
Sigma Chi pledge smoker at the chapter house.

Thursday.
Sigma Phi Epsilon auxiliary luncheon at the chapter house, 1 o'clock.
Phi Mu mothers club luncheon at the chapter house, 1 o'clock.

Friday.
Pi Beta Phi formal at the Cornhusker.
Delta Gamma mothers club luncheon at the chapter house, 1 o'clock.

Saturday.
Alpha Xi Delta mothers club meeting at the chapter house.
Alpha Tau Omega auxiliary luncheon at the home of Mrs. R. M. Walt.
Mortar Board alumni luncheon at the Cornhusker hotel.
Sigma Alpha Mu pledge party at the chapter house.

Sunday.
Chi Omega formal at the Cornhusker.
Mu Phi Epsilon alumnae luncheon at the home of Mrs. Lawrence Lindgren.

Sunday.
Sigma Nu sweetheart dinner at the chapter house.

day, Feb. 14, at the chapter house. Following luncheon and the business meeting, a short program will be presented. Alfred Moses will play several violin selections and Lucille Reilly will sing a group of numbers. She will be accompanied by Professor Robbins at the piano.

OFFICERS of Alpha Xi Delta who have been recently elected are: Merle Seybolt, president; Betty Cherry, vice president; Florence Steitville, treasurer; Regina Hunkins, recording secretary; Margaret Standford, corresponding secretary, and Carol Emery, social chairman.

PLEDGES of Sigma Chi will hold a smoker Wednesday evening at the chapter house. A short business meeting will follow. Fred Humphrey, Harry Dorr, Max Horn, and Frank Kersenbrock are in charge of the arrangements.

NEBRASKA chapter of Xi Psi Phi, professional dental fraternity, will be represented at the supreme national chapter meeting Feb. 14 and 15 at Chicago, by two senior dental students, John L. Seberg and Donald Waggoner.

SEEN ON THE CAMPUS.

Harold Schneider, Sigma Chi, proudly playing chauffeur to a dozen comely coeds... Jean Walt running daily between Coed Follies central headquarters and the Cornhusker office... Loren Zook "looking down" upon the populus... Al Pearl trying to get the Ag college "campus conscious"... Chi Phi's and D. U.'s going strong for the latest ear muff fad... Marjorie Milbourn and Ray Riggs together - not unusual... Marjorie Hudson, one of this semester's acquisitions, going in for activities in a big way, and very business like and efficient about the whole affair... Wilma Comstock and Stanley Brewster talking about life in the hall at Andrews... Jean Swift, Pi Phi's "dancing lady" plowing through the snow with Jimmy Stuart by her side... Ross Martin, a playboy at heart, setting fire to stray pieces of paper... and every-one discouraged because it's snowing again!

ELLIOTT GUEST AT PHI PSI HOUSE.

Dr. E. C. Elliott, chancellor of Purdue university and member of the Nebraska chapter of Phi Kappa Psi will be the guest of honor at dinner at the chapter house Thursday evening. Purdue's chancellor was graduated from the university in 1895, and received his master's degree two years later. After receiving his advanced degree, he accepted the chancellorship at three Montana state schools and from there went to Purdue. Lincoln alumni who were in school with Dr. Elliott will be present. They are: Dr. C. E. Laue, E. A. Wiggenhorn, L. W. Kormeyer, Fred DeWeese, and A. Haacker. Earl Cline, president of the board of regents, will also be a guest.

ANNOUNCEMENT was made recently of the approaching marriage of Geneva Grant, former university student and member of Kappa Delta, to Steve Hokuf, former Nebraska football and basketball star, who is now studying for his Masters degree at Berkeley, where the couple will reside.

ALICE Sprague of Beatrice and Byron Goulding of Omaha will be married Saturday afternoon in Omaha. Both were students at the university, where Miss Sprague is a member of Kappa Kappa Gamma, and Mr. Goulding is affiliated with Beta Theta Pi.

ALPHA Tau Omega auxiliary will meet for luncheon Friday at the home of Mrs. R. M. Walt. Mrs. A. L. Mohler, Mrs. Carl Erb and Mrs. Bruce McEntire will assist the hostess.

SIGMA Alpha Mu announce the pledging of Raleigh Woolf of Lincoln.

BARBS ARRANGE FOR MIXER NEXT FRIDAY

Interclub Council Declares Panther - Bruner Cage Game Is Void.

Barb activities for second semester will start with a mixer Friday, Feb. 21, the barb interclub council decided at its meeting Tuesday evening. James Rlissness, Wilbur Beezley, and William Kuticka are in charge of arrangements. Basketball game played between the Panther and Bruner teams was declared void. Panther's use of ineligible men in their quintet was given as reason for the move. An all-barb basketball program for the spring months was discussed. Following the basketball tournament, barb groups will run off a series of volley ball games. A rifle tourney will be instituted in March. A committee was appointed at the Tuesday meeting to investigate the point system for barbs.

KAGAWA, FAMOUS CHRISTIAN, TALKS ON COOPERATIVES

(Continued from Page 1.)
urday morning he will address members of the conference on the "Spiritual Life." Announcement has been made that the limited number of tickets which were available for the address at the city churches are practically gone. Students, Faculty Guests. University students or faculty members who wish to attend the lectures Saturday morning and Saturday afternoon may register as guests of the conference at the Y. M. rooms in the Temple or at the Y. W. office in Ellen Smith hall. C. D. Hayes, Y. M. secretary announced.

"Any university student or faculty member is invited to be a guest of the conference at the two lectures by Kagawa," Mr. Hayes stated. The registration fee for guests is thirty-five cents. Y. W. and Y. M. members who wish to attend the entire conference as delegates should also register either at the Temple or at Ellen Smith hall.

Kagawa 46. Barely forty-six years old, Kagawa has accomplished much for his country, much for the present world, and much for the future in the short years of his life. Raised in a home of hatred, and spending his youth in the dirt and poverty of the slums, Kagawa has built out of his experiences a plan for an ideal social organization, a co-operative society.

He states that he believes that machines were created by man, but that they do not need to victimize him. He believes that by consumer control, and, eventually, consumer ownership, man can make the machine serve him in an improved social organization. Thru his work in Japan Kagawa has enlisted over one-third of the population in his movement, and thru his books and lectures he has found disciples all over the world.

Charter Day, Once Outstate Tradition, Comes to Campus

(Continued from Page 1.)
many prominent Nebraskans living there speak to their fellow graduates. Senator Norris spoke several years ago, his remarks broadcast over a nation-wide radio chain. Secretary of War Dern spoke to the group last year. Tell of Early Professors. About twenty years ago, Charter day was rather mildly celebrated along with mid-winter commencement. When the three

COMBAT COMMUNISM BY EDUCATING PUPILS

Congressman F. J. Sisson Advocates Teaching in District of Columbia.

WASHINGTON, Feb. 12.— Teachers in the District of Columbia public schools should be permitted to give their pupils "the facts" about communism, according to Congressman Fred J. Sisson, democrat of New York, who this week had presented a bill which would do just that. He declared that "the best way to combat communism or anything else which is destructive of our present order is not to cloak it in mystery or secrecy, but to let the facts be known." This provision, attached as a "rider" to the district appropriation bill last year, has figured prominently in an investigation of the alleged teaching of communism in the public schools. "No right-minded person believes any one should be allowed to advocate communism or any other 'ism' in the public schools, but it is rather an insult to the teaching profession to presuppose that it is necessary to forbid it," Sisson said.

"However, the prohibition against the teaching of communism would very likely carry with it the idea that students in the schools should not be allowed to gain the facts about the social, economic or political systems of other countries and could be based only upon the assumption that our young people are too feeble-minded to know the truth about things."

PROFESSOR DISCUSSES COOPERATIVE SETUP.

Doctor Brokaw Outlines Fundamental Plans at Vespers Tuesday.

Listing the fundamental principles of cooperatives and citing instances in which the plan has been tried in this country, Dr. W. H. Brokaw, director of the agricultural college extension department, spoke on "Cooperatives" at the vespers service Tuesday at 5 o'clock in Ellen Smith hall. The subject of Dr. Brokaw's speech was chosen as a valuable introduction to the economic principles which Toyohiko Kagawa will stress when he speaks at the Student Christian conference in Lincoln next Friday and Saturday. Preceding the speech by Dr. Brokaw, Winifred Nelson, member of the Y. W. cabinet, led the group in devotionals. Jane Keefe, president, made the announcements. Special music was featured on the program.

Two ambitious reporters at the University of Wisconsin have discovered that an ordinary bottle of ink will supply enough fluid to write 191,600 words—if you do not spill any on the floor or lend any to your roommate.

KAPPA PHI PRESENTS 'ALICE IN CHARMLAND'

Kappa Phi will present "Alice in Charmland," Saturday afternoon, Feb. 15, from 3 to 5 o'clock, at Ellen Smith hall. All Methodist girls are invited to attend. Members of Kappa Beta and Sigma Eta Chi will be guests. Alice King, chairman, Laura Schermer and Dorothy Sandrock are in charge of arrangements.

Valentine Heart Gift Candies

by WHITMAN and BAUER \$1 and \$2 Get it at University Drug 14th & S B3771

Send Her A Valentine Gift... Friday is the Day!

A Tribute to Lovely Hands

For a Valentine that's as useful as it is charming... choose pigskin Gloves in the stunning new Spring styles. Navy, white, cork, natural, black and brown. 2.95 to 5.95 GOLD'S—Street Floor

Hankies for Dainty Valentines

She'll appreciate nothing more than some exquisite handkerchiefs. We have a grand variety of linen hankies, in white, street shades, colorful prints and all white with dainty lace trim. 25c and 50c GOLD'S—Street Floor

Surprise her with a valentine that will be a permanent expression of your affection... a lovely bit of jewelry. Do come in and see our collection... we have a host of smart trinkets that will delight her. 1.00 to 5.95 GOLD'S—Street Floor

Investigators Show School Seriousness Greatly Overdrain

New York Times. The college student has come in for such a flood of praise for his increasing seriousness since the more depressed days of the depression that we are in fair way of having a new caricature of student life, as overdrain for the middle thirties as it was for the twenties, when the typical student was presumed to be spending most of his time raising general extra curricular devil, and life on the campus was much like a night club. But what is the true picture? With the aid of three college graduate investigators, a midwestern university made a comprehensive study of extra curricular activities of more than 700 students.

Plenty of Leisure. One of the first observations was that while students feel the demands of their studies as an omnipresent potential burden, they nevertheless devote as much or more time to leisure as the average adult in civil life—about six hours a day.

By far the largest part of this six hours is spent in passive leisure—loafing, bull sessions, radio listening, drinking and car driving. Sheer idleness, random conversation and radio rank second, third and fourth in time consumed. For convenience, let's follow John Frederick Jones, the average student, around thru the week.

And Here's What He Does. He rises in the morning, after seven or eight hours of sleep, but with eyes heavy from rag chewing, and dashes off to class, postponing breakfast until his free hour at 9 o'clock. By noon he has finished his class room attendance.

Most likely he has a job—but one in a restaurant which requires little more time than he would take off for his meals anyway. After that work he has all afternoon to do as he pleases—for French verbs, a short theme and a history assignment will take no more than three hours after dinner that night.

A part of the six hours goes to bull sessioning on class assignments, dates, instructors, scandals, sports, sex and even current social and economic problems. Rarely is there a session into which sex does not enter.

Not Much Drinking. He spends three and one-half hours a week listening to particular radio programs, and a vast number of other hours are musically accompanied by the loud speaker.

Of three students, John is one who drinks—but he spends little time at it—barely half an hour a week. Here, then, is one of the prime challenges to the college: to bring its strategic role of alma mater, its admirable recreational facilities and its trained leadership to bear more positively in producing students who are on speaking terms with culture.

ILLINOIS CONDUCTS DEATH RAY RESEARCH

URBANA, Ill., Feb. 11—Use of a "death ray" as a therapeutic treatment for certain human ailments may become practical, if tests being conducted at the University of Illinois are successful, it was learned this week. The ray, a beam of neutrons fourteen times more deadly than X-rays, will be shot from a scientific "gun" now being assembled under the direction of Dr. P. G. Kruger.

Experiments have shown, Dr. Kruger said, that the rays destroy white corpuscles of the blood, reducing the count from 8,000 to 600 or 400. Altho this means almost certain death to normal humans, the physicist asserted, it may mean just the opposite to victims of leukemia, the disease in which white corpuscles grow so fast they kill off the life bearing red ones.

Another possibility, he said, use of the ray to kill the wild growing cells of cancer and Hodgkin disease. A Colgate university psychology professor has found that large meals produce temporary "brain anemia" by drawing blood from the head to the stomach.
