

On the steady list after thinking it over for the better part of semester are Sammie Mort Margolin and SDT Bonnie Seldin... A triple deal hit the Delta Sig house Monday night when Joe Flamming and Chi O Gloria Hansen did the honors with candy and cigars, ditto Bob Harkins and Lois Kunselman and Jack Kniceley and Doug Varner, who held off with the treats, were treated to a tubbing... Nothing like being different, is there? So when Sig Chi pledge Chuck Mills asked Gamma Phi Maxine Hoffman if he could wear boots to their cokedate the other aft, she told him to wear his tux... He did...

Draggin' and Bitnchin'.

The Chi O's are formalizing Friday night... Outside of the steady deals, and those who're all pinned up, Marian Truhlon will take ATO Bob Buxton, Dorothy Tilton's dragging DU Dick Wilkins and Bonnie Price will take Phi Psi Ralph Mallot... ATO Bob Sandberg, who's ben alternating his dates with Kappas BJ Haney and Mary Ralston, branched out in the grill yesterday with Theta Toni McQuiston, who dates brother Tom Miller...

If Flame Burns.

Chi O Connie McCauley and SAE Bob Murray have a nice workable plan... They've called off those steady dates, but three weeks hence, if the flame still burns, they'll take up where they left off... Betas will formal Saturday night, as will the Kappas... At the Lincoln with the Beta contingent will be Beta pledge Bill Scribner and Alpha Chi pledge Mary Mason, and Gene Schlegel with Gamma pledge Jane Robinson... Kappas Sally Busch and Nancy Newbranch will dance with Phi Psi John Cook and SAE Louie Seybold at the Cornhusker...

PBK Esther Patterson had a diamond slipped on third finger, left hand about a week ago—now the date is set for "very soon"... The man? Timothy Higgins... All's well that prints well...

Former Daily Staff Member Visits Campus

Lt. Horace Gomon, former managing editor of the Daily Nebraskan and telegraph editor of the Norfolk Daily News, visited the campus last Tuesday. Gomon, a 1928 graduate, is now in the public relations department of the army. At the time Gomon was managing editor of the Daily Nebraskan, the publication's office was in the basement of U hall.

More than 91 percent of the 873 new full-time students who entered Wayne university in September were given "Class A" ratings in physical examinations recently completed.

Pledge Council To Participate In Greek Week

With the unofficial sanction of the Interfraternity Council the pledge council decided to take an active part in Greek week Feb. 8-13, sponsor a pledge dance towards the end of formal season at their meeting last night. The pledge council was formed last month, according to Pat Patterson, Sigma Nu pledge, to promote friendship among pledges and is "non-political."

This year's officers are Ted Finley Sigma Alpha Epsilon, president; Robert Johnson, Phi Kappa Psi, vice president; and Robert Olson, Alpha Tau Omega, secretary-treasurer.

"The Interfraternity Council unofficially sanctions the new pledge council because it will train freshmen for interfraternity work and prepare them to keep fraternities alive regardless of the war," said Walt Rundin, member of the executive council. Co-operation among pledges is important for better understanding among fraternities," he concluded.

The pledge council is composed of two pledges from each fraternity on the campus.

Evidence that dreams in children may occur before development of speech is reported by Dr. Milton H. Erickson, assistant professor of psychiatry at Wayne university.

Chemists Use Gas Masks To Find Mystifying Clouds

Great clouds of smoke poured forth from the ventilators in Avery chemistry laboratory at about 10 o'clock yesterday morning. Very worried professors and students groped their way thru the mists, looked for the blaze, and waited for the explosion which might come at any moment. Here was possible disaster; fires in chemical labs don't wait for the fire department.

A group of research chemists headed by Chief N. H. Cromwell were the first to reach the janitor's storeroom in the basement, the origin of the trouble. Unable to see the fire in the billows of smoke, gasping for a little pure air, Cromwell, armed with a carbon dioxide spray, hurled himself to the floor (there's a little oxygen there) and crawled off in search of the blaze.

... Of Smoke
Choking, he called for some gas masks whereupon the crowd which had gathered hurried off for them. In ten minutes the excitement was over, the fire out, the fire fighters alive and well. When the smoke cleared away the story revealed itself. Some papers and rags had started to burn thru spontaneous combustion. With no window in the room the smoke went out thru the ventilator and found its way into the entire ventilating system. Total loss: one roll of paper towels. Finis.
