Clearance Work Starts on Union Site

SEVERAL HUNDRED VISITORS GATHER FOR 1937 AG WEEK

Sessions of Organized Agriculture to End Thursday.

From Monday through Thursday of this week the ag college campus will buzz with activity, as several hundred out-of-town visitors attend the annual sessions of Organized Agriculture. The two big sessions come on Tuesday and Thursday, in the afternoons, the latter featuring the university's band in a half-hour concert.

Many university ag college faculty members will take part in the affair, most of them speaking at some time during the short week on subjects ranging from beekeeping to home economics.

C. Y. Thompson, regent at the university, will speak as head of the Nebraska Crop Growers' association during the program, and among the many Nebraska faculty speakers will be P. H. Stewart, Dr. Van Es, R. R. Thalman, William J. Loeffel, M. A. Alexander, J. H. Gramlich, Leona Davis, Dr. Rebekah Gibbons, W. W. Derrick, M. P. Weldon, R. A. Kisselbach, Dr. Raymond Pool, John F. Aldrich, and Dr. H. C. Filley. The University of Nebraska's meat judging team will put on a demonstration Tuesday.

DEBATE TEAM FACES CALIFORNIA IN FIRST COLLEGE ENCOUNTER

Kreuger, Curtis Represent Huskers in Duel With Sunkist State.

Two debaters from the University of California will be Nebraska's opponents in the varsity debate squad's first contest on the question "Resolved, that congress should be empowered to fix minimum wages and maximum hours for industry." Leonard U. Kreuger and William Curtis will uphold the negative against the visitors when they meet at Lincoln high school at 3:15 o'clock Wednesday afternoon, Jan. 6.

Lincoln will be the first stop on an eight debate tour thru the Middle West by the California team composed of Ray Compton and Harry Roberts, two experienced men in the forensic field. Compton, a major in philosophy, is the leader of the coastal school's Debate Society, having debated for two years in collegiate circles. His colleague, Roberts, a major in political science, is a member of the national political science honorary society, Pi Sigma Alpha, and is also president of the Senate, men's debating and oratorical group.

Experienced Men.

Nebraska's team is also experienced, but have not seen as much action as their opponents. Kreuger was on the varsity squad last year and was one of the representatives who made the trip to the legislative assembly at Topeka where he was chosen leader of the independent party. Curtis is a new addition to the squad, but is reported to have received much experience in debating and public speaking while in high school. The negative team announces that they are fully prepared on the usual phases of the question which include the objections as to cost, profits to employers, and dividends to stockholders.

California's trip will take them as far east as Chicago and south to Texas before they return to the coast. Besides Nebraska the main debates they have scheduled are with Iowa university, Chicago university, Washington university in St. Louis, and Southern Methodist University.

University Professors Attend Conventions During Christmas Vacation in All Parts of Nation

During the Christmas holidays, many professors and instructors in the university attended conventions in various parts of the country, many of them playing a prominent part in the proceedings of the conventions.

Dr. J. H. Ennis, instructor of Economics, spent his vacation at Tama, Ia., and attended meetings of the American Economics association in Chicago.

Dr. J. M. Reinhardt, of the department of sociology, delivered a paper as part of the program of the convention of sociologists in Chicago.

Hertzler Goes North.

Dr. J. O. Hertzler spent Christmas in Milwaukee, and also represented the university at the meeting of the American Sociological Society in Chicago Dec. 28-30. He served as a member of the executive committee for the society.

Pete Burns Asks All Engineering Groups To Select Chairmen

All engineering departments should elect their respective departmental chairmen as soon as possible, according to Pete Burns, general chairman of Engineer's week.

Morris Anderson has been appointed by the American Society of Civil Engineers to serve as departmental chairman.

"Until other student societies do likewise," stated Burns, "we cannot make preparations for another successful Engineer's Week."

SEATON USES PWA FUNDS, LABOR TO BUILD NEW WALKS

Workers Finish First Leg Of Sidewalk Building During Holidays.

Much was accomplished toward needed campus improvements when PWA funds and laborers were utilized during the recent vacation for construction of several sidewalks connecting various university buildings, Operating Superintendent L. F. Seaton announced yesterday.

"These sidewalks have long been a real need to accommodate the crowds of students passing from building to building between classes every hour of the day," Seaton declared. "This work only completes the first part of our program; several other walks and improvements will be postponed until the spring when it is not so cold and the ground is softer."

Work that will be finished this week includes a sidewalk six feet wide from Pharmacy hall to Memorial hall, and beside Memorial hall to University hall; a five foot walk across the entire west end of the lot between Morrill and Bessey halls and a semi-circular walk meeting a new ten foot stairway which is on a line with the walk cutting the maul and leading to the coliseum; a four foot wide sidewalk running along the curb in front of the coliseum from 12th to 14th streets; and grading and improving the cinder road which winds around the north side of the stadium.

Along with the eight foot sidewalk extending along 10th street from R to T the above works completed.

DEMAND FOR CHEMISTS LOOMS LARGE IN 1937

Eastern Concerns Indicate Increased Need for Trained Men.

Another indication of the business upturn is the advance word sent out by large eastern companies that more trained chemists will be needed in 1937. According to Dr. Fred W. Upson, dean of the graduate school, and chairman of the chemistry department, there probably will not be enough qualified candidates this year from Nebraska.

Several letters from eastern concerns notifying Nebraska officials of the increased demand for trained men have already been received, while visits from company representatives continue to emphasize the same story. The demand for skilled graduates in chemistry will be greater than it has been for a long time, says Dean Upson. As an indication of the recognized scarcity of material the Eastman Kodak company's representative coming here soon to interview seniors and graduate students will mark the fourth time that personnel men have in-

Final Architect's Plan of the New Student Union, to Be Located at 14th and R Streets

Inter-College Feuds Tame Today In Comparison to Those of '80's, Declares Former Harvard Dean

By Barbara Rosewater. Recalling his student days at the University of Nebraska, Roscoe Pound, former dean of the Harvard law college, talked to a Nebraska reporter in Omaha during the Christmas holiday, following a meeting of the Nebraska Bar association at the Paxton hotel.

Mr. Pound recounted stories of the feuds that used to rage between students in the college of arts and letters and those in the science school.

"The two groups had much the same feeling for each other that engineers and lawyers on the campus today cherish between them," explained Pound. "I remember that the morning the medical school was dedicated a sign appeared upon University hall, declaring in letters eight feet high 'Cash for Stiffs.'"

Feud Leaders Bury Enemies. At other times, according to the dean, arts students would bottle up the science majors in holes that had been dug for electric light posts on the campus and would leave the unfortunate prisoners to scream until help came.

"The university was young in 1884 when I was a freshman," Mr. Pound related, "and the student body was small. Everyone knew everyone else. School feeling ran high."

Class Disputes Prevalent. A state of combat was maintained between unaffiliated and fraternity men for the control of the university literary societies and the Hesperian, forerunner of the Nebraskan. Other spirited disputes centered about freshmen and upperclassmen. Annual contests were held between the first year men and the sophomores in the southwest corner of the old campus for the possession of a great leather pie.

Chapel Bell Disappeared Often. With little money and few places to spend it, the students found their excitement in sneaking the chapel bell out of the chapel and

Y.M. MEMBERS TO HEAR RELATIONS DISCUSSIONS Faculty, Students to Speak At Temple Meeting Friday Night.

A discussion of faculty-student relationships and ways in which these relationships may be made more helpful to both students and faculty members is the theme selected for the regular Y. M. C. A. meeting to be held in the club rooms at the Temple Friday, Jan. 8, from 5:45 to 8:00.

Additional interest will be added to the discussion, states Secretary C. D. Hayes, by the presentation of the varying view-points of students from different classes, including several grads, and also of students and faculty members from different colleges.

Death Takes Dr. Link Expert Toponomist

Dr. John T. Link, member of the conservation and survey division for 12 years, died at Seward last week. According to Dean Condra, Dr. Link was perhaps the leading authority on toponomy in the country.

Winner of Title Contest To Get Two Dollar Prize

Contest for the naming of the new monthly Ag college magazine will close Friday. A prize of \$2 and a subscription to this new publication will go to the one who submits the most acceptable and original title to room 301 Ag hall. Staff positions are to be filled immediately, and all applications must be in before Jan. 8.

UNIVERSITY OF NEBRASKA SCHEDULE OF EXAMINATIONS

FIRST SEMESTER 1936-37

Laboratory classes meeting for several continuous hours on one or two days may avoid conflicts with other classes of the same nature by arranging that their examinations occur as follows: Classes meeting on Monday or Tuesday may be examined on the date scheduled for the first hour of their laboratory meeting; Wednesday or Thursday classes on the second hour of their meeting; Friday or Saturday classes on the third hour.

Please note that in this schedule special arrangements have been made to conduct unit examinations for all sections in the following subjects: (1) English 0, 1, 2, 3, and 4; (2) English 11; (3) French 1, 2, 3, and 4; (4) Spanish 51 and 53; (5) Business Organization 3 and 4; (6) Education 30. If students have regularly scheduled examination conflicting with the above especially arranged schedule, arrangements to take such specially scheduled examinations at another time should be made with the department concerned on or before January 20. For example: if a student is scheduled for an examination which conflicts with a specially scheduled examination in French, arrangements should be made with the French department to take such French examination at another time.

THURSDAY, JANUARY 21
9 a.m. to 12 m.—All classes and sections of French 1, 2, 3, and 4.
9 a.m. to 12 m.—All classes and sections of Spanish 51 and 53.
9 a.m. to 12 m.—Classes meeting at 3 p. m., Tues., Thurs., Sat., or any one or two of these days.
2 p.m. to 5 p.m.—Classes meeting at 10 a. m., Tues., Thurs., Sat., or any one or two of these days.

FRIDAY, JANUARY 22
9 a.m. to 12 m.—Classes meeting at 8 a. m., five or four days, or Mon., Wed., Fri., or any one or two of these days.
2 p.m. to 5 p.m.—Classes meeting at 11 a. m., Tues., Thurs., Sat., or any one or two of these days.

SATURDAY, JANUARY 23
8 a.m. to 10 a.m.—Classes meeting at 7 p. m., Mon., Wed., or Fri.
9 a.m. to 12 m.—All sections in Freshman English classes (0, 1, 2, 3, and 4).
9 a.m. to 12 m.—All sections in English 11.
10 a.m. to 12 m.—Classes meeting at 7 p. m., Tues., or Thurs.
1 p.m. to 3 p.m.—Classes meeting at 5 p. m., five or four days, or Mon., Wed., Fri., or any one or two of these days.
3 p.m. to 5 p.m.—Classes meeting at 5 p. m., Tues., Thurs., Sat., or any one or two of these days.
3 p.m. to 5 p.m.—All sections in Business Organization 3 and 4.

MONDAY, JANUARY 25
9 a.m. to 12 m.—Classes meeting at 11 a. m., five or four days, or Mon., Wed., Fri., or any one or two of these days.
2 p.m. to 5 p.m.—Classes meeting at 2 p. m., Tues., Thurs., Sat., or any one or two of these days.

TUESDAY, JANUARY 26
9 a.m. to 12 m.—Classes meeting at 9 a. m., five or four days, or Mon., Wed., Fri., or any one or two of these days.
2 p.m. to 5 p.m.—Classes meeting at 4 p. m., five or four days, or Mon., Wed., Fri., or any one or two of these days.
2 p.m. to 5 p.m.—All sections in Education 30.

WEDNESDAY, JANUARY 27
9 a.m. to 12 m.—Classes meeting at 10 a. m., five or four days, or Mon., Wed., Fri., or any one or two of these days.
2 p.m. to 5 p.m.—Classes meeting at 1 p. m., Tues., Thurs., Sat., or any one or two of these days.

THURSDAY, JANUARY 28
9 a.m. to 12 m.—Classes meeting at 2 p. m., five or four days, or Mon., Wed., Fri., or any one or two of these days.
2 p.m. to 5 p.m.—Classes meeting at 9 a. m., Tues., Thurs., Sat., or any one or two of these days.

FRIDAY, JANUARY 29
9 a.m. to 12 m.—Classes meeting at 1 p. m., five or four days, or Mon., Wed., Fri., or any one or two of these days.
2 p.m. to 5 p.m.—Classes meeting at 8 a. m., Tues., Thurs., Sat., or any one or two of these days.

SATURDAY, JANUARY 30
9 a.m. to 12 m.—Classes meeting at 3 p. m., five or four days, or Mon., Wed., Fri., or any one or two of these days.
2 p.m. to 5 p.m.—Classes meeting at 4 p. m., Tues., Thurs., Sat., or any one or two of these days.

Women's Rifle Club To Discuss Plans for Organization Jan. 6

Maxine Wertman, manager of the Women's Rifle Club, has called the first meeting of the year for Wednesday afternoon at 5 o'clock in the gymnasium to discuss with prospective members the organization of the group and its program. All women interested in marksmanship are urged to attend and hear the rules of eligibility, which will be discussed in detail.

HISTORY-MAKING UNICAMERAL BODY CONVENES TODAY

Crowds Will Witness New Legislature Take Up First Session.

With the spectators' galleries heavily sprinkled with university students, Nebraska's much publicized new unicameral legislature will assemble at noon today for its opening session in the state capitol building. The new senators, 43 in number, will organize for the opening session, attend to the inauguration of Gov. Roy L. Cochran and other elective state officers, and probably hear United States Senator George Norris, father of the new legislative plan.

Not only Nebraskans but also political scientists over the entire nation will view with interest the operations and accomplishments of the state's single bodied law making assembly. It is the only unicameral legislature body existent today, and only once or twice in early colonial history was such a one house legislature employed.

One house because of their absence will be such bicameral methods of procedure as opening messages from both president of the house and speaker of the senate, joint meetings and of committee reports from both houses, and the customary bickering over legislative proposals approved by one house and being debated in the second assembly. Neither will there be any appointment of a committee to notify the house that the senate "is now organized and ready to transact business."

Warner Slated for Chair. Business of the non-political (Continued on Page 4.)

TRI-K CLUB SCHEDULES AG PARTY FOR FRIDAY

Holdrege Campus Social Activities for 1937 To Open Jan. 8.

Ag College students will have the first big party of 1937 at the student activities building on the Ag campus on Friday of this week. The Tri-K club, honorary agronomy organization is sponsoring the party.

A well known Nebraska orchestra is expected to play for the event. The committee in charge of the party is made up of Maurice Peterson as chairman with LeRoy Hansen and Wayne Domingo as members. The Tri-K club is making elaborate preparations for the party, which is billed as the "first big event of 1937." Admission charge will be 40 cents for men and 20 cents for women.

"We are now in touch with several orchestras and entertainers and will leave nothing undone to secure the best possible for this party," declared Maurice Peterson Monday. "Nebraska students in the past have shown that they will patronize a party with a good band and entertainment and we want to assure them that they will have such at the Friday night party."

Union Building Will Teach Student New Uses of Leisure Time, States Ramsay Following Conclave Visit

Nebraska's new Student Union building can do much to teach the student to entertain himself, says Ray Ramsay, alumni secretary, who has just returned from Texas where he attended a national convention of student union directors.

"Leisure is an informal process and cannot be met entirely by formal functions. Leisure cannot be regimented. The average American has lost the ability to entertain himself and there are only three things left within his power. He can either turn on the radio, play cards or dance." This is where the new Union building enters the picture.

Noting the various trends as expressed at the convention, Ramsay pressed that bridge is declining in popularity in unions. The various activities centered about such a student building differ in each school, but the following are some of the more popular activities out-

'BUILDING MAY BE READY FOR USE BY AUTUMN'—SEATON

Workmen to Raze 7 Houses Before Excavating Begins.

Seven buildings will be razed by or shortly after Monday, Jan. 11, in order to begin excavation work for the new \$400,000 Student Union building which will be erected on the northeast corner of 14th and R streets. According to Operating Superintendent L. F. Seaton, occupants of the six buildings facing R street and the one situated facing 14th, will vacate by this evening.

First publicly visible work toward the new structure was begun last Thursday, Dec. 31, when the Humpley Wrecking Co. of Omaha started to dismantle the frame house located at 1406 R. It is believed that the old brick house on the corner will be the next one to go, in order to allow excavation to begin not later than Monday, Jan. 11, the date set in the PWA contract for actual erection work to begin.

Delayed by Bids. Walter F. Wilson, architect for the building, announced that bids for the digging had been received last week and that the awarding of the contract "probably would not be delayed longer than until (Continued on Page 3.)"

FAIR BOARD SENIORS RELEASE NAMES OF JUNIOR ASSISTANTS

Committee in Charge of 1937 Ag Show Swings Into Action.

Results of the election of the junior members of the farmers fair board were announced Monday by the senior members of the board. Although the election was held two weeks before vacation, results were withheld until the eligibility of the nominees was checked.

New members to the board are: Earl Hedlund, Chappell; Melvin Beerman, Dakota City; Earl Heady, Imperial; Pauline Walters, Hiawatha, Kas.; Donna Hiatt, Beatrice; and Marjorie Francis, Lincoln.

Senior members, who were elected last spring, are Clyde White, manager, Darrell Bauder, Frank Svoboda, Ramona Hilton, Elsie Buxman, and Eleanor McFadden.

The board has charge of arrangements for the Farmer's fair, which will be held on the first Saturday in May.

MISS HARTLEY SPEAKS TO WOMEN CHEMISTS JAN. 6

Iota Sigma Pi Will Hear Talk By Civil Service Worker At Regular Session.

Miss Olive Hartley will speak Wednesday night at the regular meeting of Iota Sigma Pi, national honorary chemistry sorority, according to the president, Charlotte Venable. The business meeting will begin at 7:30 in room 304 of Avery Laboratory, preceding Miss Hartley's talk, "Women in the fields of chemistry in Civil Service."

Miss Hartley received her bachelor's degree as well as her master's degree at the University of Nebraska and has had a number of years experience in the chemistry laboratories in the Civil Service and Patent offices in Washington. Also, she has worked under two famous chemists, Dr. Washburn and Dr. Hudson.
