

Blitzkrieg of . . .

Picnic weather ends fight; it's no use trying to study

By Mary Jean McCarthy

Picnivating weather has enveloped the old but young campus. Outings seem to be taking the place of almost anything that happens. Boy says to girl—'What will we do,' and she replies—'let's go on a picnic' . . . or vice versa. Of course, other things do happen, but not very often. Congratulations are due the ATOs and SAMs who had their initiation yesterday.

HAVE YOU SEEN

a good looking, well built, inexpensive trailer? If you have, Theta Marion Kidd and ATO John Smith would certainly appreciate it for they have been searching the city—in vain. Makes rather nice traveling equipment—cause John, aiming at engineering, will be doing a great deal of moving about after their marriage some time this summer.

BASHFUL IS HE?

is the question the Sig Alphas are asking brother Bob Burrus, for it seems like he was very much enthused and anxious to ask Kappa Jeanne Newell to the "N" club dance but was rather leery of the idea seem' as how she is on the "goin' steady" list.

SWEETHEARTS

will be honored at the dinner given today at the Kappa Sig house, when the fellows ask 'those nearest and dearest' to their hearts over for a bit of dinner. Some of the couples will be DG Pat Patterson and Floyd Irving; Theta Jean Reed with Don Moore; Kappa Jean Cullinan and Jim Evinger, and Beth Howley with Rex 'of picture fame' Crews.

SOME ARE WONDERING

why the mentioning of a certain Phi Psi, namely Tom Grimes, makes Alec Ann Arthaud's heart flutter here and there. A few of

the girls are going to issue a warning signal to him too—for they say he has already captured many of the coeds' hearts.

GOLF AND TENNIS

are popping into view with these beautiful spring mornings. A group of 'de boys' were out early in the morn yesterday to play a few holes of golf. In the party were SAM Art Hill, DU Leonard Dunker, and Betas Dick De Brown, Bob Aden, Chick Rice, Ron Brodrick and Arlus Mathis. The vigorous game of tennis persuaded Kappas Marcille Poppe and Peg Elson—to—'rise with the sun.'

'A FLAIR FOR LIVING

and the warmth of personality makes a coed popular." That's what some noted someone said. That's probably why you see Pi Phi Shirley Scott with Beta Bill Huffman so often; also the reason for Eville Younger asking Betty Burgess, Kappa, for dates! and that switch causes DU Bob Green to ask Theta Aline Hosman to go places.

OUR FAVORITE

culinary impresario is 'Juke' Byers, who, yesterday, hired the staff—he made us coke and cone tasting and testing inspectors.

WHY DO THIS

to us? That's what the Betas want to know. First, it was someone chopping down their trees, and now—their furniture has disappeared. Someone just walked in—and out with the interior pieces. A long comfortable looking couch was seen on the Union steps and the Tri Deltis are using the fellows new porch furniture. The Phi Mus, too, were honored with an extra chair or two. The thieves just left their loot in various obvious places. May we suggest that the Betas try chains—they use them in some places.

Presbyterians elect officers, pick committees

Officers for the next year were elected at the Presbyterian student fellowship annual banquet held Friday evening, at which Dr. Francis L. Bouquet, professor in the Omaha theological seminary, spoke on "Treasure Island."

Officers elected at the meeting, presided over by Lloyd Jeffrey, were Stanley Tyner, president; James Newcomer, vice president; Marie Louise Drake, secretary; and Richard oJohnson, treasurer. Committee members selected were Betty Gene Long, student center; Jay Norris, spiritual life; Fletcher Conn, religious agencies; Gerry Smith, social recreation; Kieth McCall, publicity; Jane Bird, friendship; Bill McDonald, study and discussion; and Dick Johnson, stewardship.

Profs judge contests

Prof. Earnest Harrison appeared as a judge at Madison, S. Dak., Thursday to Saturday. Prof. Herbert Schmidt appeared as a judge for the district music contest at Fremont, Neb., Friday.

Reider gives concert

Henry Reider of the museum staff gave a lecture and short concert on his bonaphone at an Irving junior high school convocation last week.

Orfield publishes article

Professor L. B. Orfield of the college of law is author of a paper "The Norris-LaGuardia Act" which appears in the current issue of the Nebraska Law Bulletin.

You'll COTTON To These Summer Fun Fashions From Our Sunshine Shop

They're such fascinating new styles . . . prettier and in a greater variety than ever before. They're all beautifully tailored too . . . and whatever your choice of cotton you'll surely find it . . . chambray, gingham . . . seersucker . . . They're keyed to the young American demand for clever detail, fine tailoring, sleek and casual styling.

They're So Modestly Priced Too
