Benny Nemesis

This lovely lady is the chief heckler on the Jack Benny program, heard on Sundays at 6 p. m. over WOW. In her stoooge role on the Jello program, she is Mary Livingstone, but in real life she's Mrs. Benny.

Hard luck knocks at coed's door; makes her cynical

PORTALES, N. M. (ACP).—Ready for a hard-luck story? It's about Lylene Garner, freshman at Eastern New Mexico college, Portales.

On the first day of school this year she fell upstairs at women's hall and suffered minor bruises. Then she developed a recalcitrant appendix and had to have an operation. Shortly afterward, in what she calls a blue trance, she sat down on a hot radiator, arising therefrom with alacrity and some pain.

Next she was accidentally hit by a playful girl-friend and sported a black eye. Now Lylene has a broken nose, acquired when she walked into a door that should have been open and wasn't.

Small wonder that Lylene is a bit cynical these days.

Off the beam go radios as stations move

... on the dial

Thousands of push button radio sets will be thrown out of kilter this month when 90 percent of the United States radio stations observe "Radio's Moving Day," March 29.

On this day, a red-letter day in the history of broadcasting on the western hemisphere, approximately 1,300 broadcasting stations on the North American continent will change wave lengths, and radio service men throuth the nation will be called in to reset push button sets, and in general change and adjust radios to comply with the new changes.

The big wave length shakeup has been in the making since details in the Havana Treaty were worked out in a Havana conference in 1937. Under the treaty, Canada gets six exclusive channels, Mexico gets six, Cuba gets one and the United States gets an increase in clear channels from 44 to 59.

According to the National Association of Broadcasters the re-allocation will result in better radio reception on more radio stations and will eliminate interference between stations. A result expected in the future will be careful long-time planning between governments in this hemisphere.

The immediate effect will be to change dial locations on the over 50,000,000 radio sets in this country. Station KFAB will change its frequency from 770 to 780 kilocycles; KFOR will be heard on 1240 kilocycles instead of 1210, and KOIL's new wave length will be 1290.

Omaha's radio stations WOW and KOWH will not change their wave lengths.

February top BMI tunes

1. High On a Windy Hill.
2. You Walked By.
3. Here's My Heart.
4. Bugle Woogie.
5. It All Comes Back to Me Now.
6. May I Never Love Again.

8. Wise Old Owl.
9. Accidently on Purpose.
10. Keep an Eye on Your Heart.

Survey—

(Continued from page 1.)

National defense, however, has had its effect. Some 3 percent of the men say that they want to go into aviation. Projected against enrollment figures, that would mean that colleges today contain some 20,000 air-minded young people.

Other of the most popular professions among men are journalism, law, medicine, chemistry, accountancy, and salesmanship. Among women, selected as the ten top choices were: marriage, journalism, secretarial work, nursing, social service, drama, fashion designing, business, and dietetics.

When college students expect to be married:

	Percentage
Within one year	22
Between 1 and 2 years	21
Between 2 and 3 years	19
Between 3 and 4 years	13
Between 4 and 5 years	13
More than 5 years	7
Don't expect to marry	3
Already married	1
Before leaving college	1

Election—

(Continued from page 1.)

candidates. Four AWS board members will be selected from the sophomore, junior, and senior classes of next year. Qualifications for candidates were that the coeds have worked on selling "N" stamps and on the Coed Follies.

Objects of the three organizations to be voted on are as follows: The AWS is the governing body for women; Coed Counselors help orient new students on the campus and sponsor the Penny Carnival; and the BABW helps barb women enter into activities such as intramurals.

A double-barreled toxoid which creates immunity against both diphtheria and lockjaw is being used by the University of California medical school.

Model Actress

Leading Chicago model, Doris Simpson, who was recently signed to an NBC artists service contract, will make her radio debut as quest of Ransom Sherman on "Club Matinee," tomorrow over the blue network. Doris will be interviewed on a model's life by the m. c.

In the Book Nook

Kabloona

By Gontran de Poncins.

Kabloona, which is the name given to the white man by the Eskimo of the far Arctic region of the mainland and vast islands north of Canada, was chosen for the title of a book by Gontran de Poncins because it concerns the life of the white man in those regions.

De Poncins gathered the material for "Kabloona" from the log kept during a year and a half of living in the north, and from his experiences and observations on a 20,000 mile journey through the Far North.

This new slant on the life of the Eskimo and his associations with the white man in the far north is full of remarkable anecdotes and fascinating pictures of the easy-going, happy life of the natives. It is a story of the way of the Eskimo's living, an exact routing, and to change one item in this routine is, for the Eskimo, impossible.

Eating, with the Eskimo, is ecstasy and it is the same with love. Commenting on this, Henry Seidel Canby, says, "Love is a passion, not a romance. In the spring the whole tribe goes mad with a sexual ecstasy which extends even to the very old. The Eskimo's women, who have no rights and are lent like any other property, nevertheless make a home in the wastes possible and subtly control the actions of the family...it is the family that persists.

No stealing.

"The only crime is killing in order to get a desired wife. There is no stealing, for whatever they have is in common in an emergency. No one starves unless all starve."

De Poncins went north not just to study the Eskimo, but to become intimate with him, to learn to live and think and feel as he did, and to experience, in his heart and soul as well as in his body, the life of Stone-Age man.

Stone Age culture.

In this book the author gradually discovers that the culture of the Stone Age could be as elaborate and often more satisfying than our own, then the dirt, blood, smell, cold, and strange personal habits of the Eskimos became tolerable and, at last, inseparable from their philosophy of living.

All in all, it is one of the most remarkable books to roam out of the Far North in a long, long time.

About the author—his real name is Vicomte Gontran de Montaigne de Poncins. In 1920 he served as an interpreter for the American Army of Occupation in the Rhineland. He learned his English from doughboys, from American painters at the Beaux Arts in Paris, from the British textile men with whom he, as London manager of an Italian silk concern, had traded for some years, and from sailors

and admirals, trappers and big-game hunters, governors of provinces and Hudson's Bay post managers everywhere between New Guinea and the Arctic Circle.

Material from diary.

He wandered just to be wandering, not to gather material for a book, and when he finally wrote "Kabloona," he got his material from the diary he had kept during 15 months in the north.

The book is the book-of-the-month for March and will be in the Nook within a week. For spare moment reading, it promises to be one of the best in its field.

Ball—

(Continued from page 1.)

the coast-to-coast hook-up of NBC. Other appearances include singing on the National Farm and Home Hour and for two years on the WHO Barn Dance Frolic. On this program they were chosen by popular vote as the most popular act of a cast of 75.

Satisfied that they have a first-rate band, the ball committee with Harold Bacon, chairman, state that Slade was the hit of the Creighton military ball.

Two-day affair.

A two-day affair, the Junior Ak-Sar-Ben celebration features the showmanship competition held in the main pavilion of the Equine Manor Saturday. The competition including the showing of all classes of livestock, will be judged by K. C. Fouts of Seward.

Something unusual on the program will be a sheep sheering exhibition by Lee Haster of Arlington, Nebraska, champion of the national sheep sheering contest at the 1940 Chicago International Livestock show.

Horse-show contest.

Indefinite plans are now being made for a horse-shoe throwing contest between the senators from the state legislature and the professors at ag campus. The profs are ready and are awaiting the answer of the senators.

Marvin Kruse will act as master of ceremonies. Co-chairmen of the celebration are Oscar Tegmeier and Don Baird, ag seniors, who announced that tickets are now available to all students at Long's book store, the finance office, and from members of the Block and Bridle.

Professor Camp prints article in math magazine

Dr. Chester C. Camp, professor of mathematics, has an article on "Grades in Freshman Algebra as Indicative of Later Success in Engineering Mathematics Courses" in the February number of the National Mathematics Magazine published by Louisiana State University. Professor Camp presented the article as a paper before the Nebraska section of the Mathematical Association of America last May.
