Guest Writer.

Co-op co-operation tonight in the famed Union ballroom and all to the tune of Hank Mattison when the first of the here-and-after annual co-op formals gets under way. Dancing along with the rest of the couples will be Jerry Beattie and Jerry Skoog from ACBC with Wilma Marcy and Shirley Statts, Cornhusker Co-op's Bob Woest and Ralph Marlette with Eileen Chappelle and Marjorie May and president Nels Nordland from Pioneer co-op with PBK Clara Malster and Jim Wolford with Lois Jenkins.

A little deal we find a bit confusin' but amosin' is the steady affair which Jerry White, DU, thinks he's pulled on Jean Gruening, DG beauty. But how to explain the steady dates past, present and future that she makes with one Johnny Bauermeister, Beta Sig? Also worthy of bold, black headlines is the picnic that Theta Adie Reed and Fiji Squash Campbell are planning for Saturday eve. Where does that leave supposedly steady Bob Stemmmons, who was recently so unfortunate as to have the measles the night before he left for parts unknown in the Navy Air Corps?

Will It Be Steady?

Another impending steady deal is also mixed with a picnic. It seems that while KKG Nancy Newbranch is considering settling down to Don Anawalt, Sigma Nu, she took time out to picnic with Beta Gene Bradley. And did you see the hang-over from the age of the mammoths in which they sallied forth? Well, it did have four tires.

Now for the Palladian spring formal which haps this Saturday. We are about to call up our man and ask him to take us, which is just what the girls must do to be seen at this affair d'amour. Lela Lyne finally screwed up the courage to ask the escortship of Don Pierce, while Berdine Ellis took the easy way out and asked Hugh Stuart, who had already dated her up for the Co-op formal.

Little things around that we find humorous are the six little primary grade boys who intimidated Betas Bill Anderson and Homer Sheridan to the pitiful point that sent them running to the house from their own back yard for protection. Suggested is a physical fitness program. . . . Then there are the Kappa sun worshippers who rolled up in blankets yesterday when the Sigma Nus raided the Kappa back yard with cameras. . . . Also the hit that Phi Psi Dave Cusack is quite evidently making with the ag farmerettes in his chem lab on that campus. . . . Ditto the hurried way Norrie Anderson, Phi Gam, takes over coking dates with Theta Dot Theisen while Beta John McCarthy is said to be attending a wedding in Detroit. . . . And finally the latest hair-do on the campus—that of "Veronica" Russel of Cornhusker pep, vim, and vigor. . . .

They Entertain.

We approve heartily of the way Nebraska coeds are taking this business of entertaining the men who are one and all threatened with army service. Take, for instance, the Kosmet Klub date Kappa Delt Georgia Koler made with Theta Gerry Anderson's Kappa Sig Capron Coe, after an exchange hour dance last weekend. Cords and cottons are the order of the Alpha Chi's house party this Saturday. Couples bouncing are Frankie Haberman and Fiji

Before Catching Her Own Man . . . Uni Theatre Play Heroine Must Marry Off Sisters

Catching a man for each of her three older sisters is no easy job for the heroine of "Seven Sisters," University theater's next play opening April 29 at Temple.

From a nineteen year old glamor girl, the heroine transforms herself into a fifteen year old "nursery school-ite" and, with the help of an attractive young man whom she met when she ran away from school, she manages to find a man for each of her sisters.

One change has been made in the original cast; the stern, though kind-hearted, Colonel Rodvian will be played by Frank O'Neill instead of Max Whittaker as was previously announced. In the absence of Paul Bogen and Delford Brummer, heads of the theater now in active duty, Mr. Aron is serving in the dual capacity of stage designer and play director.

Betty Rangelor, assistant director of the play has announced that the last two weeks of rehearsal will emphasize mood, and music. Costumes, under the direction of Miss Katherine Schwake, are being created with authentic Hungarian patterns and colors.

Phys Ed Club Offers Skating At Open House

With roller skating featured, Grant Memorial holds opens house every Saturday afternoon from 2:30 to 4:30. Besides the skating ping-pong is offered in the loft and badminton in the modern dance studio.

This affords the masculine element the opportunity of a lifetime to see the inside of the girls' gymnasium as it isn't during the Penny Carnival, as well as providing a real bang up time for afternoon dates.

Sponsored by the phys ed club, the roller skating happens in the main gym, and is 25 cents per person, skates included. If you have your own skates, the price is cut to 15 cents.

WAA Holds Over-Night Party at Cabin

And a gala time was had by all—or will be had this Saturday night when the old and new WAA council hold their annual outing at the WAA cabin about seven miles south of Lincoln.

Planned to better acquaint the various members and particularly to have a good time, the house party is an old custom in the WAA. Members are asked to bring their own bedding and meet at Grant Memorial at 5:15 p. m. Saturday.

Psychologically speaking, it is sound to maintain many part-time extra-curricular activities in time of war, in the opinion of Dr. Paul White, University of Texas psychiatrist.

Ray Treinen, and Jeanne Holtz with Gus Swanson, the four of whom are planning a heavy waffle party beforehand. More twosomes include Carlene Hohensee with Dick Holm and Martha Ann Reed with Bud Luers. Another of those super house parties that same night is over at the ZBT house. Ray Grimes is dragging Kappa of last year beautiful Jean Minick who now peddles records at Walt's Music Hut on "O"—oh, oh! And Ed Miller has similar plans for Bernice Himmelstein.

Now before we say goodbye—we love-you-all, we must relay an urgent request from poor Fiji Bill Long. He needs but bitterly lots of pigs (the real thing) for the Fiji-Tau tussle imminent on the Nebraska horizon. Now good-bye—we love-you-all.

For recommended movie-going, we suggest BAHAMA PASSAGE at the Stuart. It's got Stirling Hayden and Madeleine Carroll in Technicolor. Gee, they're purty! —Adv.

Miss Rutledge Reports . . . Library Loan Desk Reaches New High in March of 7,040

Does library circulation mount with the thermometer, or does it rise with the closing of the semester? This is the question that Miss Margaret Rutledge, general loan desk librarian, has been pondering the last month.

During the month of March the largest number of books were loaned out for one single month. Seven thousand and forty books were loaned out during this single month, and on one day of this month, circulation hit its peak with 403 books being loaned.

Running a close second to this record was, strangely enough, last year's month of July in which six

thousand, four hundred fifty books were loaned.

Viewing this month's circulation of books, the pace is not letting up any, according to the loan desk official. "The first half of April is well up to last month's pace and there is a possibility of last month's record being surpassed," she added.

As a final analysis, Miss Rutledge cited that it was probably neither the thermometer or the closing of the semester, but that this is the "term paper season." The rush comes always at this time of the year, and the reason is that a large number of people are writing term papers for their various courses, concluded the librarian.
