husker will be chosen from three

applicants, Ed Calhoun, John

Cockle, and Hugh Wilkins, by the

Publication Board this afternoon

Selection of the men last spring

was postponed because Calhoun

and Wilkins were declared ineli-

gible for the position because they

at 4 p. m.

were overpointed.

#### **Barb Union Meets with Frosh Publication Board Unaffiliated Leaders Explain Selects Yearbook** Activity System to New Men **Manager Today** ... In Union Tonight Business manager for the Corn-

Unaffiliated men will have their first chance to find out about barb activities when barb union holds an open meeting in parlors X and Y of the union tonight at 7:30.

All men interested are urged to attend, Dave Marvin, union president, said yesterday.

Three speakers will explain barb union activities for the year. Bill Horney, talking on the intra-mural program, will describe barb athletics to new members and guests. This fall's football club schedule begins Oct. 7.

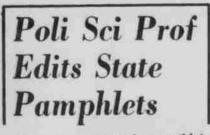

Besides submitting the barb University Literary Publication . . . council's treasury report, Bob Dewey will speak on the social program for the year and Blaine Sloan has planned a brief talk on the organization of the district system started last year.

Intra-Mural Program Planned.

New clubs to participate in the athletic program will be explained and organized in order to be ready for the intra-murals in October, Marvin announced.

In issuing a call for Corn Cob workers Monday, Don Steele urged barb sophomore men meeting athletic elegibility requirements to attend the Corn Cob rush smoker in the coliseum tomorrow.

Final checkup yesterday rewealed that barb council cleared \$80 on the first dance of the barb bomber series held Saturday night in the union. 750 unaffiliated stu-dents attended the party.

Three new research pamphlets on Nebraska governmental problems are scheduled for release in

Prairie Schooner, oldest literary quarterly in its field, enters its 15th year as it comes from the presses the first part of next week.

L. C. Wimberly, editor of the quarterly, stated that manuscripts from all parts of the United States and often other countries are sent by the hundreds into his office to be considered for publication. The "Schooner" is ranked for merit with the nation's best publications and foremost authors have won their spurs in its pages.

Next issue contains articles written by several well-known authors, Included in this list are five Nebraskans, two who are students in the university at the present.

Subscriptions sell for one dollar a year or 30 cents a copy.

Jesse Stuart, of Riverton, Ky., whose poetry, short-stories and novels have been published widely in America, appeared for the first time in the Schooner in 1930. Jack MacDonald shows up with his second article He is a news. Must Report his second article. He is a newspaper editor and his work has been published in such magazines On 'Sisters' paper editor and his work has

### **General Scholastic Rating Basis For Selection**

University's military department vacancies in 1940, as compared with scores more upperclassmen motivated toward taking advanced drill. Applications for the course this year, Col. Charles A. Thuis, commandant of the university ROTC cadet corps, disclosed Monday, already total 35 percent more than last year.

Altho complete figures for applications in the advanced course have not yet been compiled to include fall registration, 438 applications were received this year for advanced training, while in 1940 only 325 were received.

At the same time there were

first time.

War's impact has swamped the only 150 more applications than with 240 more applicants than vacancies this fall. This 60 percent increase of applicants with ratio to the vacancies was swelled somewhat by a larger carry-over than usual of returning juniors and seniors coming back to school.

> With this increased number of applications, selection of men to fill the vacancies is naturally more difficult, according to Thuis. In explaining the basis upon which vacancies are filled, the P. M. S. & T. of the cadet corps emphasized the fact that general scholastic standing, as well as scholarship in military science, are noted.

> Of those accepted to fill approximately 133 vacancies, 77 were in the upper third of their respective classes scholastically, with an 85 average or above in military science. Coincidentally, exactly one-half, or 219, were above the average of their class scholastically and had at least an 80 average in military science.

> Colonel Thuis estimated that at least 40 more applications will be added to the list of 438 when final figures are compiled.

two weeks by Roger V. Shumate, professor of political science.

Director of research for the legislative council, Shumate's compilations are concerned with: "Assessment and Collection of Property Taxes in Nebraska," "Taxation and Regulation of the Production of Oil and Gasoline," and "Settlement of Claims against the State." The reports will be submitted to the legislative council for final approval on October 6.

Besides compiling research reports, Shumate, as executive secretary of the legislative council, edits the Nebraska Blue Book, a handbook of Nebraska state government.

The council drafts bills and amendments for the senators when furnishes information to the senators at any time.

### Names Confuse New Frosh . . .

. . . Identical

Twin trouble is bad enough but Registration day Roy Edward Johnson's from Lincoln and Roy Smith. This is the first year that Emory Johnson's from Beatrice the counselors have been required troubles began. Each got the to turn in the reports in their "Litother's materials when they began the Sisters." to register. They met each other when they tried to straighten out their troubles in Mr. Ralph Bedell's office.

There they discovered that they are both in the college of music. They both have the same classes in military science, education, and university singing. They both are blonds, are about six feet tall, and weigh about one-hundred fiftyfive pounds.

They both like singing and dancing. They both are barbs and they both attend all of the union dances. They both drive '36 Buicks, wear size 91's shoes, and are 18 years old.

Their only complaint about university life is that no one seems to know who is Ed or Emory.
