

# NEBRASKA CAMPUS SOCIAL WHIRL

## SEEN ON THE CAMPUS.

Walter Pfum lying full length on the ground engaged in a surveying project . . . holding aloft one of those red and white sticks. . . Virginia Wheeler, D. G. pledge, swapping soulful looks with Sid Baker, D. U. innocent. . . Val Vergis is back in town, for school or something. . . Four red heads trying out for cheer leader. . . Barbara Rehtmeyer's new brown camel hair coat definitely good for campus. . . Truman Oberdorf taking large bites out of an enormous candy bar. . . The lights go out in the rag office. . . Mickey Krasne deciding that the library would be a fine place to study. . . if she could manage to get there. . . and having mentioned the library, Elizabeth Neely frowned over an impressive looking volume for quite some time yesterday morning. . . Pledge Martha Beghtol of Kappa Alpha Theta striking out boldly into the noon traffic on 14th and S. . . Gordon Uthri muttering about chartering a train for Minnesota. . . Three more pairs of those Shetland pony shoes walking across campus. . . Jack Gellatly and Dow Wilson discussing the weather in no uncertain language. . . and why didn't they start that tunnel system in front of the drug in June?

## TRI-DELTA PLEDGES ELECT OFFICERS.

Priscilla Wicks was elected president of the Delta Delta Delta pledge class at meeting Monday night. Francis Scudder was elected secretary of the class. First issue of a pledge class edited paper was distributed to the active chapter. The paper contains chapter news and will be published weekly.

essional advertising fraternity for women, at the biennial convention at the University of Oregon at Eugene.

## OFFICER VISITS DELTA ZETA'S.

Miss Helen Louise Riter, national field secretary of Delta Zeta, was the guest of the local chapter last week. Miss Riter is making a ten months tour of the United States and Canada inspecting chapters of Delta Zeta.

## KAPPA SIGMA ALLIANCE MEETS.

Friday night the members of the Kappa Sigma Alliance will meet at the chapter house for a bridge party. About thirty-five persons are expected to attend. Hosts and hostesses will be Mr. and Mrs. Oakley Cox, Mr. and Mrs. E. N. Westover, Dr. and Mrs. E. N. Deppen and Mrs. Vera Benis.

## KAPPA SIGS BOB UP.

From seven pledges named Robert in the Kappa Sigma pledge class, three of them were chosen as officers of the class. Bob Hall was elected president, Bob Connor was chosen secretary and Bob Thomas will hold down the all important position of treasurer. The dark horse is Sid Headly, who was elected vice president.

## PHI DELT'S ANNOUNCE PLEDGE.

Oak Smith of Lincoln is a new pledge of Phi Delta Theta. Officers of the pledge class are: Gordon Rector, president; Dick Hiatt, vice president; Malcolm McFarland is freshman advisor. The mothers club will entertain at a buffet supper honoring both the pledge class and the active chapter, Sunday, Oct. 4.

## ELEANOR RICKLE PASSES CANDY.

Monday night the Pi Phi's ate candy and the Sigma Nu's smoked cigars when Eleanor Rickle of Fort Morgan, Colorado and Bob Hilsbeck informally announced their engagement.

## THETA CHI PLEDGES ELECT.

Elmer Gaughan is the president of the Theta Chi pledge class, as a result of the election held recently. Other officers chosen were Allen Wolcott, vice president; Larry Fenton, secretary treasurer; Gerald Erickson, social chairman and Joy Vallery, sergeant at arms.

## MOTHERS CLUB MEETS THURSDAY.

At the home of Mrs. H. R. Williams, the Sigma Alpha Epsilon Mothers club will meet Thursday at 2:30. About twenty-five members of the organization are expected to attend. After a business meeting tea will be served.

## D. U. PLEDGES CHOOSE OFFICERS.

Joe Grymm is president of the Delta Upsilon pledge class as a result of an election held Monday night. Dick Young was chosen secretary, Leonard Dunker and Paul Munson, sergeants-at arms and James Jackson, committee chairman.

## CHI OMEGA MOTHERS MEET.

Luncheon will be served at the Chi Omega house Thursday noon for the members of the Mothers club. About twenty are expected for luncheon by the hostess Mrs. Carol Fausett, housemother. After the luncheon an informal business meeting will be held.

## CARRIE BELLE WOMEN NAME HEADS TUESDAY

Misses Eleanor Maloney, Thyra Moore Elected As Officers.

Misses Eleanor Maloney and Thyra Moore, were elected to act as officials in Carrie Belle Raymond hall for the current term at a general election last evening. The new officers will serve as social chairman and treasurer respectively.

Later in the year a house council of eight members, including the two officers will be chosen to govern matters of discipline among occupants of the dorm. However no action will be taken along such lines until new members have had opportunity to become better acquainted.

Raymond Hall, filled to capacity, is the home of 163 women students who have come from eleven states to attend the University. The dormitory, which was opened five years ago this fall, has every available room in use for the entire year.

Of the girls who call Raymond Hall their home, 137 are Nebraskans, 11 come from the state of Iowa, six from Wyoming, five from our southern neighbor Kansas, four from South Dakota, and three from Missouri, New York, Florida, Tennessee and Michigan each boast one representative.

Dr. G. E. Condra, dean and director of the conservation and survey division, was on the program of the Up-Stream Engineering conference held in Washington Sept. 22 and 23. The conference was called for the purpose of co-ordinating the programs of the land and water conservationists.

## Paging The Smart Coed

### BEAUTY IS PRACTICAL

The idea that a desire for personal beauty is merely an evidence of vanity and any empty head, that in any case it is a waste of time because you are either born beautiful or you aren't, is not only old-fashioned but cruel and false. The longing for personal beauty is common to almost all mankind. Insofar as it is realized, it is the expression of an artistic impulse as genuine and as valuable as that of the poet and the artist. But the desire for beauty is not only esthetic. It is also practical.

A recent survey taken via the heads of employment bureaus all over the country shows that essential requirements of women for business success are youth, charm and a lovely appearance. Beauty took a ranking place with brains. For, as the director of a large employment agency put it, if brains are necessary to hold an important job, good looks are necessary to get the job. And needless to say, bad grooming and an unattractive personality will quickly lose a job. There is no woman today who can afford to be ugly.

Certainly it is not true that beauties are born and not made. Of all the hundreds and hundreds of beautiful women I have known during over 30 years as adviser and consultant to the world's most beautiful and most famous women, I have seen less than a dozen who were born beautiful. The rest acquired beauty—some slowly and with difficulty, some easily and quickly.

You can have your share of beauty of charm. You can make your life fuller and more enjoyable, enable yourself to enter more deeply the social life of your college when you are sure of yourself. You will do better even in your studies because you will lose the self-consciousness and preoccupation that's due to lack of self-confidence. Sensible principles of living and the scientific advance in beauty care have made loveliness possible for you and you have only to take advantage of them.

Start your course in beauty now—you will find that it repays you a thousandfold. Begin tonight with a careful, honest appraisal of your good and bad points. Make up your mind what faults in beauty must be overcome, what good features should be played up. Make up your mind to get at least eight hours sleep every night—well, almost every night—and to eat plenty of salads and vegetables, because health is essential to beauty. Learn to care for your skin regularly and scientifically. It will never be necessary for you to do much more if you will begin now to follow these rules.—Helena Rubenstein.

### OFFICIAL BULLETIN

## NEW ASTEROID VIEWED BY NORSE STAR-GAZER

Planet 2,300 Light Years Away, Increasing to Eighth Magnitude.

Word was flashed to Carl F. Rust, astronomer at the University of Nebraska, of the sudden discovery of another Nova or new star by scientists in the Scandinavian countries. The object, which has rapidly developed in brightness from the 15th magnitude to about the eighth, is located in the constellation Aquila, about 700 parsecs or about 2300 light years away. In other words, says Rust, the light from this new star began its journey to the earth 2300 light years ago.

continue to increase in brightness remains to be seen," according to the University of Nebraska scientist. "The discovery marks the second within a short time. Last June the famous American amateur astronomer Feiler discovered a similar object in the constellation Lacerta. This object is now slowly declining in brightness."

Mr. Rust says this new star is not visible to the naked eye but its developments can be followed with the aid of even a small telescope. Visitors will have an opportunity to see this new discovery along with other objects of interest in the sky when the new university observatory is opened to the public after its completion sometime this week.
