BY MARY LOUISE GOODWIN.

While the Betas put their asylum inmates back into straight jackets, the Pi Phis pull down the cobwebs and sweep out the gory figures, the Gamma Phis pull down their silvery moon, and the Sig Alphas and Farm House men pull the furniture out of closets and roll the rugs back down, we'll look at the prospects for this week. From here it looks like the usual first of the week slump . . . Among those who rounded out the week in a big way Sunday night were Chi O Dorothy Black and Ed Copple, Phi Gam, and Polly Parmele and Laird Fischer, Phi Delt.

Have you talked to Harold Hanson, FH lately? Don't try 'cause he won't talk. His jaw is all wired up—and they call it touch football.

No More Steady . . .

DU Bert Brown was among the first to find out that Theta Marian Lynch isn't going steady any more and he wasted no time fixing up a big deal last Saturday night at the "Pike" . . . On the steady list, however, are Norm Hahn, Sammy and Deana Lagman from Omaha . . . Another couple seen more and more places in each others company are SAE "Boggie" Bennett and Dee Gee pledge Madeline Haecker . . . Virginia Mutz and High Stuart are another pair who are frequently twosomeing of late.

ATO's Picnic.

We hear that the ATO's had a novel picnic Sunday night at Penn Woods with food and all the other comforts of home. John Mason saw to it that no one went astray by improvising a trail, similar to that of Hansel and Gretel, only via the TeePee. John Mason, Jim Van Landingham, and Don James were there with "Sadie" Hawkins, Alpha Phi, "Cluckie" Rosborough, Theta, and Mary Mason, Alpha Chi, respectively.

That special smile that Pi Phi personality gal, Susan Shaw was wearing this week-end was due to the fact that pinmate Bernie Buell was back in town.

Monday is the usual night for candy passing but the Pi Phis had theirs Saturday. Marie Hossack and Ann Vogel decided to come across with the sweets. Ann with Theta Xi Burt Peters and Marie with Iowa Fiji, Ray Pressman.

Rumor has it that Barbara Rehberg and Ralph Fox are going steady these days but they don't talk about that.

Allen Zikmund hereby gives notice that he'll stand for no more competition when it comes to Pat Green. They're going steady again. If you want to argue boys, you'll find Zik over at the Sig Alph hut waiting for you.

. . . In Hotel Ballroom

There will be 100 beautiful models on hand to show milady what her hair will be doing this year at a coiffure style show Saturday

at the Cornhusker hotel ballroom.

Students . . .

(Continued from Page 1). certify to the commissioner the eligibility of each applicant for a loan, but loans are not dependent upon prior approval of the commissioner.

Determine Eligibility.

Eligibility for the loans to full-time students is determined by the following:

- (a) Whose technical and professional education can be completed within two years or 24 months after the first loan;
- (b) Who attain and continue to maintain scholarship standards satisfactory to the institution in which they are enrolled;
- (c) Who are in need of assistance to enable them to remain in college;
- (d) Who agree in writing to participate, until otherwise directed by said chairman, in accelerated programs of study, in any of the fields authorized hereunder, and,
- (e) Who agree in writing to engage, for the duration of the wars in which the United States is now engaged, in such employment or service as may be assigned by officers or agencies designated by the chairman of the war manpower commission. Students who enlist in the armed forces of the United States are eligible for loans on the same terms as other students.

Standards Are Fixed.

Institutions taking part in the accelerated program are forbidden by government law to prescribe any other conditions or standards. Students who already have received other aid are still eligible to secure these government loans. The present program is limited by a congressional act to cover the

period July 1, 1942, to June 30, 1943. Objective of the program is to assist students in accelerating their programs for the rapid completion of courses in engineering, chemistry, medicine (including veterinary) and pharmacy. The fact that this is an accelerated program means the academic schedule provides within the 12 month year beginning July 1, 1942, at least the equivalent of one and one-third academic years of nine months without adding materially to the normal academic load expected to be carried by students.

Definitions of the accelerated fields as released by the government are as follows:

- (a) "Engineering" means a curriculum in engineering leading to at least a bachelor's degree in engineering.
- (b) "Chemistry" means a curriculum leading to at least a bachelor's degree with a major in chemistry.
- (c) "Medicine" means a curriculum leading to at least a degree of doctor of medicine or of doctor of veterinary medicine, or equivalent degrees.
- (d) "Pharmacy" means any curriculum in pharmacy leading to at least a bachelor's degree in pharmacy.

Nebraska is not participating in the accelerated schedules for dentistry and physics.

Senator Asks Prohibition For Draftees

To protect new draftees Senator Josh Lee of Oklahoma stated yesterday that he would present a bill to the senate urging the amending of the 18 and 19 year old draft bill to impose prohibition in areas around all military and naval posts.

This bill, he said, would prohibit the sale, possession or use or gift of all alcoholic beverages, including beer, in army and navy posts and within surrounding areas to be designated by the secretary of war. In the case of naval stations the secretary of war would be able to act the same as in army camps.

Supporting his bill, Lee declared, "When our sons of 18 and 19 are needed for military service, it seems to me it is not asking too much that they be given the protection this amendment would afford."

"A training camp is a school teaching the most serious business in the world," he continued. "Liquor is not allowed to be sold in or near the schools these boys would be attending if they were not needed in the effort."

"I shall press for adoption of this amendment with every power at my command." Military committee had previously rejected the plan.

Theta Sigs Hold Tea

Theta Sigma Phi, honorary journalism sorority, will have a rush tea today at the Delta Gamma house from 4 to 6 p. m.

Phi Chi Theta Rushes

Phi Chi Theta, honorary business organization, will hold a rush party Tuesday at 7:30 p. m. at the Union.

Laughlin voiced regret that Panhellenic had taken such a move, but expressed a hope that the show live up to the shows of last year. Fraternities will submit their skits by tonight at 5 p. m.

Dr. Ginsburg Leads Panel Discussion

A panel discussion on the Russian situation will be led by Dr. Michael S. Ginsburg, professor of the classics, at today's meeting of the International Relations club,

Dr. M. S. Ginsburg.

scheduled for 7:30 p. m. in the faculty lounge of the Union. Student members of the panel will be Hazel Stearn, Bob Dewey and Emily Griffing.

With discussion open to the audience as well as the panel, the formal topic: "The changes in Russia caused by the war, along the lines of human relations, government politics and religion."

Open to Students.

According to an announcement made yesterday by Mary Eileen Dalton, president of the club, this meeting is open to all students who are interested in international politics, and is not restricted to members of the club.

The panel discussion will be followed by a short business meeting. Norman L. Hill, professor of political science, is faculty sponsor of the club.

"How about a Coke date?"

"We've been 'goin' steady' a long time, you and I. You see, I'm a symbol of the life and sparkle of Coca-Cola. Therefore, I speak for Coke. I like your company. I offer something more than a thirst-quenching drink. It's refreshing. Yes sree...it's got that extra something you can't get this side of Coca-Cola itself. Let's get together. Make it a Coke date."
