FL.SU a semestri

To the **New Editor:**

It will probably be breaking precedent should I fail to label the closing editorial "Thirty," but perhaps the realization that it is "thirty" for me as far as the "Rag" is concerned makes me steer away from such a topic, Perhaps, I can do more good by leaving a few suggestions for the new editor, which the benefit of experience has inspired me to offer.

The publications board meets this afternoon to determine those who will occupy the Daily Nebraskan posts for the coming semester. When the meeting is adjourned this afternoon, the name of the Nebraskan editor will be revealed. It is to this yet unknown personage that I address my remarks.

There is really not much I can tell you about the editor's job on this paper, You have worked with me during the entire semester: you have tried yourself in the position; you are aware of the editorial and technical problems. You know that no matter how hard you try to please, you can't please everybody. Sometimes, it is necessary to displease somebody. Remember, you have been chosen editor because you have been given credit for having superior judgment; you have been chosen editor because your convictions are considered logical and mature; you have been chosen editor because you are considered to be a leader in thought, and a leader of students. Remember then, voice yourself on your convictions; but remember also, that your convictions may often meet with disapproval; your convictions may often be the opinion of the minority; but whatever they are, write them sincerely,

Also remember, that the greatest attribute you can have as editor, the best source of information you possess, comes from the friends you make on and off the campus. Get to know as many people as you can; talk to them about campus problems; occasionally visit the downtown people interested in the paper; talk things over with members of the faculty; in short, be an inquisitive reporter yourself, so that you can always check the accuracy of every story

You're probably wondering what right I have to offer all this advice considering the number of mistakes I've made, but it is by these mistakes that I have learned and if I can help you avoid similar mistakes I'm glad to

We have continued several campaigns

our hand at a few of our own this year. It took almost eight years of constant pounding to get the Student Union building and other campus buildings which are so inadequate and outworn at the present time. It will take time to bring about the abolition of some of the worthless departmental clubs and other campus organizations, and it will likewise be a tedious ing on Wednesday evening. May job to bring about the enlargement of the 25. scholarship offerings at Nebraska. You might work on the latter problem by suggesting that few of the valueless organizations include a scholarship program in their schedule and thus national patron of Delta Omicron. justify their existence.

The unicameral will be in session next year and perhaps you may be a strong influence in showing the new legislators the pressing need for a building program, in which a new library is included as the first item, and the need for an enlarged appropriation for professorial sal- and in April. aries, so that Nebraska may keep its top-rate professors and draw additional outstanding sion charge to the program. men to its faculty. An additional suggestion upon which you might work is the deplorable conditions which exist in many of the boarding houses on the campus. Encouragement of student forums and the bringing of outstanding speakers to the campus might be another sug- Ernest Witte Elected Head

gestion to follow, There are so many little things that need attention on this campus. The physical appearance of the campus itself would be an excellent way to begin taking care of things. Put out a good, clean, interesting, and forceful newspa-

Please forgive the lengthy lecture on how to put out a paper. Believe me, it is not because I don't believe you don't know everything I mentioned that I have rambled on thusly. It is because the way I mapped out for you is the way I would have liked to edit a paper-and

Finally, always remember, whatever happens, there are people around who are always willing to help you in solving any problem. You have a wide responsibility to many; the alumni, the townspeople, the faculty; parents of students; but your biggest responsibility is still to the student body. It is their paper; it should instruct, inform, entertain, and advise

And as for yourself, take it from me, you will have many a happy hour laughing and getting angry over the many errors that are made. But from them you will have the happiest and most informative year of your col-

and I'll be rooting for you.

JOURNALISM DINNER

(Continued From Page 1.) rule for its personnel, but expects was able to digest other foods, re- each man to feel and assume his responsibility. Initiative and individuality are encouraged, "any set of rules which has ever been formulated being hereby abolished." Professor Reck presented three challenges to the young journalists. The first of these was to "dare to be different." Warning that most practicing fournalists are in a rut, writing day after day in the same old way, Reck urged that initiative, ambition and leadership be fostered.

Accuracy, ever the watch-word of the journalist, has been neg-lected, Reck said. Mistakes in copy reading, proof-reading, and in news collection are due only to slovenly work; journalists should again look to their old watch-word,

accuracy. "No great work was ever ac-complished without enthusiasm." was the theme of Reck's third challenge. Real zest for his work coupled with accuracy and a will to be different - these the aspiring

journalist should work for.

Professor Walker, director of the school of journalism, outlined the growth of the school of journalism from its infancy in 1923 to date, adding that 85 to 90 percent of the graduates have upon graduation engaged in journalism or some allied activity. Professor Walker also called attention to those school of journalism students anaesthetics of the present day so ors for journalistic achievements

Hypnotism Not Black Magic Says Dr. Walton in Interview

Debunked Phenomena To Be a Reality

"Hokus-pokus? Certainly not! Hypnosis is an indisputable fact and has been for longer than anyone knows," retorted Dr. W. E. Walton of the psychology department when the interviewer suggested that hypnotism wais faintly suggestive of black-magic, "why I could put you to sleep right now, if I had the time, and convince you of the truth of my statement." Dr. Walton, his little black mustache twitching in righteous indignation because of the interviewer's foolish question No. 4,999,000, was folding Salvation Army circulars and talking at the same time which

ject and was anxious to correct the interviewer's erroneous idea of

willing to discuss his favorite sub-

Hypnotical Puzzle. Little is known about the individual's exact state while under hypnosis, according to Dr. Walton. What seems to happen, however, is that the person's whole field of attention is concentrated on just one the proper background of knowlthing—the experimenter's suggestions. In the natural state, while him. you may be concentrating only on lecture in the classroom, nevertheless your are aware of the people around you, activities outside of the room, and, in abort, on others it may take hours. Any everything that is around you, one, however, can be hypnotized i Under hypnosis, however, your attention is concentrated on just one

person who is in a hypnotic state thinks and acts just like any normai person. Their eyes are open, and they are in full control of their faculties.

Walton, "to pick out the hypnotized person out of a group of three or four people. They act and look just like the rest." Surgical Application. Hypnosis has but few practical uses, according to Dr. Walton. It has been used to some extent in

"I challenge anyone," said Dr.

edge and a subject that will trust It takes varying lengths of time for the experimenter to produce the hypnotic state. On one person it may be bue a few minutes, while one, however, can be hypnotized if the experimenter has the time at his disposal to do it. Sometimes on a particularly stubborn individual, the exerimenter has to give him some lessons on how to relax, but once he learns to relax, he is

an easy subject to hypnotize. Not Black Magic.

"After you have hypnotized a person a few times," he said, "and have gained their confidence, it is possible to put them into hypnotic state merely by talking to them over the telephone. Also some times you can just tell them to go into the coma, leave the room, and come back to find them completely hypnotized. It is truly a wonderful thing!"
"Well," he said, moving his hand

neerwously as if he were trying to push the interviewer out of the door, "I hope I've told you what you wanted to know, I'd tell you more but I have to pass out these circulars. Now mind you," he ad-mmonished, "never let me hear would ever become common prac-tice, however, because of the im-
