LINCOLN, NEB.

INDIVIDUAL GIFTS TO FOUNDATION REACH MORE THAN \$4,000

Roberts Dairy of Omaha Gives \$3,000 to Fund.

Two additional gifts, totaling more than \$3,000, have been received by the University of Nebraska Foundation according to a recent announcement. One contribution of \$3,000 comes from the Roberts Dairy company of Omaha and one of \$73.65 comes from the University of Nebraska alumni association of southern California.

The Roberts Dairy contribution is to establish a fellowship in the college of medicine at Omaha for the purpose of investigating some of the problems in bacteriology and public health which have their origin in the milk supply of the a community. The contribution will be paid over a period of three years, \$1,000 each year, which shall be used by the university to defray the material expenses of the investigation as well as meet the salary of the individual selected as the recipient of this fellowship.

The \$73.65 from the alumni in southern California is the proceeds of a benefit tea held at the home of Mrs. G. W. Wattles in Los Angeles. It was raised for the purpose of establishing a scholarship fund.

First Contribution.

The initial cash contribution of \$1,000 was made by J. C. Seacrest. Announcement of this gift was made by Chancellor E. A. Burnett at the first meeting of the board of trustees of the newly organized foundation held recently.

E. P. Brown of Davey, who served as temporary chairman at the meeting, was elected president of the board. Other officers elected were: Mrs. Harlean C. Fetters, recording secretary; J. C. Seacrest, first vice president; Mrs. Charles Roberts, second vice president; Dr. Olga Stastny, third vice president; Fred A. Marsh, fourth vice president; L. E. Gunderson, treasurer.

Elected to serve on the executive committee were H. D. Landis and John Agee, two year term; Howard S. Wilson and Gould Deitz, four year term, and George W. Holmes and Victor Smith, six year term.

"The purpose of the University of Nebraska Foundation is to build a more distinctive university. Lines of scholarship and research are to be promoted thru private funds received from gifts," explained the chancellor.

"There are many projects which need additional money that cannot (Continued on Page 4).

Classes Convene on Saturday This Week

Classes will meet regularly this week on Thursday, Friday, and Saturday, according to an announcement made by Prof. R. D. Moritz, director of the summer session. Classes will be held on Saturday only for the first week, and following that they will meet regularly five days a week.

UNIVERSITY CONFERS 714 DEGREES MONDAY

Dr. William Munro Speaks To 65th Commencement Assemblage.

A crowd estimated by officials at 6,000 watched Chancellor E. A. Burnett confer degrees upon a class of 714 at the 65th annual commencement exercises of the university, Monday morning at the coliseum. Dr. William B. Munro delivered the commencement address, "The New Era and the Old Virtues."

The exercises began at 10 o'clock with the commencement procession, led by the university R. O. T. C. band. University marshals led the academic procession between lines of spectators into the coliseum. Following the marshals, the procession in order: Candidates for the baccalaureate degree, candidates for the master's degree, candidates for the doctor's degree, faculties, deans of colleges, regents, Governor Cochran and honored guests, president of the board and the commencement chaplain, chancellor and commencement orator.

Blewfield Gives Invocation.

First on the morning program were three numbers by the University Little Symphony orchestra under the direction of Raymond R. Reed and the processionary played by Wilbur Chenoweth. Rev. Floyd Leslie Blewfield, pastor of the Trinity Methodist church, gave the invocation. Chancellor Burnett then introduced Dr. Munro.

The famous political scientist told the graduating class "the challenge of youth is that they shall go out ready and willing to do the day's work. They must not (Continued on Page 3).

CHEMISTRY BUILDING RENAMED FOR AVERY

Avery laboratory of chemistry will be the new name for the chemistry hall on the University of Nebraska campus. The building was named in honor of the late Chancellor Samuel Avery. The change in name was approved by the board of regents, Monday, June 8.

NATIONAL FIGURES TO INSTRUCT IN SUMMER SESSION ON CAMPUS

Educators Offer Courses in Specialized Fields, Give Lectures.

In addition to the regular teaching staff of the University a number of men and women of national prominence will instruct in the various departments during the summer session. They will offer courses in specialized fields and give special lectures, supplementing the regular work.

Instructing in the geography department will be Fred A. Carlson, Ph. D. and professor of geography at Ohio State university. He is the junior author of "The Geographic Basis of Society," a text widely used in basic courses in geography in this country. He is also the author of "The Geography of Latin America." He is a member of the Association of American Geographers.

Carter to Teach.

Thomas Milton Carter, Ph. D., and head of the department of education at Albion College, has been secured to offer courses in the psychology of the elementary school subjects and the psychology of the high school subjects. Dr. Carter is well known as a lecturer on Educational Psychology in the summer schools of several neighboring institutions, and as a contributor to the "Journal of Educational Psychology," "School and Society," the "International Journal of Ethics," and other periodicals in education.

Another visiting instructor will be Alfred Crago, Ph. D., who is professor of educational psychology and tests and measurements at the University of Florida. George R. Howerton, formerly of Chicago, now on the music faculty of Hiram College, at Hiram, Ohio, is included on the summer faculty. He is an authority on conducting and is well prepared to present a methods and musical materials course for choral work in the public schools. Music supervisors will be interested in Mr. Howerton's practical presentation of choral problems.

Miss Kelty on Faculty.

Mary Kelty, A. M., a nationally known authority in the field of social studies and author of numerous articles and many books for children and teachers, will be listed among summer faculty members. She will offer courses in supervision and methods in the field of social sciences.

H. H. Linn, Ph. D. of Columbia university, who is business manager and assistant superintendent of schools at Muskegon, Mich., will again offer courses in the field of school buildings and the business administration of schools. Since Dr. Linn served for a number of years as superintendent in the smaller schools of Nebraska he (Continued on Page 4).

Registration Starts At 1 O'clock Today For Summer Session

Summer Director Extends Greetings

Greetings to summer session students.

I extend to you a most cordial welcome from the University of Nebraska. All the facilities for study and research which the university can command are placed at your disposal.

For the university I wish to assure you that every effort will be made to make your stay here both pleasant and profitable. For the summer session faculty I wish to say that it is our earnest wish that you will find the summer valuable, and that your experiences here may bring you happiness during both the present and the future.

R. D. MORITZ,

Director of the Summer Session.

H. P. CRAWFORD SPEAKS ON TYPICAL ALUMNUS

Interprofessional Institute Hears University Professor.

"The typical alumnus of the University of Nebraska today in a young man or woman barely turned 30 years of age," Prof. H. P. Crawford of the university told the members of the Interprofessional Institute at the Lincoln hotel Saturday noon. "We speak of old grads, but in the case of our university the old grads are really a negligible number among the total. Astonishing as it appears, two-third, of the 22,000 graduates of the university received their diplomas after the conclusion of the World war. Only around 15 percent received diplomas before 1910, and less than 7 percent of the total before 1900.

"Such a situation is of far reaching consequence to the institution. (Continued on Page 4).

ONE LESS CREDIT UNIT NEEDED FOR ENTRANCE

Regents Modify Number of Requirements for Freshmen.

Entrance requirements for freshmen at the University of Nebraska were modified somewhat by the regents at their regular meeting Monday afternoon. One less unit of credit will be required of those entering as graduates of a senior high school.

As approved by the regents 11 entrance units will be satisfactory for full admission to the university in place of the 12 previously required to have been earned in the tenth, eleventh and twelfth grades.

Conditional admission may be had upon presentation of ten units where formerly 11 were needed. Eight academic units will now be required where formerly nine were required. The change according to university authorities, is in keeping with the policies of other schools.

The regents approved the change in name of the chemistry building to "Avery Laboratory of Chemistry." They also approved the establishment of two \$500 permanent fellowships to be known as the "Samuel Avery Fellowships in Chemistry."

Dr. Cecil W. Scott, now principal of the Westwood, N. J., senior high school was named associate professor of school administration. Dr. Scott holds two degrees from the University of South Carolina and one from Columbia. He will be professor of school administration at St. Lawrence university during the 1936 summer session.

2,500 Expected to Enroll For Nine, Six Weeks Courses.

1. All new undergraduate students, whether freshmen or with advanced standing, must have or secure in the southwest corner of the coliseum a certificate of admission and a list of credits; they must then see faculty advisers in the college in which they are registered. Former students should see advisers immediately.

2. All students should secure summer director's signature, fill out registration cards, and pay fees at the north end of the coliseum.

3. Graduate students should register with some graduate adviser, secure graduate dean's signature in chemistry building, room 204; then complete registration in north end of coliseum. All graduate students should select courses at once and attend the first meeting of the class whether they are registered or not.

4. All agricultural and home economics graduate students must get the signature of Prof. Swenk as well as their adviser before they come to the graduate dean's office. Prof. Swenk will be in his office, room 206A of Plant Industry hall.

With approximately 2,500 students expected to enroll in the six and nine weeks sessions of the university this summer, registration will get under way in the coliseum at 1 o'clock Tuesday and will continue until 5 and from 8 to 12 and 2 to 5 o'clock on Wednesday.

The two summer sessions will run concurrently, with classes beginning Thursday morning, the short session closing July 17 and the long session, Aug. 7. Work in the graduate college is also offered during the summer, with opportunities offered both in the professional colleges and the liberal arts college.

Visiting Teachers.

With 17 visiting instructors on the faculty this summer, in addition to the regular staff, the summer program has been designed to meet the needs of all classes of students, and the curriculum ranges from undergraduate courses to graduate courses leading to the Master's and Doctor's degrees.

All those registering in the summer session should follow instructions listed above. An information desk will be set up in the coliseum for those in doubt as to how to proceed.

All new graduate students and all new students not working for graduate degrees should go immediately (Continued on Page 4).

WASHINGTON FACULTY HONORS R. E. MORITZ

Brother of Nebraska Professor to Attend Mathematics Meeting

Prof. Robert E. Moritz, formerly of the University of Nebraska faculty and a brother of Prof. R. D. Moritz, director of the Nebraska summer session, was feted at a recent dinner given in his honor by alumni and faculty members of the University of Washington. Prof. Robert Moritz joined the Washington university staff in 1904 as the only instructor in the mathematics department. Now the department, of which he is chairman, lists 13 professors.

In honor of his outstanding services and contributions, he was presented with a watch, the gift of his department members and Zeta Mu Tau and Phi Mu Epsilon, honorary fraternities. The former Nebraskan plans to attend the international mathematical congress at Oslo, Norway, and en route to the east coast, will visit Prof. R. D. Moritz here for a few days. The Washington professor was on the faculty here from 1901 to 1903.

UNIVERSITY HONORS SAWYER AT NEBRASKA'S GRADUATION

The University of Nebraska honored one of its distinguished graduates, Willits H. Sawyer, with an honorary doctor of engineering degree at the sixty-fifth annual commencement exercises at the coliseum Monday. Sawyer, who graduated from Nebraska in 1894, is now an executive engineer of New York City.

Following his graduation from here Sawyer became associated with General Electric as an engineer in their railway engineering department, and had charge of the company's work in the electrification of the New York City elevated railways and of the initial subway installations. In 1907 he entered the consulting engineering field, later becoming engineer in charge of the New York office of Ford, Bacon & Davis. In 1914 he became vice president of the E. W. Clark Management corporation, with headquarters at Columbus, O. Since then his work has included executive and operating responsibilities as president of many important public utility companies, altho he never completely severed himself from the broader consulting engineering field.

In 1930, after years of operating

—From Lincoln Journal.

and engineering experience, he opened his office in New York City as an executive engineer. His operating responsibilities included the presidency of the properties (Continued on Page 2).

EDUCATIONAL SERVICE ANNOUNCES POSITIONS

92 Former Students Get Teaching Placements For Next Fall.

The following teaching placements have been reported to the department of educational service of the University of Nebraska:

- Louise Thygeson, Hartington.
- Helen McElvain, Surprise.
- Phyllis Riddle, Crawford.
- Willard Waldo, Crawford.
- Ernest Green, Cozad.
- Trene Leech, Blairsburg.
- Ruth Rutledge, Holdrege.
- Frances Sallman, Fort Calhoun.
- Ruth Swanson, Ewing.
- Mabel Eisele, Hartington.
- Marie George, St. Edward.
- Marie Fuchschild, Rising City.
- Gretchen Budd, Wiota, Ia.
- Lowell Sutherland, Deweese.
- Merlin Walters, Garland.
- Ludwig Gartner, Ewing.
- Eva Krogh Davis, Alma.
- Leo Taylor, Bruno.
- Ervin Watson, Lewiston.
- Ernest Collins, Belvidere.
- Eldon Haas, Lester, Ia.
- Theodore Hartman, Ashland.

(Continued on Page 3).
