Army, School Heads Discuss AST Policy

University officials and campus army unit heads will speak at a convocation for all AST and AST-affiliated soldiers on the main campus at 10 a. m. tomorrow in the coliseum.

Basic policies, principles and advantages of the ASTP is the speakers' subject. University officials who will talk include Chancellor C. S. Boucher, Dr. Ralph Ireland of the dental college, Dean O. J. Ferguson of the engineering college, and Dean Charles Oldfather of the arts college.

Col. James Murphy, commandant of the University army units, and Capt. C. J. Lindley of STAR classifications, will speak for the military. Capt. Robert Johnson will preside. Music has been planned by the university ROTC band.

The convocation is a required formation for all AST engineers and language students as well as dental students, AST reserves, and AST-ROTC men.

Chorus Tryouts Slated For 6:15 Monday Night

Try-outs for membership in the AST Male Chorus will be held tomorrow night at 6:15 in the third floor study hall of Love library. All ASTP and ASTRP men who are interested in choral singing are eligible.

The group is under the direction of M/Sgt. James D. Smith, who was a UN music instructor before entering the army. The boys recently made their first public appearance at the First Presbyterian church, and expect to make several more such guest appearances during the present term. Also scheduled is a performance at a war-bond rally in March.

Many vacancies were created in the personnel of the chorus at the end of last term. It is hoped that the new men of the AST reserve will respond in sufficient strength to fill the empty chairs.

Raiders Whip Co. C, 71 to 42; 'B' Trims 331st Easily, 68-43

Powerful Base Team Led By Tatum, Hudak

A highly-g geared, smooth-functioning Air Base quintet trampled over a game but out-classed C Company team last night to win, 71 to 42. The Raiders led at half-time 39-19, and went on to score 39 more points in the second period to rack up a decisive victory.

Big guns for the Base outfit were "Goose" Tatum with 22 points, and Bob Hudak with 20 counters. These two were given plenty of help by Vic Krafft with 11 points, Ralph Brady with 10, and Husky Tony Koval who added 6 points to the winners total.

Reliable Milt Dobrer paced the ASTP quintet's attack with 14 points, aided by ex-UN John Bottorf with 10 markers. After 7 minutes the Raiders led 9 to 3, and the closest C Company came to tying it up was with 12 minutes gone when the count stood at 12-14. Hudak's one-handed shots were dropping from all angles, as he scored 14 points in the first session.

Scheer and Fuller Spark Quintet To Decisive Win

After getting off to a slow start, company B turned on the heat in the second half to wallop the 331st training group from the Lincoln Air Base, 68-43, in the first half of Saturday night's doubleheader in the coliseum. The air base five, led by Walton and Myers, showed to advantage in a fast first half, to lead 25-21 at the whistle.

The second half found company B fastbreaking, and sifting thru the 331st's defense almost at will, as Bob Scheer dropped in seven field goals and Bunny Fuller six to lead the attack. The Green really began to roll about five minutes after the half, and left no doubt as to which was the better team, scoring 24 buckets in a furious second period.

C-Men Edge Air Corps in Second Tourney Opener

Opening the second round of the military interunit basketball league during Christmas vacation C company topped the Air Corps in a low-scoring tussle, 28-26, on Tuesday, Dec. 28.

The Birdmen pulled away to a 9-3 lead midway thru the first stanza, but Burstein and Burdette led the boys in blue to a slim 14-12 halftime lead. Harris and Mitchell paced the Flyers' offense, which matched the "C" boys second period attack, each team scoring 14 points. However, the Air Corps was trailing 17-26 with about 8 minutes to go, and put on a rally which almost nipped the winners.

Box score:

Company C	fg	f	pts	Air Corps	fg	f	pts

Missouri Men Join AST As Advanced Engineers

Thirty-nine new privates first class have arrived from Jefferson Barracks, St. Louis, Mo., to become part of the AST advanced engineers stationed in the field house.

The men, who were previously assigned to the air corps, have all had college work in pre-meteorology and are in Company F.
