## UN Military To Continue Basic Drill

### ROTC training Courses Open

Contrary to rumors that the university ROTC had been dropped for the duration, first and second year basic, and, perhaps, the second year advanced course, if there is enough call for it, will be offered during the coming school year.

Basic training is compulsory for all men students who expect to obtain a bachelor's degree and consists of two years of military fundamentals.

Freshmen men will find ROTC greater immediate value to them than ever before, said Capt. E. C. Richardson who is in charge of the ROTC. They will be given one year of thorough training coupled with academic life before being taken into the army. This training will help smooth out many of the difficulties encountered in army life.

#### ROTC's Have Advantage.

ROTC students have an advantage of training over those soldiers who have not had it. Military fundamentals, the handling of high powered guns, first aid, discipline are all touched in ROTC training and must be learned in the first few weeks of army life.

A permanent organization in colleges and universities throughout the nation, the ROTC will continue to function after the war when many of the emergency military organizations have to be eliminated according to ROTC officers.

#### Reorganized by Pershing.

The ROTC was introduced to the University of Nebraska in 1876 and became a compulsory course one year later. Lieut. John J. Pershing, commandant from 1891-1895, for whom the Pershing Rifles were named, reorganized the unit and placed in on the firm foundation which it stands upon today.

Present administrative officers of the military department are Col. J. P. Murphy; Lt. Col. Lloyd H. Shafer; Lt. Col. A. T. Lobdell; Maj. E. E. Matschullat, Maj. Marvin Edminson; Capt. E. C. Richardson, and Capt. Leo Pinard.

#### Wanted: Males.

Enslin urged any students, "male or female (with emphasis on the former) who are faintly interested in dramatics to come over and get acquainted." In regard to the University Theater program for the year, he stated, "it is as yet unsettled, until we can discover the extent of the male population, but we will do our best to give a well-balanced group of plays with the accent on comedy."

Zimmerman, former director of the Theater, is now associated with Paramount studios in Hollywood as assistant director, in training for a directorship. He reported to the studio in early August. Dr. L. T. Laase, chairman of the speech department, said, "We are sorry to lose Mr. Zimmerman; he was an excellent teacher and a superior director. However, we are fortunate that in Mr. Enslin we have received a man exceptionally well qualified to carry on the high quality of work which characterized the University Theater last year."

Gamma Phi Beta, in spite of a quarantine for scarlet fever in the spring, maintained the highest social sorority average on the campus last semester. And, as in previous years, the women of the university attained a higher average than the men, and professional fraternities had the highest average of all.

Topping the scholarship of the entire university for the second semester of 1942-43 were three professional sororities, Phi Chi Theta, (business), Omicron Nu (home economics), Mu Phi Epsilon (music), and one residence hall, Howard Hall. These scores were from six to nine points higher than the all-University average.

#### Farm House First.

Farm House fraternity, national professional and social fraternity on Ag campus took top scholastic honors for men. It ranked eighth in the all-university scholarship.

As in past years, the unaffiliated students led affiliated students, as the women ranked over the men. The all-women average was 2.607; the all-men average was 2.335. The non-sorority women averaged 2.626, the sorority women 2.579; and the non-fraternity men scored an average of 2.393, the fraternity men 2.2300.

In determining the average grade points by which the groups are ranked, four grade points are awarded for each credit hour carried with a grade of 90 and above. Three grade points are awarded for each credit hour carried with a grade of 80 to 89. Two grade points are awarded for each credit hour carried with a grade of 70 to 90, and one grade point for each credit hour carried with a grade of 60 to 69. Points for incompletes and failures are subtracted from the total score. To obtain the average for each group, the total grade points are divided by the total number of hours carried by the group.

The various groups ranked as follows:
