

# Government bureaus seek engineering grads

## Kampus Kaperings

with Mary Adelaide Hansen

### Mothers day

Celebrations are an important part of the news for the weekend. The YW breakfast early this morning leads the list with the annual May Morning breakfast. The Sigma Kappas entertained their mothers a day early at luncheon Saturday.

Pi Phi honored the seniors Saturday when ninety were present at the luncheon given by Mrs. Charles Stuart at which the Lincoln and Omaha alumnae were present.

### Long expected

Is the pin from the Sigma Nu house which Stan Trulson hung on Kappa Ruth Haney. Only thing unusual about this was the fact that Ruthie and Stan didn't ever go steady and it was just last week end that she went to the Sig Alpha party.

### Triad

Friday night witnessed some very unusual combinations. Theta Marge Jones and Sig Chi Bob McNutt, "Piker" Davis from the Beta house with Max Fuller, the beautiful Pi Phi who joined the list of free lancers not so long ago.

Most amazing coupling of the evening was Pi Phi Georgia Walker and Beta Bill Huffman, cousin of Stan whose pin she just gave back. Stan turned up with Shirley Woods, Theta. All of which go to show that all romances don't start in the spring.

### Senior steadies?

Is the query which goes around about Dee Gee Lou Malmberg and Senior Class Prexy John MacDermott. Though "Mac" wouldn't admit anything when last quizzed

### Tri-K, Block and Bridle . . .

## Ag honoraries hold annual judging contests Saturday

There was plenty of competitive spirit on ag campus over the weekend as the Block and Bridle and Tri-K clubs held their annual contests.

Karol Briggs placed first in the meat judging and identification in the girls division. Bernece Anderson placed second.

Keith Gilmore soared ahead of all competition in the men's division of meat judging contest. Ray Crawford placed second.

Francis Haskins was high point man in the Tri-K grain judging contest. There were three divisions, senior, junior and freshman. Contestants were grouped according to their previous experience. Winners of each group are: senior,

about this, we would venture that casual daters don't see as much of each other as these two do.

### Burning question

In the minds of those who saw Alpha Phi Janet Westover with Phi Delt Hank Green at the Triad: What has happened to her steady deal in the Tau house?

### Congratulations

To the Theta Xi's who have recently, pledged: Jack Calnon, Burt Rishel, Durwood Gollehon, Hubert Seng, Wilbur and Hermair Schmall, Joe Krohn, Elmo Thompson, Charles Kavahac and Everleigh Foster.

### Weekend festivities

Included Jimmy Lunceford at the "Pike," the Tri Delt and Alpha Chi house parties and the well known Gold Rush party that the Sigma Nus give about this time every year.

### Four agencies need men for work on mechanical, aeronautical research

Four government agencies are now seeking qualified aeronautical and mechanical engineers who can do critical investigative and research work connected with the development of faster, safer, and more powerful airplanes, according to word received Friday by Dean O. J. Ferguson of engineering college.

The U. S. civil service commission has announced open continuous examinations in all fields of engineering for recent college engineering graduates, and a senior engineering student may file application if he will complete required courses by the end of 1941 and within four months of the date his application is received. Application forms may be obtained from any first or second class post office. Applicants rated eligible may be certified at once to an appointing officer and may be tendered an offer of employment by wire and be at work within a week of filing.

Four hundred in air corps. The air corps now employs 400 professional engineers at Wright field, Dayton, O., in testing, checking, and developing latest advancements in airplane engine design. The navy department has 165 aeronautical engineers charged with all that relates to design, construction, fitting out, testing, repair and alteration of naval aircraft and aircraft instruments, equipment, and accessories.

The national advisory committee for aeronautics conducts fundamental research on flight problems with its major laboratory at Langley field, Va., and a second laboratory partially completed at Moffett field, Calif. The present personnel of 340 will be considerably enlarged soon.

## Modern dance group continues open practices

Any university woman who wishes to learn modern dance and to participate in creating original dances is eligible to attend the training sessions offered by Orchesis at 7 p. m. on Wednesday nights in Grant Memorial.

Two practice periods scheduled for May 14 and 21 remain in this practice session. The sessions are designed especially for those women who wish to become members of Orchesis and who have not had previous training. Simple techniques are the basis of training.

Women wishing to take Orchesis for regular physical education credit should attend the two remaining sessions.
