Debate Try-Outs Time Changed

Second Semester Squad Selection Postponed

Intercollegiate debate tryouts for the second semester squad, scheduled for Jan. 17, have been postponed for about a month, according to Coach H. A. White. The question to be used in this tryout concerns collective action on the part of the democracies of the world.

On Feb. 14 a tryout is scheduled to choose two special teams for the Colorado trip. For this any man of the university who is eligible may compete, including those who have already debated the subject of Pump Priming, which will be used. Reserve books have been placed again in various collections of the library for use of the men interested. A bibliography may be obtained in Andrews 111.

Students making the trip to Colorado will not participate in any other debates this semester. Official wording of the subject to be used both at the tryout Feb. 14 and on the Colorado trip is, "Resolved, that the United States government should cease giving money for the stimulation of business."

CAGERS

(Continued from Page 3.) seniors in their opening lineup, and Phog Allen, if necessary, can pit five seniors against that bunch.

Offensively, Nebraska has blossomed brightly this year, averaging nearly 38 points per game in the nine they have played. Kansas hasn't approached that average, but K. U. has allowed opponents far less than the Huskers have allowed their foes.

Husker foes have averaged almost 44 points per game, while K. U.'s average foe's score has been nearer 32. Allen coached teams have always been a Nebraska stumbling block, and tonight, Brownemen hope to add one more win to the Husker victory record over the Jayhawks.

Probable starting lineups:
Nebraska—
Kovanda F Golay
Thomas F Engleman
Randall C Allen
Werner G Harp
Fitz F Corlis

Officer Takes Cold Shower in Uniform —But Unwittingly

Officer Francis Donovan of the campus police force took an involuntary cold shower in uniform early Tuesday morning.

Briefly told, the facts are these: Officer Donovan was making his usual early morning inspection tour of Greek row; he stepped upon the curb in front of the Theta Xi house at 1504 S st., and met a stream of cold water from a hose projecting from a second story window. Officer Donovan resented it vocally and demanded entrance and divulgence of the Greek turned fireman.

The water boy accompanied Officer Donovan to you know where as Donovan insisted that the offense constituted deliberate assault on a law enforcing agent. Theta Xi's explained to police that they had mistaken the officer for the first of the Theta Xi pledges returning from a "sneak" trip and gave him the water works. On the strength of the eloquent explanation Sergeant Regler released the water shooter from threat of prosecution Tuesday afternoon.
