This New Activity Has Possibilities

A new activity is making its appearance that's not only a good idea, but looks like it's going to have a well-thought-out organization to get it started on the right foot.

Thus far without a permanent name, this activity goes by the unlimited title, "All University Funds." As stated in the plan of organization, "The purpose of this group is to organize, promote, and administrate all drives for funds for any off-campus organizations desiring to derive such funds from the students as a group."

The purpose is commendable, its object worthy, and the organization of the group even more meritorious. Constituted by an advisory council (ordinarily seniors) and five heads of contact groups (juniors or seniors who have worked on the drive their sophomore year) the activity, called AUF for facility, has the attribute of using people who have had experience for the leaders in the various drives.

One, a senior, will be director of the organization, and working under him will be four juniors in

charge of the soliciting, publicity, treasurer, and clerical divisions. It will be the duties of the advisory council to "advise and supervise the working heads. It shall dictate the policies and guarantee the execution of duties of these heads."

There won't be a great deal of work for those on the AUF except during the time of the drives—such as Red Cross, WSSF, etc.—and as many of these drives as possible are going to be united into one campaign so that students will not be continually bothered by a half-dozen different solicitations. But the organization and smooth functioning of this group during the drives takes much preparation beforehand.

The AUF also has another point of excellence. It is an activity which will take a great deal of work on the part of many students, especially juniors. But in getting this extra activity credit they will be doing something that is really worthwhile and more important work than some of the activities now demanding students' time.

In its embryo stage the plan is a good one. Let's see it work!

BY LAURA LEE MUNDIL.

Back again with news of happy lassies such as Marj Christensen and Pat Parrish, Thetas now that pinmates Phi Gam Paul Wykert and ATO Roland Findley are back on the campus—even far distant ag college seems close now, huh, girls? Welcome, too, to Pete Durland and Gene Reece and all the other boys returning to the old stomping grounds.

Furloughs and more happy people—DU John Drummond back from the Army to see pinmate Alpha Phi Lorraine Rabe—Delt Ed Nyden from Northwestern with wife Alpha Chi Phil Rae last weekend—and, last but not least, while on the subject of men and wives, Forrie Backman and DG Ruth Tomlinson reunited.

Army Men Rate.

Here and there: DG Bonifé Hinrichs with engineer Jim Klebhan; Theta "Butch" Winter whipping around with the Lithuanian accent of a lieutenant, Pete "Much-u-like-us" (I don't know how to spell it either) stationed at the air base; DGs Nina Scott and Helen Johnson coking with Jim Hall and Phi Delt (boy with a convertible) Johnny Jones.

Lots of diamonds these days, what with former DR Carol Robinson on the receiving end, sender being one Doug McLean—also, to AOPi Helen Dietrich from Wally French who speeded up from K. C. to UN with the little token.

Speaking of tokens, we have a hard time keeping up with ATO Norm Locke (now of the Navy) who left his little football charm with Joan Hunsinger, Alpha Chi.

On With the New.

New combinations as old boys return, Thetas Jo Bohrer and Patty Pierce with Tau boy Mark Hargrave and Fiji Bud Johnson. And Phi Gams from any campus not to be outdone as we see Jeanne Dresden, KAT, and Larry Johnson of North Carolina doin' all right. And still at the Theta house, here's news of Ginny Malster with a certain Ken Perry, Sig Alph from Drake.

Things that do my heart good; couples getting along as well as Theta Ann Seacrest and Phi Psi Wayne Southwick, to say nothing of Tri Delt Betty Dicks and Phi Delt Howard Chapin. But there are always broken up steady deals as between Delt Kay Bump and AOPi Pat Beedan.

Well, never a dull moment on this campus as long as the ATOs and Sig Eps continue to serenade in the moonlight—specially with Sig Ep strip teases as added attractions.

The schedule set up for the men includes 59 hours a week of study and training.

About Nov. 7 or 8, 26 field artillerymen, formerly from the university, will arrive and seven more infantrymen will return earlier. Men from the different units will continue to filter in up until Thanksgiving time, according to Col. J. P. Murphy, commandant.

When all of the former UN ROTC men arrive, the total number will reach 116. Reservation has been made for 140 men, indicating a possibility that men from other schools will train here under the same program.

Beauty Queens Yearbook Sale Begins Today

Tassels start Cornhusker sales today to determine the number of candidates for beauty queens. All sales must be in by Nov. 14 if they are to be counted. Order the 1944 yearbook for \$4.50 or \$2 down and balance before Feb. 1, 1944, by contacting a Tassel.

Twenty-five sales constitute one candidate for beauty queens. The books sold to students at registration, plus these later sales will be credited to the affiliated houses and organizations such as Palladian and Towne Club.

WAR COUNCIL.

War Council musical tryouts and plans will be discussed tonight at 7:30 in room 303 of the Union. All those interested in participating should attend.

ARCHERY MEETINGS.

All needs interested in archery are urged to attend the first meeting of the Archery club, Thursday at 5 o'clock in the WAA lounge in Grant Memorial.

SHIN BANGERS.

The Hockey club will meet Thursday at 5 o'clock in the women's dressing room in the Coliseum. Come dressed to play.

HOME EC CLUB.

All Home Economics club members will be initiated today from 7 to 9 p. m. in the Ag Activities building.

TELEPHONE lines from poles to homes take a terrific beating from old man weather. And with wire for replacements drafted for military use, existing lines must be kept in good condition.

Asphalt coating applied in time keeps out moisture, chief trouble maker on telephone lines. Without lowering the wires, this trolley painter speeds the coating—helps recondition 50 lines a day.

This simple "stitch in time" helps keep communications open to the homes of America—and saves critical materials for vital war weapons.

War calls keep Long Distance lines busy . . . That's why your call may be delayed.
