# SCHOONER REPRINTED Editor Wimberly Announces Two Former Nebraskans'

(Continued on Page 4).

### Works Copied.

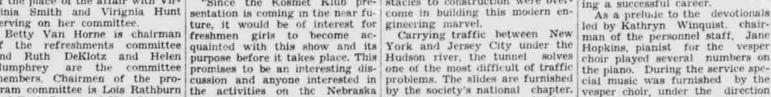

Following the appearance of the spring issue of the Prairie Schooner the early part of the week, Editor L. C. Wimberly announced a list of four reprints from past numbers of the magazine since the distribution of the winter edition. Two of the reprints are the original work of former university students, Weldon Kees and Rudolph Umland.

According to Professor Wimberly, the varying material re-printed from the Schooner in other quality publications demon-strates that the Nebraska literary magazine is printing work that is representative of the best in all lines of writing. He said further, 'we have received endorsement in other publications on our short stories, poetry and articles."

Weldon Kees' story, "Frog in the Pool," which first saw print in the 1935 spring Schooner is to be used in the coming edition of the anthology, Modern Story Selections. "Spring of the Black Blizzards," a dissortation on last year's was published in the fall Schooner
