Every year the corn picking natives start pounding the anvil for the Posey Bowl and then never arrive. This year they swore themselves to a clam's silence until after the Panther game, then, giv-bowed to the Somkey City lads, national critics couldn't seem to see them in the first bracket and thus no sale. But then, we can't sit around now and cry over a bowl of spilt roses. Let's look into the future and mount our blessings, since this is the season of Thanksgiving and stuffed turkey.

The Huskers have not only Mary Plock. wound up their slate as a topmost team, but have also present some of the outstanding grid stars of the year. Only today we learn that the much-sung Charlie Brock landed a able for various reasons. First of competition was especially nil tough this year. Charlie has been competing against California's Bob Herwig and Fordham's Alex Wojiechowicz. The latter was an All American last season. The second is that Brock is a junior and the third is that he is playing on a team that ranks 11th (according to national polls).

Shirey landed a berth on the third team, barely missing the nod for a first eleven nod.

Also on Gus Dorias' Midwest aggregation, Brock clinched the pivot spot. Gus labelled the fighting Columbusonian as "inspirational and highly effective leader of the great Nebraska line."

As for the Thanksgiving fray, Huskers versus Kansas State, Nebraska should have little trouble, for they will be trying for the last time to get into the upper ten of the nation. The win will cinch the conference for them and also they are downright disgusted with
