PRICE FIVE CENTS

Survey Traces Military Profits

Come One. See All.

While we're in an advice peddling cycle, we should be most upphilanthropic if we did suggest to all you struggling pieces of hu-manity ways and means of seeing the presentation at the Military ball. The army unit makes a tidy sum on you all, spends some of it on spectacle to deaden the blow. but parts with nary a centime to help you see what your parted with your cash for. As it was in the beginning it is now and ever shall be world without end amenso if you want to really view the elaborate presentation, you must do something about it yourself.

There are some comparatively simple aids to spectators that are moderately effective. Such as these are the utilization of high power field glasses, or 6 foot stilts. Student architects and engineers can contrive vantage points by adroitly piling up folding chairs. Acrobats could utilize the coliseum trapezes. Husky couples can trade off standing on each other shoulders.

Others may demonstrate their ingenuity in other fashions. With wigs and borowed housemothers' attire, determined pairs could pass as ogling townswomen, and get ringside seats in the balcony. Or steady handed persons could adopt the English device for parade seeing-standing backwise to the goings on, watching everything in a miror held on a stick high overhead. The "wild Indians" of the campus could bone up on the Redskin farsightedness by squinting carefully at the reserve book desk customers from the north end of the reserve reading room while studying-to practice long range seeing.

But the greatest opportunities are for the wizards of promotion. Theirs is a chance to be of service to all the milling thousands of

ball attenders, and to reap plenty of pocket money for themselves. Some clever lad could install several mounted, coin-operated telescopes in the rear and sides of the dance floor, and, at ten cents a minute collect many a collegian's last thin dime.

For those who prefer panorama rather than peep shows, an enter-prising someone might be booker for a subscription platform. By counting in only skinny people, and using sardine methods in filling the elevated space, the little boy responsible for it all can clean up.

But most sensational, and hence most potentially popular presentation-seeing help of all, would be a sort of sky ride from side balcony. Many small cars, moving

BETTY WIDENER HEADS PLAYERS WISE

Comedy Features Boehm, Gaeth, Misses Rice, Van Slyke, Albin.

University Players will produce their third play of their season with a cast of six prominent players, led by Betty Widener in the title role, when the Temple theater curtain rises Monday night on entertaining modern comedy, "Penny Wise.

Miss Widener,' in the role of Penny, will be supported by John Gaeth, who plays the character of Gordon Chase, her philandering playwright spouse. Arthur Ball has switched his interests at present from the gridiron to the foollights and will be seen as the cigar chewing, pinochle playing, efficiency—plus Town Water Com-missioner Dunn, Other members of the cast are Don Bochm, Ruth Van Slyke, Helen Rice and Flora Albin.

Frothy Comedy.

"Penny Wise" is a gay and frothy comedy that was written by Jean Ferguson Black and was produced for the first time last April in New York. The play has the sure fire theme of wife and exmistresses and the development of the situation leads to genuine hilarity.

Scene of the show is laid at a farm in Connecticut where New York sophistication hovers in the atmosphere. According to Herbert Yenne, director, the set, designed by Alfred Boylan is the most unusual and most interesting that (Continued on Page 4).

Proceeds From Friday's Dance Go to Cadet Officers Fund

By Harold Niemann,

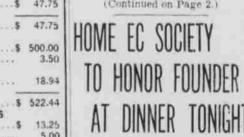

The military department of the university has been under five every year just before it sponsors its formal season opener. The Military Ball, which is the biggest during the school year, is a finan-social event staged in the coliseum cial enterprise, an enterprise running into many thousands of dollars.

Just what are the profits of this arbst what are the profiles of this formal highlight? And where do these lucrative sums disappear after the Military Ball is over? Because these questions have gone unanswered since the inception of the ball during the early part of the century, criticism has been aimed at military officials of this campus every year. Only once before was any attempt made to investigate the records of this financial enterprise.

Answers Accusations,

The Daily Nebraskan in co-operation with the military de-partment and the office of student activities, has made its first investigation into the records of the Military Ball. This careful survey was conducted to correct many accusations that have been hurled

toward the sponsors of the hall. The profits of this formal affair, in the first place, are not as large as the general public would believe. Audited records kept exclu-sively in the student activities ofthru which all expenses and profits of the ball are negotiated. (Continued on Page 2.)

Engineering Junior Depicts of Music. Altogether, Mr. Zanzig Wonders of Carquinez Bridge at ASCE.

Illustrated with lantern slides, a talk on the Carquinez Strait was given last night by Stanley Michael, junior in civil en-gineering, before the Nebraska student chapter of the American Society of Civil Engineers. Prof. D. H. Harkness also showed movies taken by him at the engineer's camp last summer.

Completed in 1927 at a cost of approximately 5 million dollars, the Carquinez bridge crosses the strait of that name situated about 25 miles north of San Francisco. Calif. Of the cantilever type, it is the second largest of that kind in the United States. It has two main spans of 1,100 feet and an overall length of 4,482 feet of which 3,350 feet make up the main structure and 1,132 feet comprise the approach viaducts.

Notable for its deep piers, the bridge has foundations going down 135 feet below the water level. It is the largest investment to date in private toll bridge enterprises, according to Michael. In the slides which he showed along with his talk, were detailed diagrams and pictures of the bridge showing not only the completed structure but also the various steps undergone in building it.

Kosmet Klub Salesmen Urged to Check Money

By Christmas Recess

All Kosmet Klub ticket salesmen must check in their tickets and sales completely by Christmas vacation at the latest, according to Howard Kaplan who was in charge of ticket sales for the fall revue.

"There are about six men who have not ye, completed checking in to me," stated Kaplan, "and it in to me," stated Kaplan, "and it is very important that they do so without further delay. The longer said Miss Durand, "is to promote a man waits to do this, the less a credit his sales will hold when the Klub considers him for member-Roach was secretary. ship.

Brookline School Former Director to Speak At 3 Thursday.

> Mr. Zanzig is a member of the advisory committee of the federal music project and is director of music service with the national recreation school.

In the past, Mr. Zanzig was connected with several schools in the east. He was director of music in Brookline, Mass., public schools an instructor at Smith college, and lecturer at Harvard. He was also founder of the Brookline School has had considerable experience as a director of choral and instrumental groups.

MISS DURAND TRACES HISTORY OF HONORARY

Mortar Board Head Talks To Freshman A. W. S. On Activities.

Maxine Durand, president of the Mortar Board society, spoke yes-terday to the Freshman A. W. S. group

Miss Durand opened her talk by explaining the early history of the present chapter of Mortar Board. It was first founded as the Black Masque in 1905, and in 1921 it became a member of the National Mortar Board society.

To be selected for Mortar Board Miss Durand said that one must be prominent on the basis of service, scholarship, and leadership, Junior and senior women vote upon a number of girls, and the thirty girls receiving the highest number of votes are candidates for the society. Membership is limited to not less than 5 or more than 20. The Mortar Boards promote cooperation between leaders in

campus activities. Miss Durand stressed quality, and not quantity, of work in activities. Sponsor Social Events. Special events sponsored by Mortar Board are the traditional

party, and the Ivy-Day leap-y ceremony, an All-Activities Tea. given in the fall, and a Scholarship Tea, given in the spring, are rocal trade treaties devised by Secbetter type of college women." Gertrude McArthur was chair-

man of the meeting, and Betty Ann
