BY THE HAUNTRESS

Sure enough mobs of people did turn up at the Dog Patch Hoe Down. Ruth Anna Russell went as a Kentucky mountaineer, pipe and all, and her date who was rigged up beyond recognition did credit to the spirit of the affair. Priscilla Chain, not knowing just where Bucky had planned to take her that evening appeared looking too smooth to be dancing with the red plaid shirt and old cords Mr. Prime had cooked up for the occasion.

Mildred Holland, who has been taken off the fancy free list by Hub Allaway was warned by Betty Cherry and some of her fellow conspirators that when the Farm House came for their hour dance with the Alpha Xi Delt's, Hub would be waylaid. The partners in crime further admonished Mil that she needn't expect him to turn up for her until at least 11.30, but all turned out all right which certainly shows which way the wind blows in that deal.

Rather on the same line as the ag party was the Corn and Cotton shindig that the Alpha Chi's throw annually. Bob Wadhams arrived with Helen Jennings in tow, Bob panning everyone as usual for dirt for that column of his. We might almost say that he's the only male gold digger we've met up with on this campus.

Turning back the years were the Phi Mu's, who last night let down their hair, got into Shirley Temple dresses and played children's games at their house party. Snow White and the Seven Dwarfs furnished some of the inspiration for the decorations.

We're wondering what Colie Anderson and Mary Austin do when Dew Wilson and Eddie George

take those frequent jaunts about the country all for the sake of the good old athletic department. It may be all right to be going steady with a real he-man, but when he takes to running off during week-ends for a mere game of baseball, that ought to be a different story. Both gals are being pretty good sports about it though. Neither one has staged a strike or done anything rash.

Another of the spring parties was held at the Cornhusker last night, and this time the A. G. R.'s played host. About 48 of their outstate alum were here especially for the occasion.

One of the better shindigs of the season came off last night when the Chi Omega's threw their spring houseparty, complete with orchestra and lots and lots of spring flowers. Some couples there who have been seen together more than a little lately were Betty Widener and Bob Leadley, Edie Houston and Gordon Hanie, Peggie Pascoe and Butch Larson, and Ruth Stevens and Jim Minnick.

SOCIETY

Postvacation social life started on the upgrade last night with four house parties and a swing session. Kappa Kappa Gamma, Sigma Alpha Mu and Phi Mu entertained at their respective chapter houses with open house parties, and Chi Omegas started the evening with a Founders day banquet at the University club and climaxed the celebration with a house party. A fine banquet Miss Amanda Heppner and Mrs. Roy Cochran were guest speakers.

At the Cornhusker hotel, Alpha Gamma Rho presented their spring party, and at the Sigma Kappa house, Sigma Kappas held initiation and a banquet.

BY THE HAUNTER

Before we start on the dirt for today, we wish to explain that we do not wish to hurt anyone's feelings in any way but the truth must be printed and only the truth. So my children, don't fret and frown if your name appears in this column because you yourself put it there.

Jane Barbour, D. G., has at last received John Howell's pin. According to my stooge in that house Jane is very happy over the whole thing.

Betty Hedstrom, D. G., has received an appointment to a school in Rushville when she gets out of Teachers college this spring, if she does. Her sisters wonder how she will get along with the Indians out in the west.

Gwen Orr, Theta, has had open house at her house since her folks went out of town a few days ago. One night she came home from school to find Herb Glover and John Stoddard, Betas, had taken over the house and had told the maid to fix dinner for them. When Gwen walked in, the gentlemen were clad in their robes with their feet propped up on the best sofa. It looks like the Betas have found a good thing.

Flash! George Binger, Sig Chi, walked home from a ride. The girl wouldn't co-operate with George so he got out and walked. The girl was a high school one to boot. It seems that he is losing his grip.

Marje Dirks, Pi Phi, has been seen quite a bit with Bob Howe, A. T. O. If anyone wants a date with the cute one he has to call weeks ahead of time. Is it worth it?

AG-GRAVATIONS

The Dog Patch Hoe Down Friday night saw all of the hillbillies and most of the rest of the people out for a little frolic. Leading all of the rest were Ruthanna Russell and Leo Cookley. They got along quite all right until the pipe Miss Russell was carrying took over the offensive and came out the winner.

La Donna Guttridge decided to give the Ag people a break once and came out. That didn't do the Ag boys any good tho because she was there with Bud Cather, A. T. O.

The jug carried by Gordon Jones went to the head of Adrian Lynn and Ward Bauder and they proceeded to divide up all of the girls there. Method used was to shoot craps. Roller of the lucky seven picked out one for himself. If he rolled anything else the other picked out one for him. That was fair enough except that Ward threw all of the sevens.

The low-landers there included Tom Aiken and Lillard Pratt. They were all dolled up in white shirts and store clothes. They had something to celebrate tho. Gossip has that they are going to pass the cigars come Monday night. Sunday afternoon they are going to pass out a little teaser in the form of Easter eggs. Wonder if they will be the well-aged variety?

Yours,
The Aggravator.

Don't forget that the Turnpike opens soon, so get that money together because it won't be a cheap one.

The weather man say it's going to be fair and warmer. That's good news, for with the Park featuring Antelope's best band in many a year, it's our guess that sign-outs to the library will be many these evenings.
