Rally--

(Continued from Page 1.) candidate, and the Sig Ep found one apiece, so they emptied them together, put them on my feet, and the driver started off again. We found the car in front of the Phi Psi house and emptied the garbage all over it.

Then about 200 more yeggs came running down the st. throw-

ing eggs. When another egg came in, the other girl and I decided we might as well get out where we could at least dodge. Just then, though, somebody hit somebody else on the head with a board so we decided to stay where we were. Outside the car everybody was apologizing to everybody else in general, except for eight or ten guys who were fighting.

Everybody seemed to be very

anxious to get rid of all the eggs they could at once, so we closed the car windows, and the girl with the car started off again. Somebody yelled that a college man was just hurt in front of the Phi Delt house so we went around there, but all we could see was eggs all over the front window, the sidewalk and the street.
