Mary Anna says . . . Sweets, diamonds, steadies show up in social whirl

A little pre-season rush business along Dan Cupid's line. At the Pi Phi house two pledges woke the whole dormitory Sunday night to whole dormtory Sunday night to announce that Agnes Wanek and Jack Nelson, DU, are now go-irg steady. While last night the Theta's at last got the sweets they've been waiting for so long from Mary Marnell and Sigma Nu George Svoboda. Pearl Stuhr has a reason for being finger conscious a reason for being finger conscious these days. Saturday night George Galloway, Sigma Nu, came across with a diamond ring. The Alpha Xi Delts tell us that Eleanor Collier is going steady with a new convertible roadster-suppose they mean its owner Dave Beshore.

to any little gal who's in the habit of calling the Beta house. Their second-floor telephone is right out in the hall-about as private as the Grand Central station. Not long ago one of the Pi Phi pledges held a long and animated conversation with one of the boys, to the amusement of half the Beta chapter, who were lending moral support to the harassed brother.

Sunday night. Ray Timbers was there with Tri Delt Ann Krause, Bruce Duncan with Kappa Ibs Waugh, Jack Ray with Alpha Phi Pat Herminghaus, Bob Martin with Theta Marian Kidd, Bill Hinrichs with DG Louise Malmburg and Joe Dye with Teets Tal-bot, also DG. Incidentallg, one of the Delta Gamma's told us that Teets' beautiful romance at the Beta house is about on the rocks and Joe Dye seems to be very much in the running right now.

are the Fiji's who were quite per-turbed at the disclosure of their Bill Hines hoax. They even resorted to having a boy from Oregon impersonate the mythical "socialite," and the whole Phi Gam chapter is sticking to their story so that we can't help looking at the chapter with renewed admir-ation if only for their spunk.

PLAYBOYS

Ted Weldon, Chick Rice, Piker Davis, Bob Aden and Dick Doty drove out to south Lincoln Sunday in Piker's model A to have a bit of fun in the snow. They found a long hill and proceeded to coast dim, skidding through puddles and over difches and having a marvelous time. What they didn't know was that a cruiser car had been sitting at the top of the hill all this time. So Monday Piker enrolled in a new course-traffic school

brings tokens to sweethearts

Again comes the time of year when people can be affectionate without being maudlin. Yes, you guessed it, it's Valentine Day,

Every magazine in February either has Lincoln, Washington or Valentine's Day featured on its cover. In one of the more popular women's magazines we find hats which are huge red felt hats made in the shape of a heart. Cute, we'd say, but rather impractical, in some cases, after Feb. 14. Another magazine features another big red heart, not a hat this time, but an accessory to a pin hanging.

For that ever present necessity of present-giving on this day, there are many suggestions. If we expected a present, we think that we'd just drop a hint about a lovely little necklace of painted wooden hearts strung on a leather thong. Or there are bracelets made of anchored hearts, silver hearts entertained at a buffet supper into lockets. In truth, you can now keep somebody in your heart with one of these.

The least ingenious can always give that present which is easiest to find and sure to please, a big heart-shaped box of candy.

If St. Valentine wouldn't be surprised at what his little habit of sending greetings to friends on February 14 has come to, we miss our guess.

changing world." "In England," she said, "the people are spending more time in lowed the talk.

the home because of the war." She told of a family who had she told of a taining who had taken six children from a city slum to care for during the war. Every night a "vermin hunt" is conducted and a score is kept. New forms of recreation are being created in the home and the results are good.
