Seventy-two Pianists Will Be Heard in Grand Ensemble

Climaxing the piano tournament, sponsored by the Nebraska Music Teachers association as a part of their 13th annual convention, 200 pianists, assisted by over 300 choral members, will take part in the carnival Saturday evening. Included in the groups of pianists that will be heard are the following: Fifty children, fifty junior high school pupils; thirty-six senior high school students; twenty boys and young men; thirty adult-professionals; and thirty-six accompanists. Each group will play the compositions as outlined on the program. Numbers of marked rhythm will be presented. Pianists from the following cities will be heard in ensemble: Columbus, Crete, Beatrice, Lincoln, Omaha, Wahoo, Nebraska City, Plattsmouth, Fairbury, Pawnee City, Talmage, Lorton, Alvo, Nehawka, Albion, Sargent, Shubert, Stella, Seward, Roca, Hallam, Sprague, Waverly and Alexandria. Seventy-two pianos will be played at once by the above groups.

Directs Piano Fete

LEO KUCINSKI

Directing the piano and choral groups Saturday night when the Nebraska Music Teachers hold their piano carnival will be Leo Kucinski. The carnival, which will be held in the coliseum beginning at 8 p. m., is the first state-wide affair to be presented jointly with a state-wide Music Tournament.

Coliseum to Be Scene of Unusual Musical Event

Inquiries have been received from every county in the state concerning the piano carnival Saturday evening, and approximately 5,000 people are expected to attend. The plan of seating resembles that of the ancient Roman arenas, the audience to be seated in the balcony and in bleachers looking to the center of the coliseum floor, where thirty-six pianos and the choral group will be stationed. It is believed by music teachers that such massed piano productions will help immensely in bringing the piano back as an instrument of wide popularity among students. At one point in the program 72 young pianists, two to each instrument, will be playing at once, with 144 hands moving over the keys in unison thru the measures of Mozart's Minuet from the Symphony in E flat. The selection, "Greetings to Spring," is expected to be one of the most varied numbers on the program.

At a Nominal Cost!

Any Organist Can Play the Hammond

Here Are a Few of the Outstanding Features:

1. It is a beautiful piece of furniture.
2. It is really portable, the console weighing only 275 pounds.
3. It occupies very little floor space.
4. Its upkeep cost is negligible.
5. Its speed of action is the speed of light.
6. Its dynamic range is triple that of the pipe organ.
7. It can't get out of tune.
8. It is mechanically simple—a few moving parts, no air pressure system, no vibrating parts.
9. It is not affected by changes in temperature or humidity.
10. It is no costlier than a good grand piano.

We Cordially Invite All Music Lovers to Come in and Hear a Demonstration on the Hammond Electric Organ

THE PIANO LONG WAITED FOR IS HERE Today!

MINIPIANO

IT IS SMALL... fitting gracefully into the smallest apartment. The "MINIPIANO" is only 33 inches high, 48 inches long, and 15 1/4 inches deep. It is made in 6 or 7 octaves.

IT IS ELEGANT... its wide variety of beautiful models are made of exquisitely finished mahogany or walnut.

IT IS RICH AND MELLOW IN TONE... satisfying the most critical ear with a brilliance you would expect only of a piano many times its size and cost. No wonder the "Minipiano" has captivated every one who has seen and heard it. In England it has swept the country, where more "MINIPIANOS" are sold than any other piano.

As used by PRINCESS ELIZABETH and PRINCESS MARGARET ROSE of YORK and PRINCESS INGRID of SWEDEN. Because the "MINIPIANO" has proved itself so satisfactorily abroad, and because at every point it passes every test put to it by Hardman, Peck & Company, these makers of fine pianos with a century-old reputation introduce it to piano lovers in the United States. Come in and see this marvel of modern piano construction. Its size, tonal excellence, and low cost will convince you that here really is the piano long waited for.
