

FROSH COMPETE IN TRI-COLOR FOR TRACK NUMERALS

Three Teams Battle for First-Year Honors in Meet Today.

Freshman track and field performers will have the opportunity to win their freshman numerals for this track season during the tri-color meet Wednesday afternoon, according to Track Coach Henry F. Schulte.

Several first year men have scored high enough marks to win their awards already. Ray Baxter, Fort Scott, Kas., jumped six feet to meet the requirements. Bob Mills, Lincoln, passed the required mark of 44 feet in the shotput to win his award. Mills' best shot mark is 46 feet 2 inches, and he is now trying to set his mark in the discus throw. Bob Neuman, Chappell, vaulted 12 feet 4 inches, and Dick Evans, Lincoln, cleared 12 feet 3 inches to win their numerals.

Competition promises to be keen Wednesday when the three strong yearlings teams run it out for another tri-color meet championship. All three teams have been bolstered by the addition of spring football men who checked in their cleared shoes and checked out their spiked sandals.

Bob Allen and Leland Butler will captain the Red team, Mort Aden and Jack Harris the Green team, and Hugo Hoffman and Clement Theobald the Orange team. Members of the three groups have been working out steadily since the last meet, and as this is billed as one of the biggest three way meets of the year, some good times and marks are expected to be established.

Iowa State Picks 28 Track Men for Relays at Drake

AMES, Ia., April 21—Iowa State college will send 28 track men to the Drake relays Friday and Saturday, Coach Bob Simpson announced today.

The Cyclones will depend primarily on individuals competing in the special events, tho they will run in three or four of the relay races.

Wayne Lyon, co-champion in the pole vault at the Kansas Relays, and Lawrence Minsky, third place winner in the javelin at this same meet, all seek further laurels at Drake. Lyon cleared 13 feet last week but he has done 13 feet 4 inches. Minsky was credited with the best throw of his career at Kansas, 138 feet. Capt. Robert Freeman and Fred Poole, hurdlers, and Lawrence Costigan, weight man, are other Cyclones hopes in the individual events.

The Cyclone one mile relay quartet placed fourth in the Big Six indoor meet and was unbeaten in dual competition during the indoor season. However, William Follon, member of the quartet pulled a muscle a week ago and will not be in the lineup. In his absence the personnel of the team will likely be James Henderson, Stan Christie, William Brown and William Stoufer. Brown ran a 50.2 second quarter mile Saturday while Stoufer was also under 51.

HORSE SHOW WILL VIE WITH PAGEANT AT FARMER'S FAIR

(Continued from Page 1).

Keim, gives promise of unusual interest.

Don Joy, chairman of the Snor-pheums, a program of amateur skits, is working on various types of side shows, and states that he "guarantees a day of good laughs."

The committees and lists of the women's exhibits include: Clothing, textiles and fashion show; Genevieve Bennett and Carol Wilder; foods and nutrition; Clarice Bloom and Gladys Morgan; Child Development; Virginia Keim and Gertrude Wendroff; design; Marjorie Tye; home furnishings; Mrs. Hartung; art exhibit; Pauline Walters and Claude King.

Nebraskan to Conduct Class for Reporters

All reporters on the Daily Nebraskan, journalism students and others interested in working on the student daily are requested to meet Saturday morning, at 10 o'clock, April 25 in the Daily Nebraskan offices, University hall, Instruction in news writing and work on the Nebraskan will be undertaken. Sessions will be held each Saturday morning until the end of the semester.

KENTUCKY GOES WANT 'DURANTE, PENNER' TYPE

Woman Says 'Ridiculous Lover Would Keep Girl Amused.'

LEXINGTON, Ky., April 21—Tall, dark and handsome may get the vote of most American girls, but say co-eds at the University of Kentucky, "give us the Jimmy Durante or Joe Penner type every time."

"There is nothing in the world like a good horse laugh," a spokeswoman said in explaining this result of a vote, "and a ridiculous lover would at least keep a girl amused."

"The handsome man," she said, "probably would consider himself King Tut after romance had waned, and would expect to be handled with kid gloves, to be served on bended knee and have his sox darned without knots in the heels—something only a genius can accomplish."

Girls Need Education For Interest in Life Says Barnard's Dean

MILWAUKEE, Wis. (ACP)—"Should girls be educated? If so, why, and how far?"

Thus pondered Barnard's famed Dean Virginia G. Gildersleeve in a discussion with trustees, faculty and guests of Milwaukee-Downer Seminary last week.

Answering her own questions in the talk she called "Making Life More Interesting," Miss Gildersleeve summed up her views with the remark that she believed the primary reason for giving a college education to women was to make life more interesting to them and to make them more interesting to their families.

Maiden Aunts Not Welcome.

"When there were candles to be made, and such home occupations," she said, the more women in the home the better. Maiden aunts were welcome. But maiden aunts are not so welcome now—just to sit by the fire and be supported."

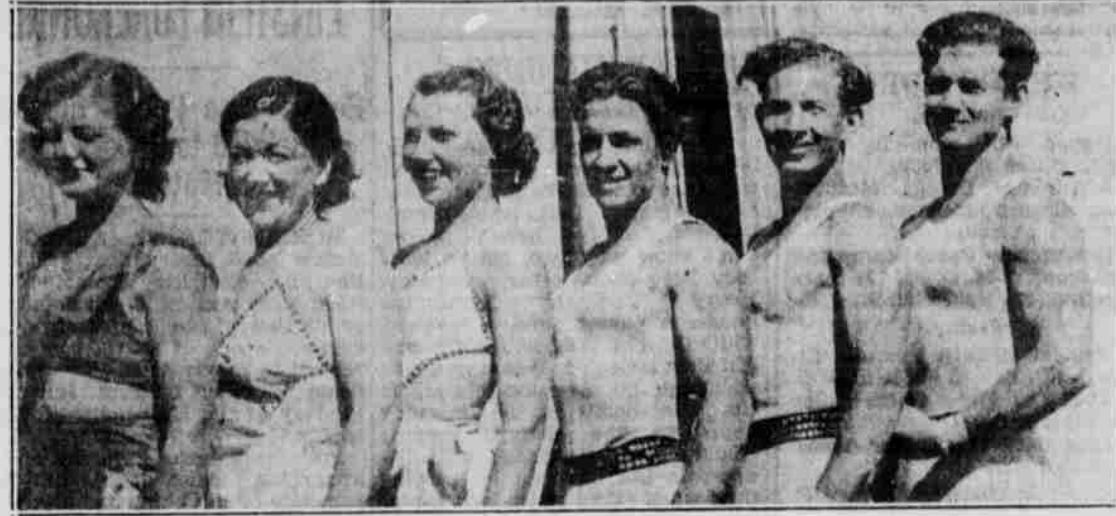

This, Miss Gildersleeve declared, indicated that women should develop their own abilities to work and play—whether in the field of Egyptology, medieval Chinese paintings, or badminton.

Opportunity in Politics.

Dean Gildersleeve explained that with the ever expanding field of government there is ample opportunity in civic life. Women, she said, have more leisure for politics than have men.

In the field of human relations a college education is valuable, the speaker said, because—she cited statistics—college educated women once married, tend to stay so. In other words, divorce among college women is much rarer than in the case of non-college women.

Youth and Beauty on the High Trapeze

Some charming members of the Polack Bros. circus are pictured above. They swing, twist and twirl on the high trapeze in the show now in Lincoln. Six in number, their act performed far above the heads of the audience have thrilled wherever presented.

SPEAKING OF SPORTS

Mike Jacobs, the greatest promoter of the present sporting world, has definitely set the date and place of the Louis-Schmelzing bout. It will be held June 18, in New York City, at the Yankee stadium. Despite bids from Philadelphia and San Diego, Jacobs signed the contract for New York and many supposed he would all along. There is a boxing law in the state of California that holds all matches to ten rounds if a decision is to be given, and twelve rounds if an exhibition match. Jacobs also was holding out for a million dollar gate which the western city was a bit slow in putting up.

Six newcomers were added to the list of those that will compete for the Walker cup under the banner of the United States. The team as announced last night includes Francis Quimet, veteran from Brockline, Mass., who was a chosen captain for his experience rather than his playing record of the past season; Johnny Goodman of Omaha, former national open champion, and recent Mason-Dixon winner. Others are George Dunlap, John Fischer, Walter Emery,

Harry Given, Reynolds Smith, George Voight, Ed White, Albert Campbell and Charley Yates of Atlanta, Ga., winner of the 1935 western amateur. This is a pretty fine lineup of players. For once the committee can say, "They have the ability if not the experience." Usually they use the old cry, "Well, they have the experience, if not the ability."

Judged solely for their past performance this year's probable "big five" in the Kentucky derby run at Churchill Downs will be Brevity, Indian Broom, The Fighter, He Did and Gold Seeker. Both Brevity and Indian Broom will pack 126 pounds which has been set as the standard weight for colts and geldings. Brevity is supposed to have what advantage the weight will give as he has been running all season under that weight while Indian Broom has been used to a lighter load and has been known to tire when packed too heavy. He Did, winner of the Santa Anita derby will be a heavy favorite with the crowd from the west. The Fighter will go to the post almost a 15 to 1 shot on the futures books, while He Did is facing a 30 to 1 booking. No filly had been taken seriously until Gold Seeker ran away with the Chesapeake stakes at Hove de Grace last Saturday, and despite this victory she

is held to 50 to 1 on the futures.

Oklahoma university has won thirteen straight baseball games in the Big Six conference. By dusting off Nebraska 6 to 3 last Monday they continued their winning streak they started when they won their last game of the 1934 season. It is due a great deal to their experienced pitching staff. If the Huskers were able to get together a crew of about three pitchers who could hold their own for about five innings Nebraska's baseball problems would be solved. The infield and outfield function well, and with Flasnack behind the plate supplying all the fire there is more than a chance that the Huskers could get someplace.

PROGRESS MADE IN ROCKET SHIP Craft to Carry Humans Enormous Heights.

WASHINGTON, D. C. (ACP). Progress in actual scientific development of a "rocket ship" which may eventually carry a human being to enormous heights has been reported at the Smithsonian Institute here.

Altho admitting the great practical difficulties in the way of even the first step, Smithsonian scientists announced that Dr. Robert H. Goddard, of Clark university, has developed a satisfactory motor for the rocket. It is a combustion chamber from which are ejected the exploding liquids which give propulsive power, and it yields the terrific horsepower of 200 per pound of its own weight, with possible speeds as high as 700 miles an hour.

FOR DIGESTION'S SAKE—SMOKE CAMELS

Smoking Camels a Pleasant Way to Encourage and Aid Digestion

Hurry, worry, and strain tend to interfere with normal processes of digestion—actually slow up the flow of the digestive fluids.

It is a scientific fact that smoking Camels helps to keep digestion on its proper course, through restoring and increasing the flow of the fluids necessary to good digestion. Dine well! Smoke a Camel!

You sense a comforting "lift," a feeling of well-being, as you enjoy the delicate fragrance of your Camel.

Camels open a new world of pleasure, where mildness and rare flavor reign supreme.

You can smoke Camels steadily. They never get on your nerves or tire your taste. Camels set you right!

A RARE PLEASURE. Leisurely diners enjoying the continental cuisine at Jacques French Restaurant, nationally famous café in Chicago. Here soft lights and impeccable service give the perfect setting for such dishes as Baked

Oysters à la Jacques and other specialties of the house. And Camels add the final touch to dining. "Camels are most popular here," Jacques himself observes. "They are clearly the favorite with those who know fine living."

THE WINNER! Kelly Petillo, first in the Indianapolis Classic, says: "Smoking Camels during and after meals goes a long way in helping to keep my digestion in good shape."

THE FLARE of the welding arc climbs to a temperature of 5700°! Dan Rafferty, master welder, says: "Smoking Camels during and after meals helps my digestion."
