however, is not a panacea for the

problems of the Mid-Interior and the South," Lilienthal concluded.

"We must be ready with indus-

trial knowledge generally, with skills, and the backlog of indus-

trial research upon which modern industry so greatly depends. "The South and West could well

join hands in preparing and pre-

senting the case for I believe that you will find their fundamental

interests the same." J. A. Little, director of trans-

portation for the Nebraska State

railway commission, has called two meetings dealing with prac-

tical aspects of the problem dis-cussed at the transportation con-

ference. The meetings will begin

In the evening session David E.

Lilienthal director of TVA, told members that the industrial fu-

ture of the Midwestern interior and the Southern regions of the United States depends upon re-storing economic equality between

all regions of America, conserva-

tion of human and natural re-

sources, and fullest development of power and water assets. "Man-made rules and not the

limitations of nature are respon-

sible for acute economic problems in both our regions," Lilienthal stated. "The interterritorial

freight rate structure is one of the major causes of our inability

to develop our resources to the

KOSMET KLUB.

Kosmei Klub activities will meet Wed-resday at 7. Kosmet Klub wurkers will neet today at 5. EVANGELICAL STUDENTS.

The Lengue of Evangelical Students will seet today at 7:15 in the Ulon, room 315. DANCING CLASS.

Begininng dancing class meets tonight the Union ballroom at 7. Advanced ancing class will not meet this Thursday. he next meeting will be the first Thurs-ay after vacation.

CORN COBS.

Corn Cob actives and workers will meet room 315 of the Union at 5 p. m. today. AG WAA.

As college WAA will meet today in stu-dent activities at 5 p. m. Archery will be the activity. AG RECREATION.

Ag college recreation night will be held tonight in student activites at 6:45 p. m. CHARM SCHOOL,

terior is faced in the early stages Charm School meets in Ellen Smith hall ith some of the very co on "Growing Up." rr Smith will speak which in their later and acute stages we find in the south to-day," he explained. "The tenancy Transportrate here is not nearly so high (Continued from Page 1.) as in Georgia, Alabama, and Misthan the system that permits opsissippi, but the alarming thing is that it is increasing rapidly.

Martz, Segrist judge Jones' theatre contest

From the Jones boys and girls who enter the contest being spon-sored in connection with the Lincoln premiere of the "Devil and Miss Jones," judges Clyde Martz, DAILY editor, and Ed Segrist, DAILY business manager, will select seven Joneses and one pair of Jones twins, (if any enter), to be the guests of Jean Arthur, star of the picture, at a dinner party before the premiere.

for their last name, must be a of year and we pause to note one and enroll with A. W. Hendricks couple who haven't called it at the Varsity theater before tomorrow night.

The judges will select these in-dividuals, to whom Miss Arthur will be hostess by remote control, tomorrow night after the contest closes. They will choose the tallest Jones; the shortest Jones; the Jones with the best scholastic standing; the Jones who came the longest distance to enroll; the most freckled Jones; the best Jones athlete, and the prettiest rest of the student body scurrying Jones twins.

Health-

(Continued from Page 1.)

Contestants must have Jones all countries in the world in scientific knowledge and technical deregular student at the university, velopment of medicine, it lags in the social organization by means of which this knowledge can be made available to all the people who need it," she added. This situation is especially apparent in a rural state such as Nebraska where good medical and hospital services are frequently not available and where, because of long drouth years, there has been srious delay in the development of public health services to protect the peoples health.

Miss Anderson has come to Nebraska with a wide background of experience, A native Canadian, much of her training and experience has been carried on there. Rural health, social research, race relations and labor problems are her fields of major study and experience. Her book, "We Amer-icans," which is a study of nationality groups in Vermont, won the John Anisfield award as the best book on race relations in 1937.

the art department.

. . . this year

The exhibition is being prepared by the advisory committee on art in the Washington office of the co-ordinator of commercial and cultural relations between the American republic, all under the council a 'ional defense. The committ. s asked the univeroan of "Afternoon sity fo:

Skiing" by Zolton Sepeshy. Cities to which the exhibition will be sent from April to December are Havana, Rio de Janeiro, Montevideo, Buenos Aires, Santiago, Lima, Quito, Bogota, Caracas, and Mexico City.

Cultural exchange program.

"This project is the initial understanding of a broad cultural exchange program in the visual arts between the American republics, which we hope will begin a new era of close intellectual understanding between the North and Latin American peoples," states John E. Abbott, chairman of the advisory committee on art. Pictures for the exhibition have

been chosen by the curators of American painting in the Metropolitan, Whitney, and Brooklyn museums, and the Museum of Modern Art under the direction of Mrs. Helen Appleton Read. A' handbook in Spanish and Portuguese will accompany the exhibit,

erators to use improved waterways without payment of tolls to profit by lower rates thus made possible.

As for what transportation agencies ought to do for themselves in the future, Palmer advised that they "be more aggressive than they have been in pressing for legislation in their own and the public interest."

Eastern purchasing power.

Purchasing power in official territory, in the industrial region east of the Mississippi, is greater than that of all the other territories put together, Lilienthal pointed out, This means that the largest national market is concentrated there and industries in other regions must sell a part of their output there if they are to have a strong development.

But, he continued, under the present freight rates, producers than in eastern or official terrihere must pay a higher rate than tory. As an example of how this manufacturers in eastern territory who are actually farther away from many of the markets.

in connection with the defense program will influence the economic pattern of the United States for many years to come, the A oTpeka company would have to speaker said, and the nation will pay 40 percent more for the same lose out unless defense production

Southern, northern problems.

"The draining of our human resources from both these regions is another grave problem in common...But the chief similarity between your problems and ours in the South lies in this: that we are both lacking in an adequate industrial development to balance our reliance upon agriculture."

Industrial development has lost ground in the mid-interior in the past geenration, Lilienthal believes. If Nebraska had grown industrially as fast as the whole nation did from 1909 onward, its manufacturing income in 1939 would have been 70 million dollars greater, or double what it actually was, he said.

The speaker showed charts illustrating how freight rates are higher in all parts of the country works against this territory, he pointed out that a 10,000 pound order of shoes in Mansfield, O., The present industrial expansion can be shipped there much cheaper from Brockton, Mass., than from Topeka, Kas., altho the distance in rate miles is the same. distance.
