

MORTAR BOARD GIVES SCHOLARSHIP TEA IN HONOR OF 466 WOMEN

Honorary Recognizes Girls Receiving Creditable Grades.

Mortar Boards will entertain all university women with an 80 average or above at a scholarship tea Sunday afternoon, from 3 to 5 o'clock, in Ellen Smith hall. 466 invitations have been issued to women on the campus.

"By giving the tea we wish to honor creditable scholarship rather than high scholarship," Alaire Barkes, president of Mortar Board, stated. "High scholarship is recognized in a great many ways on the campus. Creditable scholarship should be given some recognition too."

Invitations to the tea were sent to all girls who attained an average of 80 or above during the past year, Lorraine Hitchcock, chairman of the committee in charge of the arrangements, announced. The tea is a standing project in Mortar Board's yearly program.

In the receiving line for the tea will be Miss Amanda Heppner, dean of women, Mrs. F. D. Coleman, national president of Mortar Board, and the officers of the local chapter, Alaire Barkes, president; Mary Edith Hendricks, vice president; Anne Pickett, secretary; Phyllis Jean Humphrey, treasurer; and Lois Rathburn, historian.

Miss Elsie Ford Piper and Mrs. Ada Westover, alumnae members of Mortar Board, and Miss Margaret Fedde and Miss Florence McGahey, Mortar Board advisers, will preside over the tea table during the afternoon. A color scheme of green and yellow will be carried out by the use of candles and acacia flowers.

Assisting Elizabeth Busbee, in charge of the serving, will be the following members of Alpha Lambda Delta, freshman women's honorary: Genevieve Bennett, Rosalie Bruer, Betty Cherny, Marguerite Cushing, Jean Gordon, Marie Kotouc, Florence Steuteville, Maritia Marrow, Jean Marvin, Jane Pennington, Jane Keefer, Elaine Shonks, Virginia Amos, Aileen Marshall, Peggy Heald, Muriel Lyne, Marie Vogt and Vera Wekesser.

Providing musical entertainment during the afternoon will be Miss Lucille Reilly, voice; Miss Ruth Hill, piano; Miss Vera Kelley, violin; Miss Constance Baker, flute; Miss Dorothea Gore, piano; Miss Louise Magee, piano, and Miss Harriet Byron, voice.

LETTERS EXPLAIN NEW POINT SYSTEM

(Continued from Page 1.)
leaders immediately submit complete information to the point system committee, so that the activity eligibility files will be up to date, and the change can be made successful," declared Miss DePutron. This committee is composed of Alaire Barkes, Lois Rathburn, Jean Wait, Elsie Buxman, Miss Hendricks, ex-officio, and Miss DePutron, chairman.

Revision Affects Nominations.
"This revision will definitely affect nominations in spring elections," stated Miss Hendricks. "No girl can be a nominee unless her record shows she is eligible under the new system," she concluded.
The part to be played by the inter-organization committee is to assist A. W. S. in enforcing the system, and co-operate to insure its success, according to Miss Barkes. Individual adjustments will be made through this group and A. W. S. board.

Basis of Classification.
Following is the basis of classification used:
1. Any woman student may have just one group of the following activities, the scale being in terms of A, B, C and D. (a) A and B; (b) B and C; (c) B and C and C; or (d) C and C and C.
2. There is no limit regarding the number of D activities which may be carried.
3. A woman is not eligible for an office if upon securing it she will be overpointed.
4. In case one has an office or some active role in an organization, membership in that organi-

zation will not be counted separately.
5. Automatic membership due to membership in another organization will not be counted.
6. After one warning, violations are subject to penalty by the A. W. S. court.

FRENCH CLUB HOLDS MEETING SATURDAY

Lenore Teal Presents Piano Selections; Refreshments Served Students.

Le Cerele Francais, French club, held its monthly meeting at Ellen Smith hall Saturday afternoon from 2 to 4 o'clock. The program included several French piano numbers by Lenore Teal and French riddles and games.

Miss Teal's selections were "The Cuckoo," by Dequin; Chopin's "Waltz in A Flat Major"; a group of Debussy numbers, "Danseuses du Delphic," "Voiles," and "Jardins sous la Pluie," and "Jeux d'Eau," by Ravel.

'THE COLLEGE GIRL—HER DAY,' SUBJECT OF MISS PERKINS TALK

City Y. W. C. A. Secretary to Speak at Tuesday Vesper Service.

"The College Girl—Her Day" will be the subject which Miss Bash Perkins, secretary of the city Y. W. C. A., will discuss at the next Y. W. C. A. vesper service to be held on Tuesday, Feb. 25, at 5 o'clock in Ellen Smith hall.

Explaining many of the problems which a college girl must meet today, Miss Perkins plans to give a sketch of how the average college girl may use her time to the best advantage, at the same time including a short discussion

of the use of leisure time. As an additional part of her talk, Miss Perkins will suggest some ways of aiding a girl to get into the work which best suits her and will explain how to avoid getting into the wrong position.

Kathryn Winquist, member of the Y. W. cabinet who heads the personnel staff, will lend the devotionals which precede the speech, and Jane Keefer, Y. W. president, will give the announcements. Special music will serve as a prelude to the devotionals and main discussion of the meeting.

Expressing her opinion that it would be of considerable value to hear Miss Perkins, Frances Souder, chairman of the vesper staff, stated: "Every girl should be interested in learning how to use her time to the best advantage, as well as to properly choose a career. It would be to one's advantage then to hear Miss Perkins speak as a competent authority on this subject."

N. Y. U.'s "iron men" have been the sharpest menace to eastern basketball leagues this season.

HENDRICKS PUBLISHES PAPER ON CHEMISTRY

Dr. B. Clifford Hendricks of the chemistry department has an article, of which he is a co-author, recently published in the Journal of Chemical Education, entitled "Measuring the Ability to Interpret Experimental Data." F. P. Frutchey and R. W. Tyler of Ohio State university collaborated with Dr. Hendricks.

The article reports on an attempt to provide a measure for another of the less tangible but desired outcomes of chemistry instruction. It suggests the use of data found in recent chemical literature containing the reports of chemical experiments.
