

COACH BIBLE TO TAKE ACTION PICTURES

Films of Football Players in Action Aid in Training

Coach D. X. Bible will spend this week end taking motion pictures of football players in action, stressing fundamentals and individual play. "These pictures will be kept in the library of the Victor company, and will be available for the use of all coaches who are interested in showing them to their squads," stated Mr Bible. "They should be useful as the programs have been arranged for the practical aid of coaching staffs and players."

MUSEUM PARTY TO INSPECT NEW SITES ON SUMMER TRIPS

(Continued from Page 1).

son Stout, David Abbott, Gordon Graham, Jack Graham and Dean Kerl. Mrs. Schultz will accompany them. With Meade in the Marsland area will be David Tourelot and Walter Stolle.

Barbour's Paper.

In a paper just published by Dr. Barbour and Schultz on early man in Nebraska, they point out the state's earliest inhabitants appear to be the makers of Yuma and Folsom artifacts. Many of their implements have been discovered during recent years, and they say, "from the evidence now at hand it seems certain that Folsom and Yuma artifacts are representative of a cultural complex definitely antedating all other known cultures here."

The article continues: "These people were not discriminating in their choice of materials for chipping. The artisans were able to chip with equal skill quartzite, flint, agate and jasper. There are many cases in which Yuma and Folsom artifacts are found together in the same blowouts, but this does not necessarily imply that they were made by the same group of people. However the probability is strong that if any time did elapse between the deposition of Yuma and Folsom implements it was a comparatively short period. Geologically speaking, the artifacts appear to be of the same age. The sand hills may have been the hunting ground of both. It is noted, however, that Folsom points are somewhat rare in Nebraska, which might imply the makers of Folsom artifacts were more or less restricted to the foothills of the mountains and the Yuma people to the plains."

Dr. Barbour and Schultz feel that these newer sites warrant extensive field work this summer, and that if certain lake deposits in this area can be dated, the region will be of equal importance to geologists, paleontologists and anthropologists.

FACULTY MEMBERS TO SPEND SUMMERS IN RESEARCH, TOURS

(Continued from Page 3.)

who will spend much of the summer there in research. He will vacation the latter part of August in Connecticut with his family. Prof. Evelyn Metzger, assistant professor of design, will teach in the University of Minnesota during the summer, later visiting her parents in Iowa. Prof. Grace Morton, of the home economics staff, will drive through Oregon and California following the summer session.

Mr. and Mrs. E. B. Schmidt will leave for Berkeley, Calif., June 20. Mr. Schmidt, who is a member of the business staff, will do work in the California summer session. Summer months will find Dr. Harry Kurz, chairman of the department of romance languages, in New York city doing research

at the Municipal and Columbia university libraries.

Brackett Attends Meeting.

The university will be represented by Prof. E. E. Brackett of the agricultural college at the 30th annual meeting of the American Society of Agricultural Engineers at Estes Park, Colo., June 22-25. Prof. Brackett has been elected a member of the nominating committee for next year. His family will accompany him.

Prof. P. A. Downs and family will motor this month to Pennsylvania where he will attend the meetings of the American Dairy Science association and make a committee report. Following the convention they will drive through New England, visiting friends and the Downs' home in Connecticut. Professors H. P. Davis, R. F. Morgan, E. L. Reichart, and I. L. Hathaway, of the dairy husbandry department will make an eastern trip by motor to attend the meetings of the association, which will be held at Pennsylvania State college. Prof. Reinhart will go later to New York city to study the marketing of creamery butter; Prof. Hathaway will visit a number of research institutions in the east, and Professors Davis and Morgan will visit a number of dairy cattle breeding establishments and experiment stations.

Miss Wagner Visits East.

Miss Alma Wagner, of the music faculty, will drive to New York by way of Niagara Falls and the New England states. Enroute home, she will spend a few days in Washington. Following the summer session here, Herman T. Decker plans to vacation at Mirror lake. He will be accompanied by Mrs. Decker and Mr. and Mrs. Duval, who have just returned from fifteen months of theatrical work in European capitals. Dr. and Mrs. F. A. Pierson and family will leave about July 1 to attend the meetings of the American Dental association in San Francisco, July 13-18. Dr. Pierson is the Nebraska representative to A. D. A. house of delegates.

E. F. Powell, zoologist, will complete research and thesis work for his Ph. D. degree, which he hopes to receive in August. He will also study the piscatorial life and insect fauna of Nebraska. Prof. J. P. Colbert of the engineering department will attend the meetings of the society for the promotion of engineering education at the University of Wisconsin, June 23-26. Following the summer session, Gertrude Beers and Luvicy Hill of teachers college, will spend the rest of the summer at Camp Olympus near Estes Park. Dr. and Mrs. H. W. Stoke will spend a few weeks at Painesville, O. Later Dr. Stoke, a member of the political science faculty, will go to New York to take part in discussions at the new school for social research. He will also engage in some independent research. After the summer session, Dr. J. O. Hertzler, chairman of the department of sociology, will tour the northwest, the Pacific coast, and the southwest with his family.

Instructor to Do Painting.

Miss Kady B. Faulkner, of the fine arts faculty, is going to Syracuse, N. Y., to attend the summer session of the university there. She then plans to drive down to North Carolina to do some water color painting.

Dr. E. L. Hinman, chairman of the philosophy department, will drive through New York, New England, Quebec, New Jersey, Washington, D. C., Virginia and Tennessee. Prof. Clara Rausch of the women's physical education department, left last Saturday for the University of Texas, where she will teach physical education for the summer term.

Major John P. Horan, of the military department, will be at Fort Crook until July 18 and later in the fall will motor to Colgate university, where he will leave his

son who enters as a freshman there this fall. Major Horan graduated from Colgate in 1914.

Lung to Do Research.

Dr. A. L. Lung, of the geology staff, will carry on field research and do mapping for the geologic survey Under Dr. G. E. Condra, state geologist. He will also work on a book dealing with the geology and ground water resources of south central Nebraska. Late in the fall, he and his family will visit North and South Carolina, Virginia, Maryland, and other eastern points.

A foreign trip has been arranged by Lloyd D. Teale, assistant instructor in romance languages. He will sail with his wife from New York June 13 for Spain and will study in Madrid.

T. T. Akhus plans to attend the short summer school session on drawing, a descriptive geometry sponsored by the society for the promotion of engineering education at the University of Wisconsin. He will also attend the national convention of the group there. After teaching part of the summer here, Emmanuel Wishnow, violinist, will study with Jacques Gordon and still later will appear in recitals in Connecticut.

Kirsch Attends Art Meet.

Dwight Kirsch of the fine arts faculty will attend the national convention of Delta Phi Delta in Kansas City, June 14 to 17, afterwards visiting Chicago and points east, and remaining in the New England states several weeks painting and photographing.

George E. Hudson will teach zoology during the summer session and then with his family vacation in South Carolina the rest of the summer. After the summer session, Prof. Nellie Eastburn, of the women's physical education staff, will join her sister who teaches at the University of Oregon, for a vacation of several weeks.

Dean R. A. Lyman, of the pharmacy college, will spend the lat-

ter part of the summer in the north woods of Wisconsin. He will also attend the annual meetings of the American Association of Colleges of Pharmacy and the American Pharmaceutical association at Dallas, Tex. Miss Norma Gillette, of teachers college, will spend the summer at Iowa City collaborating on some elementary school texts.

Dean Foster to Fish.

Dean H. H. Foster of the law college will prepare annotations of Nebraska for the American Law Institute restatement of trusts. The rest of the summer he will give over to fishing.

Dr. and Mrs. George Grubb plan an extended automobile trip through the west and along the Pacific coast. Dr. Grubb, dean of the dental college, will attend meetings of the American Dental association at San Francisco, July 13-17. Others of the faculty attending include Dr. R. E. Sturdevant, Dr. John Brauer, Dr. B. L. Hooper and Dr. A. H. Schmidt, who will attend departmental meeting of the A. D. A.

Dean F. W. Upson, of the graduate college, will remain for the summer school and will spend August in northern Minnesota. Dean O. J. Ferguson, of the college of

engineering, will attend the annual meeting of the society for the promotion of engineering education at the University of Wisconsin and then with his family will spend the rest of the summer vacationing in northern Minnesota.

Martin S. Peterson, of the English department, will teach literature courses at the University of Montana summer session. During the summer he will also be occupied in reading proof on his book, "Jacaquin Miller; Literary Frontiersman," which will be published in the fall by the Stanford University Press.
