## SORORITIES PAY TRIBUTE TO MOTHER.

Social spotlight focuses on fraternity and sorority row today with their varied Mother and parents day celebrations. Receptions are the thing at the Theta, Alpha Xi Delta, and Alpha Delta Theta houses, at which time mothers will be honored. Dads come in for their share, though, for many Parents day dinners are being planned both at the houses and at clubs and hotels. With a decided lack of parties on deck for Saturday evening, shows and the Park were the favorite haunts of those seeking diversions other than studying or spending a quiet hour by the fireside. What with many lawn parties in the offing, the remaining weekends before the close of school promise to offer much to those getter-arounders who will probably be kept busy until exams start.

**ALPHA** Xi Delta entertained at their annual founders day banquet Saturday evening at the Cornhusker hotel. The theme of the banquet was the "Symphony." Toasts were given by members of the active chapter, the freshman toast presented by Barbara Rosewater, the sophomore, by Regina Hunkins, the junior, by Margaret Standford, and the senior by Venita Mattise. One hundred and fifty were present at the affair.

**ALPHA** Tau Omega auxiliary met for luncheon with Mrs. J. E. Moran with twenty-eight present. New officers are Mrs. M. M. Ramey, president; Mrs. Bruce McEntire, vice-president; Mrs. J. E. Moss, treasurer, and Mrs. Myron Noble, secretary. The committee in charge of arrangements for the luncheon was composed of Mrs. Robert Dodds, Mrs. Ramey, Mrs. E. E. Lamphere, and Mrs. Harold Shelley.

## GUGGENHEIM'S GIVE MILLION DOLLARS TO INCREASE FOUNDATION

### Endowment Made to Further Realization of Purpose in Larger Measure.

Announcement of a gift of securities having present market value of more than 1 million dollars, by former United States senator and Mrs. Simon Guggenheim to enable the John Simon Guggenheim Memorial Foundation "to realize in larger measure the object of its creation," is made today. With this third donation by Senator and Mrs. Guggenheim the capital fund of the Foundation, wholly given by them, now stands at more than 6 million dollars.

**Purpose of Foundation.**  
 In making this donation Senator and Mrs. Guggenheim expressed their "deep satisfaction with the truly notable results" which have been realized by the Foundation which was established as a memorial to their son, in the 11 years since its establishment. All the Foundation's income is devoted to providing opportunities for men and women of high ability to further their work. Aid is given without distinction on account of race, color or creed, scholars, scientists and artists of either sex. The fellowships are granted for varying periods, depending upon the necessities of the work which the Fellows have in hand. They are available for work to be carried on anywhere in the world.

**11 Years Service.**  
 In the first 11 years the Foundation has made 688 grants, carrying appropriations of more than 1.4 millions. The committees of selection have considered 9,584 applications.

According to Senator Guggenheim, a Fellow is given complete freedom to do his work. There are no strings tied to the money granted him. What he does depends upon himself alone. It has been found that the Fellows appointed from the United States have ranged in age from 22 to 65. The average age was 35.

Altho fellowships have been granted to men and women regardless of birthplace, it has been found that Harvard university stands out as the chief training ground for Fellows, altho not as the principal source from which fellows are drawn at the time of their appointment.

Dr. Thomas M. Rayson, head of the English department at Nebraska at one time received a grant from the Guggenheim Fellowship, and wrote for his Fellowship book "Coleridge's Shakespearean Criticism."

## Chalk Up a Hit for THESE THREE!

When the final score is taken at the end of the current movie year... "These Three" will without doubt be among the ten best films of 1936. The stars are Miriam Hopkins, Merle Oberon and Joel McCrea... and of course, by now everyone knows the picture is an adaptation of the much talked of, muchly banned stage play, "The Children's Hour."

## MISS FEDDE ADVISES COEDS TO TAKE HOME EC TRAINING

Every woman in the university should aim to elect some courses in home economics during her college career, in the opinion of Prof. Margaret Fedde, chairman of the department of home economics. Miss Fedde says that statistics show that 85 percent of all college women marry and become homemakers. She believes, therefore, that women should prepare themselves for homemaking as a profession just as well as doctors, lawyers, engineers, teachers and others prepare themselves for their respective lines.

However, the fact that young women are majoring in some other fields, need not prevent them from choosing some home economics courses as electives. Various courses are being presented on the city campus and on the agricultural college campus.

**Classes on City Campus.**  
 The department has developed a number of survey courses in home economics which are designed for the purpose of developing an appreciation and a point of view toward fundamental problems in various phases of homemaking. Because many students find it inconvenient and expensive to attend classes on the agricultural college campus, the home economics department has scheduled a number of these courses on the city campus. Each of these courses carry two hours credit and has no laboratory work. The list includes:

- H. E. 81, Housing and home furnishings.
- H. E. 82, Nutrition and management problems.
- H. E. 85, Costume selection.
- H. E. 190, Child care and training.
- Lab Work included.
- The above courses have been planned particularly for non-home economics majors. In addition to these a number of the courses in the regular home economics curriculum are without prerequisites or have prerequisites which can be set by students in other colleges. Most of these courses include some laboratory work. Among the three credit courses without prerequisites are:
- H. E. 3, Clothing appreciation and technique.
- H. E. 21, Design Essentials.
- H. E. 41, Food study.
- Among the courses having prerequisites which can frequently be fulfilled by non-home economics majors are:
- H. E. 106, Textiles.
- H. E. 207, History of costume.
- H. E. 291, Child development.
- H. E. 67, Household equipment.

Recent publications from the psychology department include an article "Exploratory Experiments in Color Discrimination," written by Dr. W. E. Walton, which appears in the Journal of Genetic Psychology; another by Dr. Charles L. Wible and Dr. Arthur Jenness appearing in the Journal of Psychology under the title "Electrocardiograms During Sleep and Hypnosis." ## VESPERS SERVICE TO HONOR Y. W. SENIORS

Rev. R. E. Drew Speaks at Recognition Program Tuesday.

Senior members of the Y. W. C. A. will be special guests at the senior recognition services, to be sponsored as a part of the regular vesper program to be held on Tuesday afternoon, May 12, at 5 o'clock in Ellen Smith hall. The service will close the regular Y. W. vespers for this school year, and all senior girls are especially urged to be present at the meeting on Tuesday, according to Jane Keefe, President of the Y. W.

Devotions, in charge of Lorraine Hitchcock, former president of the Y. W., will be in keeping with the general subject of the services. Special music will be furnished by the vesper choir, under the direction of Margaret Phillippe, Y. W. cabinet member, and Jane Hopkins, vesper choir pianist, will play the prelude for the meeting.

"We are especially anxious that senior Y. W. members plan on attending the meeting on Tuesday, since it will be the closing vesper service for this year, and for many it will be the last opportunity to attend the university Y. W. meetings. Senior recognition services, sponsored annually, usually prove to be one of the most important vespers of the year." Frances Scudder, chairman of the vesper staff and Y. W. cabinet member, stated.

There's more this week end than the aftermath of Ivy Day, for Medical students from here and there are celebrating. This time the excuses are Isham Jones in Omaha and Pre-Med week, and nothing daunted, students begin the great trek, Omahaward. For those famous house parties, it's well to wear short dresses and dark that can stand the wear and tear of a verri crowded dance floor, and even low heels just because they're so much easier to get around in. One finds, after being in collieth some years that suits bear up under considerable travel, whether it be the 58 miles toward the big city, or the hundred and fifty eight to Kearney and points west. With age, too, comes the realization week ends are necessary institutions when finals loom in the offing—so, let this be the last this year, unless, of course, you're dying to go to the D.U. cowboy affair that's coming some two Saturdays hence.

It's sad to feel like a wilted leaf when those hot summer winds come tearing over the prairie. And it's even sadder because it's so unnecessary. Nelly Don's soapsud fashions can clothe you appropriately and well from dawn to dusk, and they tub beautifully. The smart coed will fill her summer wardrobe with Nelly Don's from Ben Simons, cool Nelda crepes, smart linens and crashes, and Linnella sheers, \$1.95 to \$10.95.

Rumor has it that Sigma Nu, in traditional fashion pledged Bill Newcomer the night before Ivy Day—and Innocent's tapping.

And variety is the spice of life—so they say. When Liz Hedge and Barney Drummond broke diplomatic relationships, he asked Dotty Clark, Kappa, for a date. Miss Clark, about to hold a consultation with her sorority sister, found that Elizabeth had invited Doug Sarsen to the Kappa house party, and now they're all friends—the hackneyed Platonic type, of course, but still friends.

"You may think I'm queer. Well, perhaps I am," confided Jack Pace after he'd planted himself in a hotel chair on the top of a little boy. An amazed silence on the part of the boy's parents, and Jack in a belligerent tone said, "Go ahead. Call me queer. I don't care," and meandered away to pursue other less eccentric devices.
