Dartmouth Greeks May Say 'Adieu' to National Standing

HANOVER, N. H. (ACP). Recommendation of the social survey committee that Dartmouth college fraternities dissolve their national affiliations has met with diverse reaction on the campus here.

Traditional loyalty at Dartmouth has always been to the college first and fraternities second, student leaders point out, declaring that if the fraternities become local clubs, without national standing, their status in relation to the campus would remain almost unchanged.

A minority report stated that alumni support would be withdrawn if national ties were severed.

DR. MORRIS BLISH TO GET MEDAL OF CEREAL CHEMISTS

Ag Professor's Research Wins Association's Annual Award.

The American Association of Cereal Chemists has awarded the Thomas Burr Osborne medal to Dr. Morris Joslin Blish, of the university, and the medal will be presented to him on the occasion of the annual meeting of the association at Dallas, Tex., on June 2, 1936. This is the third award of the medal, the first recipient being Dr. T. B. Osborne, after whom the medal was named, while the second recipient was Dr. C. H. Bailey of the University of Minnesota.

Dr. Blish is professor of agricultural chemistry and head of the chemistry department in the Nebraska agricultural experiment station, which position he has held since 1922. He has continued researches in cereal chemistry previously begun by him at the University of Minnesota, and at the Montana experiment station.

These researches have been of both a theoretical and a practical nature, including the composition and properties of cereal proteins, enzymes of flour, flour sugars, and the development and application of the standard baking test. In addition he and his assistants have been concerned with the nutrition of poultry.

Previous to becoming a member of the staff at the university, Dr. Blish was a student here graduating in 1912. He spent a year in graduate study at Nebraska, researching on soils under Dr. A. Wayne, and received the master of arts degree in 1913. He then entered the graduate school of the University of Minnesota, and conducted researches on the constitution of wheat flour proteins. The degree of Doctor of Philosophy was conferred on him by the University of Minnesota in 1915. He was attached to the U. S. Bureau of Chemistry for a few months then resigned, and accepted a position at the Montana Agricultural Experiment Station in 1916. These activities were interrupted by a period of military service, following which he returned to Montana and remained there until he accepted his present position here.

During this period he has been an author or co-author of many published papers, largely in the general field of cereal chemistry. In addition to these research activities he has served the American Association of Cereal Chemists as chairman and member of various committees, and a president for the two years 1923-1925. He has been a member of the Graduate Council of the university and has served as chairman of the Nebraska section of the American Chemical society during certain periods.

Indiana's Memorial Union Has Everything Except Classrooms

An entire campus, complete with everything but classrooms, is the Indiana Memorial Union building, dedicated in May, 1932. Containing a check-room, a post-office, billiard room, barber shop, book-store, several lounges, and a men's dormitory for visiting athletes, the building would seem to eliminate all walking about for students, except the trek from class to class.

The building devotes itself largely to eating places, the catalogue issued by the University of Indiana would seem to indicate. A cafeteria, a soda shop, and a colonial tea room feed the majority of students, while a men's grill takes care of those university men who like to eat in privacy. The grill is decorated in a nautical manner, with sloping walls, ship's lanterns, massive beams, and relics from schooners.

The building is dedicated to John M. Whittenberger, founder and first president of the Indiana Union, who died in the second year of his presidency.

An alumni hall, an activities office, a board room, lobby and dining rooms are included in the building. Of all of the rooms, however, the catalogue lists the University bookstore as the "showplace of the University."

HUSKERS TO WIND UP TRACK SEASON AGAINST GOPHERS

Big Six Champs Tackle Minnesotans in Dual June 6.

With the Big Six title safely stored away in Nebraska's archives of athletic history, Coach Henry F. Schulte began plotting for the down fall of Minnesota. The Huskers wind up their 1936 track and field season in a dual meet with the Gophers at Minneapolis June 6.

Also Minnesota's Gopher track team gathered only eleven points out of the Big Ten championships last Saturday, they will be worthy foes to Nebraska's undefeated Big Six champion team.

In the Big Ten meet, Dominic Krezowski won the shot put for Minnesota with a heave of 48 feet 7-8 inches and William Freimuth placed fifth with a throw of 45 feet 9 1-2 inches. Freimuth also placed second in the discus throw at 142 feet 6 inches. Robert Hubbard, Gopher broad jumper, placed fifth with a leap of 23 feet 3-4 inches.

Minnesota's trackmen failed to win any points in the western conference meet which was won by Indiana (mostly thru the efforts of the colored track luminary, Jesse Owens). However, Gophers were pitted against the country's best in the Big Ten meet, and their track prowess is expected to equal Nebraska's when the two teams meet.

The dual meet will write final in the collegiate careers of Harold Jacobsen, Sherman Cosgrove, Stanley Haight, and Chester Beaver. "Jake" is Coach Schulte's ace sprinter who captured two firsts in the sprints last week, and his loss to the Huskers is unestimable. "Shern" has been the top-notching vaulter of the Huskers. Haight is the hurdler who has capably filled the spiked shoes of the great Heye Lambertus in the hurdles. Chet has been a constant and dependable point-winner in the distance runs all season.

Nebraska's track and field team will go to Minneapolis as one of the few undefeated teams in the country. Coach Schulte's pupils captured the Big Six indoor crown at Columbia after winning all their indoor engagements. The Schultenens enjoyed considerable success in the Texas, Kansas and Drake relays, and won all their outdoor engagements.

The quartet, made up of university students enrolled in the department of music, includes Emanuel Wishnow, first violin; Dorothy Holcomb, second violin; J. Lee Hemingway, viola, and Betty Zabriskie, cello.

Opening with an organ prelude, "Chorale in G," played by Paul W. LeBar, the first part of the choir's program will include the selections, "Pater Noster," "How Blest Are They," and "Sing to the Lord. These will be followed by the numbers, "Molto Allegro Vivace" and "Andante Cantabile," played by the quartet.
