Only as a matter of formality need the Big Six basketball conference continue into its final week. Only two games remain and no matter who holds the trophies the upper brackets of the statistic box will still remain the same as above.

The fast break which has been spreading in fame like oil on the pavement, was still fast but the Brownemen could get no break. Ebling with his never miss habit worried everyone concerned, as did little Milt Allen, the coach's son with his deadly passes. The latter's reputation has always been that he is well drilled in fundamentals and after his appearance here in Lincoln, there was no room for argument among the Nebraskans. To him perhaps goes the title of the longest and simultaneously the most accurate bounce passer on the boards.

With Nebraska, supposedly superior to at least four of the Big Half Dozen going down to such an undisputed defeat, there seems little hopes for either Missouri or Oklahoma. And though fans are

quite conscious of the facts, they will no doubt hope for the success of the under canine.

This year is the first year that Husker fans considered a cage game by their alma mater superior to a pan of home made fudge for during the past two seasons there was almost an audible echo as the players marched the ball down the floor. But this year the leaf was turned over and a record breaking mob of 7,000 turned out though they could not cheer their favorites on to victory against Kansas.

Prosperity was enjoyed not only by the quint, but also by their guiding hand, W. H. Brown. Brownie has worked under dark skies for two seasons, but this year he feels amply compensated as he comes to the surface with a powerful '36 five and prospect for a still more powerful '37 clan.

In Big Six scoring annals Frank Groves, Kaggie pivot man, scaled several of his competitors to seat himself on top. During last week's action he set a new conference scoring record with 125 points or the season of ten games.

It is common conjecture that Ray Ebling, the K. U. forward flash, will soon displace Groves and be the unchallenged scorer just as he was last year. The interesting duel that he has enjoyed all season with George Wahlquist is no more since Wahlquist played his last varsity scheduled game of a three year career last Friday.

TYPES OF ACCIDENTS RESULTING IN PERSONS KILLED AND INJURED IN 1935

America's shameful record on streets and highways in 1935 was both worse and better than the year before. Worse, because deaths increased by around one per cent from 35,769 in 1934 (excluding 332 motorcycle fatalities) to 36,100.

Better, because gains of five and six per cent in car registrations and gasoline consumption respectively normally would result in a more pronounced increase in deaths.—Daily O'Collegian.

Middlebury college will join other schools in dropping Latin and math as entrance requirements. Purdue's charter stipulates that there be on the board of regents "one farmer, one woman, and one person of good moral character." Probably the oldest coed in the country is a woman candidate for a master's degree in archaeology at Brown. She is 81.

CYCLONES SEEK TIE FOR FOURTH PLACE

AMES, Iowa, March 3—A tie for fourth place in the final Big Six conference standings and a season's record of 8 wins and 8 losses is the reward to the Iowa State College basketball quintet if it can defeat the University of Missouri five in the final game of the season in Columbia, Wednesday night. Missouri claims to be in better shape than when the Tigers spilled the Cyclones 33 to 29 in Ames several weeks ago, while Coach Louis Menze feels his Cyclone charges played one of their best games of

FOR DIGESTION'S SAKE — smoke Camels

Smoking Camel Cigarettes Aids in Assuring Natural Digestive Action

"Hurry—hurry—hurry" seems to be the order of the day. People get caught in the lockstep of modern life. Tension finds the weak spot, so often—digestion. Smoking Camels improves digestion...wards off the consequences of hurried, nervous living. Camels gently stimulate digestive action. They promote the feeling of well-being and good cheer so necessary to the proper assimilation of food.

In a word, Camels set you right! And, in smoking Camels for digestion's sake, you may enter a whole new world of smoking pleasure.

MAIL GOES THROUGH!
It's often a struggle for F. B. Fowler on Star Route No. 1392, Maine. "It's eat-and-run with me," he says, "but I always top off with Camels. Camels are good for digestion—help along the natural processes—and certainly have a great flavor!"

HARD HITTER. Jane Sharp, tennis champion, plays a smashing game that carries her to the limits of exhaustion—often makes digestion a real problem. "Smoking Camels," she says, "makes food taste better—helps me to digest my meal. And Camels taste grand!"

THE FAMOUS GOLD COAST DINING ROOM (above) at the Drake Hotel in Chicago. Here the fragrant, delicate smoke of Camels rises while Erik, famous *maitre d'hôtel*, watches alertly over all to see that no wish goes unsatisfied. "So many of our guests smoke Camels," Erik says, "for they have found that choice tobaccos add to the pleasure of the meal. Camels are tremendously popular—a leading favorite here."
