### TEN-DAY HEALTH EXAM SCHEDULE PROVES SUCCESS

1,650 New Students Take Test; Time Extended For Freshmen.

As almost 1,650 new students had taken the entrance health examination by Thursday, Sept. 10, the director of the health service stated, "The first week of the ten-day period about 700 took the examination, while on the last three days from September 7 to 10 over 850 received the health tests."

Formerly over 500 students would hurriedly pass through the examination in a single day, Dr. Lyman said. The average number to this year was around 150 students. The records showed that up to Thursday three times as many boys as girls had taken the examination.

Many others are expected to take the necessary psychological tests, medical examinations, etc., on Tuesday and Wednesday.

Last year about 2,100 students entered the university for the first time, about 1,600 of them with freshman standing.
