Committees, Plans Given For Round-up

Plans for UN's 1942 alumni round-up, to be held from May 23 to 25, were advanced today with the appointment of committees for five classes that will be honored this year.

Mrs. Harold Stebbins of Lincoln, chairman of the round-up, named the following committees which will send out special invitations to members of their respective classes and arrange details of

Politics Are Important.

A section of the handbook is devoted to politics which has seemingly settled itself into fairly strong factions on this campus. For practical purposes and for the insurance of the maintenance of student government of a desirable form, any election demands the existence of two or more political parties, and the division, as it exists, is between those students who are members of fraternities and sororities and those who are unaffiliated. Politics should not, however, exert an influence over the business of the Student Coun-

The greater part of the Student Council's work is not done by the action of the body as a whole. All new projects are first presented at a general meeting for the consideration of the group as a whole and the Council passes preliminary judgment on the valdity of the problem or project.

Since the greater part of the Student Council's work is accomplished by the committees which exist within the Council it is obvious that the committee organization must be efficient. The permanent committees are the judiciary, elections, constitutions, activities, cheerleading, rally and migrations. The Council also appoints representatives to the Student Union Board, the rally com-

Playing for dancers at King's ballroom Saturday night will be Lucky Millinder and his Decca recording band. The organization features songs by Sister Tharpe and is billed as "a new sensation in dance bands."

Wentz Takes 'Pot Shots' With Camera

What's doing around the campus, and what's been doing, pictorially, that is, is the subject of a series of candid portrait shots snapped here and there on guard and off-guard by Phi Gam Larry Wentz. These pictures are on display in the Union book nook beginning today and continuing for week.

Delta Gammas, Kappa Alpha Thetas, Phi Gams, DUs, Alpha Phis, Betas, Kappa Kappa Gammas, Sig Alphs, ATOs, Sig Alphs, Barbs, Phi Delts, and Delts are a few of the groups pictured. Individual shots include Pat Herminghaus, Toni McQuistan, Helen Johnson, the Copple brothers, Corrine Woodworth, Carl Petty, Becky Waite, and Maxine Thomas.

Candid shots of the Storybook Ball, wrestling, swimming, coking, ROTC marching, and various other campus activities have also been caught and are on display.

Council History.

committee.

The Student Council, which was created in its present general form by vote of the student body on May 14, 1931, has had a remarkable history. Seven years ago it started the \$300,000 fund drive for the Student Union building.

In 1936 the Council sponsored the national N.S.F.A. convention and after long effort on the part of the Student Council the Regents Book Store was opened.

Five years ago the Student Council affiliated itself with the National Student Federation of

In 1938 the men's activity point system was set up.

New election rules were adopted in 1939 and revised in 1940 as the result of a vigorous controversy over the results of an election.

The year 1941-1942 marked the creation of what may become a project of great importance, the Nebraska Student Foundation. The Council also sponsored a campus drive for the American Red Cross. The book store committee succeeded in getting the price of caps and gowns lowered and, in addition, the book stores agreed to contribute a portion of their profits to the newly created Student Foundation.

The uniform comes complete with gold buttons (regulation, with eagle), olive drab hue and insignia. Insignias come in all shapes, sizes and colors, but the best-dressed man on the campus, from this side of the situation, wears three silver diamonds on his shoulder. And a dignified expression on a stern face.

They Watch the Men.

Gathered along the bank to watch their men in action were clusters of Nebraska's typical Dr. Lyman Attends lovely coeds. We noted that they wore, under topcoats, summer dresses—cotton shirtwaist jobs—and spectators. We were glad to see that summer has come at last. We were happy to find that the coeds were more numerous, presumably because of national defense. Buy bonds and stamps now.

Tomorrow the situation will change—drastically. Summer will still be here. People will traipse over the old campus and sit beneath the trees to watch traditional ceremonies connected with the planting of the ivy and the

Education Meet

Dr. R. A. Lyman, dean of the college of pharmacy, leaves the campus today to attend a meet-ing in Chicago of the American Council of Education, which will take place Friday and Saturday, May 1 and 2.

Dr. Lyman will represent the American Association of Colleges of Pharmacy, on which he has served as delegate ever since the association joined the council twelve years ago.
